From Dickens To Hardy Volume 6:

From Dickens to Hardy Boris Ford, 1968 *From Dickens to Hardy* Boris Ford, 1982 **From Dickens to Hardy ...**
Vol. 6 B. Ford, 1963 *Routledge Library Editions: George Eliot* Various Authors, 2022-07-30 This set reissues 5 books on George Eliot originally published between 1963 and 1989 The volumes examine many of Eliot's most respected works including *Middlemarch* *The Mill on the Floss* and *Silas Marner* As well as providing in-depth analyses of Eliot's work this collection also includes an extensive collection of her critical articles written between 1846 and 1868 This set will be of particular interest to students of literature **Faithful Realism** Josie Billington, 2002-05 Josie Billington seeks to resituate Gaskell's work within the wider tradition of nineteenth-century realism and argues that Gaskell deserves to be read not as a poor second to George Eliot but as offering an English Victorian equivalent of the religious realism of Leo Tolstoy

Travellers in Africa Timothy Youngs, 2017-03-01 Works of travel have been the subject of increasingly sophisticated studies in recent years This book undermines the conviction with which nineteenth-century British writers talked about darkest Africa It places the works of travel within the rapidly developing dynamic of Victorian imperialism Images of Abyssinia and the means of communicating those images changed in response to social developments in Britain As bourgeois values became increasingly important in the nineteenth century and technology advanced the distance between the consumer and the product were justified by the scorn of African ways of eating The book argues that the ambiguities and ambivalence of the travellers are revealed in their relation to a range of objects and commodities mentioned in narratives For instance beads occupy the dual role of currency and commodity The book deals with Henry Morton Stanley's expedition to relieve Emin Pasha and attempts to prove that racial representations are in large part determined by the cultural conditions of the traveller's society By looking at Joseph Conrad's *Heart of Darkness* it argues that the text is best read as what it purports to be a kind of travel narrative Only when it is seen as such and is regarded in the context of the fin de siècle can one begin to appreciate both the extent and the limitations of Conrad's innovativeness **A Choice of Poets** R. P.

Hewett, 1985-12 **Authority, State and National Character** Helmut Kuzmics, Roland Axtmann, 2017-03-02 This book presents a cross-disciplinary and methodologically innovative study combining historical macro sociology and a sociology of emotions with historical anthropology and cultural studies Drawing on the concepts and theories of Norbert Elias on the Civilizing Process it sets out to pin down and compare qualities that are simultaneously instantly recognisable and highly elusive that is a kind of typical Englishness and of Austrianness that developed contemporaneously in the period up to the First World War The authors chart the development of political authority structures in their varied historical manifestations as well as their affective sedimentation as collective habitus national character comparing England and Austria from 1700 to 1900 as a case study Their argument is based on an analysis of literary sources mainly novels and plays applying a sociology of literature approach Axtmann and Kuzmics argue that the very different national characters formed in England and Austria

during this time are related to differences in the affective experience of power and powerlessness in short of authority They show that the formation of national character is determined partly by the different mixture of authoritative external constraints and milder self restraint and partly by the affective experience of human beings in uneven power balances Specifically they show how the formation of the bureaucratic state with strong patrimonial features in Austria and of a self organizing civil society with strong bourgeois liberal features in England resulted both in different institutional structures of authority and in different modes of the affective experience of this authority Employing empirical detail of individual cases and texts to analyse and illuminate broad processes the authors reach a clearer and deeper understanding of seemingly intangible and irrational aspects of national identity

The Socio-Literary Imaginary in 19th and 20th Century Britain Maria Bachman, Albert Pionke, 2019-09-30 At once an invitation and a provocation The Socio Literary Imaginary represents the first collection of essays to illuminate the historically and intellectually complex relationship between literary studies and sociology in nineteenth and early twentieth century Britain During the ongoing emergence of what Thomas Carlyle in Signs of the Times 1829 pejoratively labeled a new Mechanical Age Britain's robust tradition of social thought was transformed by professionalization institutionalization and the birth of modern disciplinary fields Writers and thinkers most committed to an approach grounded in empirical data and inductive reasoning such as Harriet Martineau and John Stuart Mill positioned themselves in relation to French positivist Auguste Comte's recent neologism la sociologie Some Victorian and Edwardian novelists George Eliot and John Galsworthy among them became enthusiastic adopters of early sociological theory others including Charles Dickens and Ford Madox Ford more idiosyncratically both complemented and competed with the systems of society proposed by their social scientific contemporaries Chronologically bound within the period from the 1830s through the 1920s this volume expansively reconstructs their expansive if never collective efforts Individual essays focus on Comte Dickens Eliot Ford and Galsworthy as well as Friedrich Engels Elizabeth Gaskell G H Lewes Virginia Woolf and others The volume's introduction locates these author specific contributions in the context of both the international intellectual history of sociology in Britain through the First World War and the interanimating intersections of sociological and literary theory from the work of Hippolyte Taine in the 1860s through the successive linguistic and digital turns of the late twentieth and early twenty first centuries

Tainted Souls and Painted Faces Amanda Anderson, 2018-03-15 Prostitute adulteress unmarried woman who engages in sexual relations victim of seduction the Victorian fallen woman represents a complex array of stigmatized conditions Amanda Anderson here reconsiders the familiar figure of the fallen woman within the context of mid Victorian debates over the nature of selfhood gender and agency In richly textured readings of works by Charles Dickens Elizabeth Gaskell Dante Gabriel Rossetti and Elizabeth Barrett Browning among others she argues that depictions of fallen women express profound cultural anxieties about the very possibility of self control and traditional moral responsibility

The Regional Novel in Britain and Ireland K. D. M. Snell, 1998-12-10 The Regional Novel In Britain and Ireland 1800 1990

will be of interest to literary and social historians as well as cultural critics **Literary Criticism of Matthew Arnold**

Flemming Olsen, 2014-09-01 Many of the ideas that appear in Arnold's Preface of 1853 to his collection of poems and in his later essays are suggested in the letters that Arnold wrote to his friend Arthur Hugh Clough. Analysis of the Preface reveals a poet who found a theoretical basis for poetry by which he means literature in general in the dramas of the Greek tragedians particularly Sophocles. Action is stressed as an indispensable ingredient. Wholes are preferred to parts. The didactic function of literature is promoted. In short, the Preface reads like the recipe for a classical tragedy. It is a young poet's attempt to establish criteria for what poetry ought to be. He found the Romantic idiom outworn. Literature was in Arnold's perception meant to communicate a message rather than impress by its structure or by formal sophistication. Modern theories of coalescence between content and form were outside the contemporary paradigm. T. S. Eliot's ambivalent attitude to Arnold now reluctantly admiring now decidedly patronizing is puzzling. Eliot never seemed able to liberate himself from the influence of Arnold. What in Arnold's critical oeuvre attracted and at the same time repelled Eliot? That question has led to an in-depth analysis of Arnold as a literary critic. This book begins with an examination of Arnold's letters to Clough where it all started and proceeds with a close reading of the 1853 Preface. A look at some of the later literary essays rounds off the picture of Arnold as a literary critic. This work is the result of Reader and Review comments of the author's well-received Eliot's Objective Criticism: Tradition or Individual Talent. Yet he is in some respects the most satisfactory man of letters of his age. T. S. Eliot, *The Use of Poetry and the Use of Criticism*. **Ruskin and Modernism** Giovanni Cianci, Peter Nicholls, 2000-12-12

The extent of John Ruskin's influence has long been acknowledged though his impact on the development of Anglo-American modernism has received little systematic attention. In this volume published to mark the centenary of Ruskin's death, a group of international scholars consider what is often an awkward and conflicted relation. Ruskin's voluminous writings are seen to shelter an incipient modernism whose antipathy to a degraded modernity powerfully predicts a major current within the work of the new century. *Mysteries and Conspiracies* Luc Boltanski, 2014-10-10 The detective story focused on inquiries and in its wake the spy novel built around conspiracies developed as genres in the late nineteenth and early twentieth centuries. During the same period psychiatry was inventing paranoia, sociology was devising new forms of causality to explain the social lives of individuals and groups and political science was shifting the problematics of paranoia from the psychic to the social realm and seeking to explain historical events in terms of conspiracy theories. In each instance social reality was cast into doubt. We owe the project of organizing and unifying this reality for a particular population and territory to the nation state as it took shape at the end of the nineteenth century. Thus the figure of conspiracy became the focal point for suspicions concerning the exercise of power. Where does power really lie and who actually holds it? The national authorities that are presumed to be responsible for it or other agencies acting in the shadows: bankers, anarchists, secret societies, the ruling class. Questions of this kind provided the scaffolding for political ontologies that banked on a doubly distributed reality: an official

but superficial reality and its opposite a deeper hidden threatening reality that was unofficial but much more real Crime fiction and spy fiction paranoia and sociology more or less concomitant inventions had in common a new way of problematizing reality and of working through the contradictions inherent in it The adventures of the conflict between these two realities superficial versus real provide the framework for this highly original book Through an exploration of the work of the great masters of detective stories and spy novels G K Chesterton Arthur Conan Doyle John Le Carr and Graham Greene among others Boltanski shows that these works of fiction and imagination tell us something fundamental about the nature of modern societies and the modern state

The Sympathetic Response Mary Ellen Doyle, 1981 S C N Presents fresh insights into Eliot's fiction by concentrating on her rhetoric The author illuminates the theory of rhetoric by showing how one writer applied it and developed her craft from her early novels to her master piece

The Bronte Sisters and George Eliot Barbara Prentis, 1988-08-10 An approach to the lives thought and works of the Bronte sisters and George Eliot Seen against the background of the dramatically changing world their attitudes to such vital issues as religion the child the woman question love and sexuality the self and death are examined

The Arabic Novel Roger Allen, 1995-01-01 This edition includes new material on the Arabic novel up to 1993 It is a survey of the Arabic novel and its development from its beginnings in the 19th century until today It traces the origin early cultivation and the mature period after World War II of the Arabic novel

The Surplus of Culture Ewa Borkowska, Tomasz Burzyński, 2011-07-12 This multifaceted volume presents the elusive surplus of culture in the spotlight of theory and academic practice Despite its overtly economic implications the concept alludes to the added value of sense common sense and nonsense which is represented as languages of irony irrationality and absurdity potentially subverting traditional and mainstream regimes of culture Consequently the moment of surplus is inherent in critical interpretation in which supposedly well entrenched notions suddenly reveal their implicitly shattering and subversive nature The surplus of culture dwells at the risky intersection of untamed interpretation and tradition It is the space of the third in which literary canons are re-visited language reveals its hidden political agendas the Orient reclaims its own cognitive perspective and established structures of cognition are questioned in the tragic comic gesture of insight The volume is a must for scholars and researchers in the fields of cultural studies literature and arts as well as literary theory
