## **From Hide And Horn:**

From Hide and Horn John Thomas Edson,1987-12-01 Texas after the War was heaven for hellcats paradise for lowlifes and Hell on earth for honest ranchers The range was rich with meat on the hoof but the markets were hundreds of miles of rattlesnake and Comanche country away Any man who tried to drive cattle across Texas was bound to wind up either rich or dead Charlie Goodnight was aiming to try and with Dusty Fog as his segundo it was going to take more than desert Derringers or the Devil himself to stop him From hide and horn John T. Edson,1972 *From Hide and Horn* John Thomas Edson,2016 Other States were carved or born Texas grew from hide and horn There were problems to be solved before that became true Where to sell the cattle which swarmed across the Texas ranges and how to get them to the market also whether sufficient longhorns could be delivered at one time to make a long journey to a market profitable Charles Goodnight thought he had the answers and aimed to prove it Backed by Ole Devil Hardin s already legendary floating outfit he set off with three thousand five hundred head of cattle for distant Fort Sumner With Dusty Fog as his segundo Goodnight meant to deliver his herd and so pave the way for Texas to grow from hide and horn **Hide, Horn, Fish, and Fowl** Kenneth L. Untiedt,2011 No matter how sophisticated or technologically advanced we become there is still something within that beckons us to the hunt This desire creates the customs beliefs and rituals related to hunting for deer hogs as well as fish and snakes etc These rituals and customs lead to some of our most treasured folklore From Hide and Horn J. T. Edson,1982-08-01 *An Engraved Landscape: Rock carvings in the Wadi al-Ajal, Libya* Tertia Barnett,2023-02-23 An Engraved Landscape is a contextual analysis of a substantial new corpus of engravings from the Wadi al Ajal situated in the Central Saharan region of south west Libya The wadi is renowned as the heartland of the Garamantian civilization which emerged from local mobile Pastoral communities in the 1st millennium BC and dominated trans Saharan trade and politics for over a thousand years Extensive archaeological and palaeoenvironmental investigations in recent years have provided detailed insight into the later prehistory and protohistory of the wadi and surrounding areas However prior to the fieldwork detailed in this work only a handful of carvings had been recorded in the wadi This work is based on systematic survey conducted between 2004 and 2009 which recorded around 2 500 previously unknown or unpublished engraved and inscribed rock surfaces All forms of engraving whether figurative or surface markings were viewed as significant residues of human interaction with the rock surface and were recorded The resulting database provides an opportunity to analyze the engravings in relation to their changing physical and cultural contexts and the discussion offers a fresh interpretation of Saharan rock art based on this substantial new evidence An Engraved Landscape also captures in detail a unique heritage resource that is currently inaccessible and threatened This record of the fragile engravings provides an important source of information for researchers and students *Africa's Threatened Rhinos* Keith Somerville,2025-01-14 Africa s surviving rhinos are under serious threat Poaching for their horns massive extermination by sports hunters in the nineteenth and first

half of the twentieth century and progressive habitat loss have all driven black and white rhino close to the edge This book considers human interactions with these magnificent and enigmatic animals charting hunting for food and hides and then hunting for horn to meet external demand for this much coveted commodity as well as peaceful coexistence over the course of three millennia With only two females alive in a closely protected reserve in Kenya the Northern White Rhino is on the brink of extinction The Southern White Rhino was increasing in numbers but poaching in South Africa Botswana and Namibia has now reduced the population to fewer than 20 000 while Black Rhino are hovering around the 6 000 6 500 mark also with the danger of extirpation everywhere but in parts of eastern and southern Africa Many books have been written on poaching and the decline of the rhino often from a very personal engaged viewpoint This volume takes the reader into important new territory showing how human agency has led to the situation we now face Covering the history of commercial and sporting exploitation of rhino it brings the picture up to date with an overview of contemporary conservation and anti poaching operations This urgent work is a significant contribution to our understanding of wildlife on the African continent     **A**

liberation movement in 1969 the tragedies of the AIDS epidemic and to the present *Hide Seek* openly considers what has long been suppressed or tacitly ignored even by the most progressive sectors of our society the influence of gay and lesbian artists in creating American modernism *Hide Seek* shows how questions of gender and sexual identity dramatically shaped the artistic practices of influential American artists such as Thomas Eakins Romaine Brooks Marsden Hartley Georgia O'Keeffe Charles Demuth Jasper Johns Robert Rauschenberg Andrew Wyeth Andy Warhol Robert Mapplethorpe and many more in addition to artists of more recent works such as Felix Gonzalez Torres Glenn Ligon Catherine Opie and Cass Bird The authors argue that despite the late nineteenth century definition and legal codification of the homosexual in reality questions of sexuality always remained fluid and continually redefined by artists concerned with the act of portrayal In particular gay and lesbian artists of but not fully in the society they portrayed occupied a position of influential marginality from which vantage point they crafted innovative and revolutionary ways of painting portraits Their resistance to society's attempt to proscribe them forced them to develop new visual vocabularies by which to code disguise and thereby express their subjects identities and also their own Bringing together for the first time new scholarship in the history of American sexuality and new research in American portraiture *Hide Seek* charts the heretofore hidden impact of gay and lesbian artists on American art and portraiture and creates the basis for the necessary reassessment of the careers of major American artists both gay and straight as well as of portraiture itself      *Ozongombe mOmbazu ya Kaoko* Jekura Uaurika Kavari, Ephraim P.
