Excerpt from *Froissart and the English Chronicle Play*

The present study was undertaken in order to disclose the relationship existing between the Chronicles of John Froissart and historical literature in England up to the seventeenth century when the Tudor Chronicle plays vanished from the stage. During the last two decades critical scholarship has discovered many intimate relations between French and English lyric and romance of the medieval period and between the writings of the Pleiade and the poetry of the Elizabethan age. Investigation however of Froissart's connections with English Literature has been almost wholly confined to his poetry chiefly with reference to that of his friend Geoffrey Chaucer. Froissart's most noted work the Chronicles which was translated into English by Lord Berners as early as 1523 has been generally overlooked as a source for the Sixteenth century chroniclers and the succeeding dramatists of English history. Moreover in searching for sources of chronicle history plays critics have confined their attention too exclusively to the Chronicles of Holinshed largely perhaps because Shakespeare has given this history such enviable prestige. But other and better chronicles of this period also found eager readers. Today when any question arises concerning sources for chronicle plays the easy and immediate answer is Holinshed. In Opposition then to what might become a facile dogmatism the following pages endeavor to reveal to what extent those chapters in Froissart's Chronicles that relate English history particularly the reigns of Edward III and Richard II influenced the chroniclers and playwrights of the Elizabethan age. To facilitate this investigation the first two chapters review the life and literary work of Froissart and of his translator Lord Berners. In writing these chapters I have availed myself freely of the excellent work of previous investigators and have therefore presented little that is original. The remainder of the first part discloses the continuous vogue of Berners' Froissart among the long succession of English Chroniclers and demonstrates in nearly every case their literal indebtedness to this translation. The second part discusses in detail the numerous poetic and dramatic versions of Edward III and Richard II in Elizabethan literature and attempts to prove the indebtedness of the authors to Berners' translation. Chapter IV presents the new and complete sources from Berners for the anonymous play *Edward III* wrongly supposed to be derived from Holinshed and reviews in this light the question of authorship. Chapters VI and VII offer for the plays *Jack Straw* and *Woodstock* sources that heretofore have been either incorrectly or partially traced. The last five chapters show the use made of Berners by Samuel Daniel while writing the *Civil Wars* and in view of this relationship throw new light on the indebtedness of Shakespeare's *Richard II* to Daniel's epic. Edward II and a Literature of Same-Sex Love Michael G. Cornelius,2016-10-21 The narrative re tellings of the life reign and death of the English King Edward II reigned 1307 1327 present a unique opportunity for scholars of sexuality in the early modern era This is because the works of authors like Christopher Marlowe Michael Drayton Sir Francis Hubert Elizabeth Cary and Richard Niccols were all inspired by the public cultural memory fashioned from Edward's same sex love affair with Piers Gaveston As such each of them presents a particular representation of and a specific discourse about male male sexual relations in the Renaissance In other words what these works present is a concentrated body of literature about same sex love in the early modern era works that openly and frankly explore the possible origins of the love the reasons and causes for it works that explore the ramifications of male male romantic relationships works that explore the sexual politics and sociocultural dynamics of same sex romantic partnerships and works that describe and denote same sex love from an English Renaissance perspective This study looks at each of the major Renaissance texts about Edward II and examines the means through which each text understands and analyzes the nature of male male same sex love From Marlowe's crafting of a lover identity for Edward to Drayton's obsession with Marlowe's version of gay history from Hubert's Augustinian construction of Edward's nature to Cary's identification with the fallen king to Niccols inspired exemplum what each of these works demonstrates is that the love that dare not speak its name would not be silenced at least not in the case of Edward and

Gaveston When one sees the name Edward II one also sees his same sex loves The correlation has become ingrained into our public recall of history Thus as far as the world is concerned Edward II was and ever will be the gay king
