History of Political Theory: An Introduction George Klosko, 2012-10-04

This volume offers an engaging introduction to the main figures in the history of Western political theory and their most important works. It traces the development of political theory from its beginnings in ancient Greece through to the Reformation. *The Making of the West, Combined Volume* Lynn Hunt, 2012-01-04. Students of Western civilization need more than facts. They need to understand the cross-cultural global exchanges that shaped Western history to be able to draw connections between the social, cultural, political, economic, and intellectual happenings in a given era and to see the West not as a fixed region but a living, evolving construct. These needs have long been central to *The Making of the West*. The book's chronological narrative emphasizes the wide variety of peoples and cultures that created Western civilization and places them together in a common context, enabling students to witness the unfolding of Western history, understand change over time, and recognize fundamental relationships.
