From Dependency to autonomy:

From Dependency to Autonomy Eric John Miller, 1993 In this absorbing collection Eric Miller draws on the experience of three decades as organizational consultant to various sorts of institutions employing approaches drawn from psychoanalysis systems theory and the group relations movement He has worked and is esteemed throughout the world Since all his work has been conducted in the midst of ongoing and temporary institutions it is all action research Among the sites analysed in these papers are an airline hospitals for incurables the elderly the mentally ill a diocese a prison a diplomatic mission manufacturing companies and rural sites Throughout his case studies he addresses issues of dependence independence and counterdependence In all of the settings his aim has been to help people to gain greater influence over their environments In the concluding chapters he lifts his eyes from small groups and society in microcosm to address society as an intelligible field of study Throughout the book he focuses constantly on values and concepts in action *The Many Faces of Dependency in*

Old Age Margret M. Baltes, 1996-07-28 Margret Baltes provides insights into the social foundation of dependency with a blend of theoretical and empirical argument *Life-Span Development and Behavior* David L. Featherman, Richard M. Lerner, 2019-05-24 The final volume in this significant series this publication mirrors the broad scientific attention given to ideas and issues associated with the life span perspective constancy and change in human development opportunities for and constraints on plasticity in structure and function across life the potential for intervention across the entire life course and thus for the creation of an applied developmental science individual differences diversity in life paths in contexts or the ecology of human development and in changing relations between people and contexts interconnections and discontinuities across age levels and developmental periods and the importance of integrating biological psychological social cultural and historical levels of organization in order to understand human development **Unravelling Migrants as Transnational**

Agents of Development Thomas Faist, Nadine Sieveking, 2011 Since the early 2000s there has been an increased interest in international migration as a central mechanism to advance what is called the development potential of international migrants The contributions in this book argue that the current enthusiasm about the migration development nexus should be approached from a perspective that recognizes and critically appraises the emergence of a new agent in development discourse variably called migrants diaspora or transnational community The essays which are the result of intensive student research at Bielefeld University depart from issues raised by the migration development nexus and ask how life worlds and institutions are changing in the face of cross border processes In this way the book is also a contribution to the different understandings of development Series Politik Gemeinschaft und Gesellschaft in einer globalisierten Welt Vol 11

Everything must change Vittorio Bufacchi, 2021-06-10 The philosopher Michel de Montaigne said that facing our mortality is the only way to learn the art of living This book asks what we can learn from COVID 19 both as individuals and collectively as a society Written during the first and second lockdowns Everything must change offers philosophical

perspectives on some of the most pressing issues raised by the pandemic It argues that the pandemic is not a misfortune but an injustice that it has exposed our society's inadequate treatment of its most vulnerable members that populist ideologies of post truth are dangerous and potentially disastrous In considering these issues and more the book draws on a diverse range of philosophers from Cicero Hobbes and Arendt to prominent contemporary thinkers At the heart of the book is a simple argument politics can be the difference between life and death With careful reflection we can avoid knee jerk decision making and ensure that the right lessons are learned so that this crisis ultimately changes our lives for the better ushering in a society that is both more compassionate and more just Cambridge Guide to Schema Therapy Robert N.

DiConti, 1992 Measuring Regional Authority Liesbet Hooghe, Gary Marks, Arjan H. Schakel, Sandra Chapman Osterkatz, Sara Niedzwiecki, Sarah Shair-Rosenfield, 2016-01-28 This is the first of five ambitious volumes theorizing the structure of governance above and below the central state This book is written for those interested in the character causes and consequences of governance within the state and for social scientists who take measurement seriously The book sets out a measure of regional authority for 81 countries in North America Europe Latin America Asia and the Pacific from 1950 to 2010 Subnational authority is exercised by individual regions and this measure is the first that takes individual regions as the unit of analysis On the premise that transparency is a fundamental virtue in measurement the authors chart a new path in laying out their theoretical conceptual and scoring decisions before the reader The book also provides summaries of regional governance in 81 countries for scholars and students alike Transformations in Governance is a major new academic book series from Oxford University Press It is designed to accommodate the impressive growth of research in comparative politics international relations public policy federalism environmental and urban studies concerned with the dispersion of authority from central states up to supranational institutions down to subnational governments and side ways to public private networks It brings together work that significantly advances our understanding of the organization causes and consequences of multilevel and complex governance The series is selective containing annually a small number of books of exceptionally high quality by leading and emerging scholars The series targets mainly single authored or co authored work but it is pluralistic in terms of disciplinary specialization research design method and geographical scope Case studies as well as comparative studies historical as well as contemporary studies and studies with a national regional or international focus are all central to its aims Authors use qualitative quantitative formal modeling or mixed methods A trade mark of the books is that they combine scholarly rigour with readable prose and an attractive production style The series is edited by Liesbet Hooghe and Gary Marks of the University of North Carolina Chapel Hill and the VU Amsterdam and Walter Mattli of the University of Oxford **Poetry Therapy** Nicholas Mazza, 2016-06-23 For decades poetry therapy has been formally recognized as a valuable form of treatment and it has been proven effective worldwide with a diverse group of clients The second edition of Poetry Therapy written by a pioneer and leader in the field updates the only integrated poetry therapy practice model with a host of contemporary issues including the use of social media and slam performance poetry It s a truly invaluable resource for any serious practitioner educator or researcher interested in poetry therapy bibliotherapy writing and healing or the broader area of creative expressive arts therapies **The Ambivalent Character of Participation**

Francesco Garibaldo, Volker Telljohann, 2010 Participation is a social process which is basically part of an exchange relationship. Thus it is principally pluralist and ambiguous in its meaning. As a consequence the reconciliation of voices needs innovative approaches to support balanced participation experiences. The ambivalent character of participation intends to provide a look at new initiatives in the various fields of workplace participation. Leading international scholars examine the role of institutional contexts for participation, the development of new forms of interest organisation as well as the relationship between organisational performance, participation practices and quality of working life. The contributions are not limited to taking stock of new experiences in the field of workplace participation but also contribute to designing a new research agenda.
