*The People's Tycoon* Steven Watts,2009-03-04 How a Michigan farm boy became the richest man in America is a classic almost mythic tale but never before has Henry Ford s outsized genius been brought to life so vividly as it is in this engaging and superbly researched biography The real Henry Ford was a tangle of contradictions He set off the consumer revolution by producing a car affordable to the masses all the while lamenting the moral toll exacted by consumerism He believed in giving his workers a living wage though he was entirely opposed to union labor He had a warm and loving relationship with his wife but sired a son with another woman A rabid anti Semite he nonetheless embraced African American workers in the era of Jim Crow Uncovering the man behind the myth situating his achievements and their attendant controversies firmly within the context of early twentieth century America Watts has given us a comprehensive illuminating and fascinating biography of one of America s first mass culture celebrities

Long Hard Road Charles J. Murray,2022-09-15 Long Hard Road The Lithium Ion Battery and the Electric Car provides an inside look at the birth of the lithium ion battery from its origins in academic labs around the world to its transition to its new role as the future of automotive power It chronicles the piece by piece development of the battery from its early years when it was met by indifference from industry to its later emergence in Japan where it served in camcorders laptops and cell phones The book is the first to provide a glimpse inside the Japanese corporate culture that turned the lithium ion chemistry into a commercial product It shows the intense race between two companies Asahi Chemical and Sony Corporation to develop a suitable anode It also explains for the first time why one Japanese manufacturer had to build its first preproduction cells in a converted truck garage in Boston Massachusetts Building on that history Long Hard Road then takes readers inside the auto industry to show how lithium ion solved the problems of earlier battery chemistries and transformed the electric car into a viable competitor Starting with the Henry Ford and Thomas Edison electric car of 1914 it chronicles a long list of automotive failures then shows how a small California car converter called AC Propulsion laid the foundation for a revolution by packing its car with thousands of tiny lithium ion cells The book then takes readers inside the corporate board rooms of Detroit to show how mainstream automakers finally decided to adopt lithium ion Long Hard Road is unique in its telling of the lithium ion tale revealing that the battery chemistry was not the product of a single inventor nor the dream of just three Nobel Prize winners but rather was the culmination of dozens of scientific breakthroughs from many inventors whose work was united to create a product that ultimately changed the world

**The Vagabonds** Jeff Guinn,2020-11-17 A fascinating slice of rarely considered American history Booklist the story of Henry Ford and Thomas Edison whose annual summer sojourns introduced the road trip to our culture and made the automobile an essential part of modern life In 1914 Henry Ford and naturalist John Burroughs visited Thomas

Edison in Florida and toured the Everglades The following year Ford Edison and tire maker Harvey Firestone joined together on a summer camping trip and decided to call themselves the Vagabonds They would continue their summer road trips until 1925 when they announced that their fame made it too difficult for them to carry on Although the Vagabonds traveled with an entourage of chefs butlers and others this elite fraternity also had a serious purpose to examine the conditions of America's roadways and improve the practicality of automobile travel Cars were unreliable and the roads were even worse But newspaper coverage of these trips was extensive and as cars and roads improved the summer trip by automobile soon became a desired element of American life The Vagabonds is a portrait of America's burgeoning love affair with the automobile NPR but it also sheds light on the important relationship between the older Edison and the younger Ford who once worked for the famous inventor The road trips made the automobile ubiquitous and magnified Ford's reputation even as Edison's diminished The automobile would transform the American landscape the American economy and the American way of life and Guinn brings this seminal moment in history to vivid life

**Fordlandia** Greg Grandin, 2010-04-27 From Pulitzer Prize winning author Greg Grandin comes the stunning never before told story of the quixotic attempt to recreate small town America in the heart of the Amazon In 1927 Henry Ford the richest man in the world bought a tract of land twice the size of Delaware in the Brazilian Amazon His intention was to grow rubber but the project rapidly evolved into a more ambitious bid to export America itself along with its golf courses ice cream shops bandstands indoor plumbing and Model Ts rolling down broad streets Fordlandia as the settlement was called quickly became the site of an epic clash On one side was the car magnate lean austere the man who reduced industrial production to its simplest motions on the other the Amazon lush extravagant the most complex ecological system on the planet Ford's early success in imposing time clocks and square dances on the jungle soon collapsed as indigenous workers rejecting his midwestern Puritanism turned the place into a ribald tropical boomtown Fordlandia's eventual demise as a rubber plantation foreshadowed the practices that today are laying waste to the rain forest More than a parable of one man's arrogant attempt to force his will on the natural world Fordlandia depicts a desperate quest to salvage the bygone America that the Ford factory system did much to dispatch As Greg Grandin shows in this gripping and mordantly observed history Ford's great delusion was not that the Amazon could be tamed but that the forces of capitalism once released might yet be contained Fordlandia is a 2009 National Book Award Finalist for Nonfiction
