From A Distant Place:

Dancing in a Distant Place Isla Dewar,2006-04-18 A warm and intelligent novel about a young teacher who throws herself into the lives of her students in the hopes of forgetting the past only to find it returning more vividly than ever When Iris Chisholm arrives in the tiny Scottish Highland community of Green Cairns she s still in a state of shock not so much from her husband s untimely death as from the discovery that he d gambled away all their money and even their home In addressing the problems of the children at the school where she works Iris finds distractions from worries Further distractions come in the shape of a honey tongued lawyer and a gentle handyman This is a novel with wit and heart from an author who is quickly rising in the ranks of international women s fiction authors *The Charisma of Distant Places* Courtney Luckhardt,2019-07-15 This cultural history of early medieval travel and religion reveals how movement affected society demonstrating the connectedness of people and regions between 500 and 850 CE In The Charisma of Distant Places Courtney Luckhardt enriches our understanding of migration through her examination of religious movement Vertical links to God and horizontal links to distant regions identified religious travelers both men and women as holy connected to the human and the divine across physical and spiritual distances Using textual sources material culture and place studies this project is among the first to contextualize the geographic and temporal movement of early medieval people to reveal the diversity of religious travel from the voluntary journeys of pilgrims to the forced travel of Christian slaves Luckhardt offers new ways of understanding ideas about power holiness identity and mobility during the transformation of the Roman world in the global Middle Ages By focusing on the religious dimensions of early medieval people and the regions they visited this book addresses probing questions including how and why medieval people communicated and connected with one another across boundaries both geographical and imaginative **Sketches of Old Times and Distant Places** John Sinclair,2024-01-31 Reprint of the original first published in 1875 **The Really Practical Guide to Primary Geography** Marcia Foley,Jan Janikoun,1996 Substantially revised to incorporate the contents of the 1995 Revised Order and its major implications for geography teaching Includes two brand new chapters on the growing early years sector and OFSTED inspections A whole range of different ways to organise the geography curriculum is discussed with examples The resources sections have been updated and expanded Some Far and Distant Place Jonathan S. Addleton,2002-09-01 Born in Pakistan to Baptist missionaries from rural Georgia Jonathan S Addleton crossed the borders of race culture class and religion from an early age Some Far and Distant Place combines family history social observation current events and deeply personal commentary to tell an unusual coming of age story that has as much to do with the intersection of cultures as it does with one man s life Whether sharing ice cream with a young Benazir Bhutto or selling gospel tracts at the tomb of a Sufi saint Addleton provides insightful and sometimes hilarious glimpses into the Muslim Christian encounter through the eyes of a young child His narrative is rooted in many unlikely sources including a southern storytelling tradition Urdu ghazal revivalist

hymnology and the Anglican Book of Common Prayer The natural beauty of the Himalayas also leaves a strong and lasting mark providing solidity in a confusing world that on occasion seems about to tilt out of control This clear eyed insightful memoir describes an experience that will become increasingly more common as cultures that once seemed remote and distant are no longer confined within the bounds of a single nation state   Information, Place, and Cyberspace Donald G. Janelle,David C. Hodge,2013-06-29 This book explores how new communication and information technologies combine with transportation to modify human spatial and temporal relationships in everyday life It targets the need to differentiate accessibility levels among a broad range of social groupings the need to study disparities in electronic accessibility and the need to investigate new measures and means of representing the geography of opportunity in the information age It explores how models based on physical notions of distance and connectivity are insufficient for understanding the new structures and behaviors that characterize current regional realities with examples drawn from Europe New Zealand and North America While traditional notions of accessibility and spatial interaction remain important information technologies are dramatically modifying and expanding the scope of these core geographical concepts   **The American State Reports** Abraham Clark Freeman,1901   **Mobility and Place** Dr Brynhild Granås,Dr Jørgen Ole Bærenholdt,2012-11-28 The Northern peripheries of Europe which are covered by this book are associated with remoteness the frontier isolated communities colonialism and resource extraction Recently huge projects in petroleum and hydropower have been located there and the region has become better known as an attractive tourist destination Although these spaces are perceived as being marginal they are inhabited and linked into globalization and international agendas This book examines how people live in such remote spaces in an emerging global world of connectivity interdependency mobility and non linear dynamics The various case studies examine a wide range of experiences ranging from tourists and local settlers to those who migrate for labour in old or new industries or to pursue the hybrid urban rural life of the periphery In this book mobility and place come together The analyses demonstrate how mobility and place mutually constitute each other and how specific relationships between the two aspects are crucial in the making of societies The authors study attempts to reinvent places together with connections and the opening of new scapes in order to sustain businesses municipalities and people s livelihood   **Incidents in the Life of Jacob Barker** ,1855   **The Transmitter** Chesapeake and Potomac Telephone Company of Maryland,1927   A Dictionary Of The English Language; In Which The Words Are Deduced From Their Originals; And Illustrated In Their Different Significations, By Examples From The Best Writers: Together With A History of the Language, and an English Grammar Samuel Johnson,1818   **The Electrician** ,1893   *A Companion to Rock Art* Jo McDonald,Peter Veth,2012-09-04 This unique guide provides an artistic and archaeological journey deep into human history exploring the petroglyphic and pictographic forms of rock art produced by the earliest humans to contemporary peoples around the world Summarizes the diversity of views on ancient rock art from leading international scholars Includes new discoveries and research illustrated

Patent Office,1932-02 **Principles of Political Economy** John Stuart Mill,1899 Out of Place John B. Lyon,2013-02-28 In late nineteenth century Germany the onset of modernity transformed how people experienced place In response to increased industrialization and urbanization the expansion of international capitalism and the extension of railway and other travel networks the sense of being connected to a specific place gave way to an unsettling sense of displacement Out of Place analyzes the works of three major representatives of German Realism Wilhelm Raabe Theodor Fontane and Gottfried Keller within this historical context It situates the perceived loss of place evident in their texts within the contemporary discourse of housing and urban reform but also views such discourse through the lens of twentienth century theories of place Informed by both phenomenological Heidegger and Casey as well as Marxist Deleuze Guattari and Benjamin approaches to place John B Lyon highlights the struggle to address issues of place and space that reappear today in debates about environmentalism transnationalism globalization and regionalism A Latin-English Dictionary for the Use of Junior Students John Tahourdin White,1881 Philosophy and Geography III Andrew Light,Jonathan M. Smith,1998 Places are today subject to contrary tendencies They lose some functions which may scale up to fewer more centralized places or down to numerous more dispersed places and they gain other functions which are scaling

up and down from other places This prompts premature prophecies of the abolition of space and the obsolescence of place At the same time a growing literature testifies to the persistence of place as an incorrigible aspect of human experience identity and morality Place is a common ground for thought and action a community of experienced particulars that avoids solipsism and universalism It draws us into the philosophy of the ordinary into familiarity as a form of knowledge into the wisdom of proximity Each of these essays offers a philosophy of place and reminds us that such philosophies ultimately decide how we make use and understand places whether as accidents instruments or fields of care
