Globalization, Development and Human Security Anthony G. McGrew,Nana K. Poku,2007-02-12 Whether globalization development and human security are inescapably trapped within a vicious circle or a virtuous circle is the central concern of this book **Their Future** Michael Gubser,2025-05-27 A compelling examination of how economic development projects ignore local history and the effects of this shortsightedness Foreign aid planners rarely consider the history of the societies in which they work an oversight noted in the development literature but rarely examined Aid programs costing billions of dollars operate largely in a historical vacuum divorced from the knowledge of what succeeded or failed in the past Michael Gubser chronicles the varieties of ahistoricism in international development theory and practice since 1945 He traces the history of development ideas analyzing key theoretical and policy statements to highlight the marginalization of history in favor of technical solutions to economic and social problems and he examines aid programs in several developing countries to show how Western models of social and economic development have been applied and misapplied Plundering Paradise Robin Broad,John Cavanagh,2023-11-15 This gripping portrait of environmental politics chronicles the devastating destruction of the Philippine countryside and reveals how ordinary men and women are fighting back Traveling through a land of lush rainforests the authors have recorded the experiences of the people whose livelihoods are disappearing along

with their country's natural resources. The result is an inspiring informative account of how peasants, fishers and other laborers have united to halt the plunder and to improve their lives. These people do not debate global warming; they know that their very lives depend on the land and oceans, so they block logging trucks, protest open pit mining and replant trees. In a country where nearly two thirds of the children are impoverished, the reclaiming of natural resources is offering young people hope for a future. *Plundering Paradise* is essential reading for anyone interested in development, the global environment and political life in the Third World. This gripping portrait of environmental politics chronicles the devastating destruction of the Philippine countryside and reveals how ordinary men and women are fighting back. Traveling through a land of lush rainforests, the authors have recorded the experience.

**Politics in Africa** Nana Poku, Anna Mdee, 2014-08-14. Democracy, prosperity and self-rule: this was the vision of African independence. Across the continent, however, the optimism that characterized the immediate post-independence period has largely faded. Meanwhile, ordinary Africans lurch between undemocratic, unaccountable and unresponsive governments and a decaying traditional African past. How did things go so wrong? Why has the continent lagged behind others in economic development, despite its potential natural resources? Why are so many African states prone to conflict? And why has democracy been slow to take root in a majority of the countries? Covering everything from African economies to the role of the state, rural livelihoods to issues of gender, *Politics in Africa* offers a fresh perspective in answering these questions, making the continent's problems more understandable, less wretched and even intensely hopeful. Up-to-date, concise and provocative, this is indispensable reading for anyone interested in African politics.

**The International Monetary Fund And Latin America** Manuel Pastor, 2019-09-06. The debt crisis in Latin America has rekindled debate about the effects of the IMF's stabilization programs in the Third World. Critics contend that these programs have short-run recessionary impacts and damage prospects for long-term growth. In response, Fund economists point to cross-country studies revealing mixed impacts on growth rates coupled

with significant success in achieving the IMF's stated goals current account and balance of payments improvements and inflation rate reduction Dr Pastor argues that the traditional growth oriented critique is theoretically misplaced and he recasts Fund activities in terms of class and income distribution Applying the methodology of previous Fund studies he evaluates the effects of IMF programs in eighteen Latin American countries in the pre crisis period 1965-1981 A New World Order?
