From Abdullah To Hussein Jordan In Transition:

From Abdullah to Hussein Robert Barry Satloff, 2023 A study of the six year period in modern Jordanian political history when the Hashemite kingdom was in crisis Based on interviews and archival resources it provides an examination of the early years of King Hussein s rule when power rested in the hands of the King s advisors *From Abdullah to Hussein* Robert B. Satloff, 1994-02-17 This book examines the most turbulent period in the history of Jordan s ruling house the six years following the assassination of the kingdom s founder Abdullah 1951 1957 Those years witnessed the country s lone episode of weak monarchy when the king the novice Hussein or his ill starred father Talal was not the preeminent political actor in the land Rather it was during that time at the regime was left in the hands of a mix of Palestinian Transjordanian and Circassian royalists who had never before wielded executive authority inside the kingdom Based on exclusive interviews and newly released archival resources this book traces the only two royal successions in Jordanian history the eleven month reign of the little known Talal and the early years of King Hussein Jordan in Transition Curtis R. Ryan, 2002 Jordan has long been regarded as a pivotal country in the Middle East one whose policy choices carry strong implications for regional stability Jordan in Transition offers a cogent and compelling analysis of the country s domestic and international politics Ryan argues that there have been four dramatic transitions in Jordan s recent past ambitious economic restructuring efforts toward political liberalization realignments in foreign relations culminating in the 1994 peace agreement with Israel and the succession of King Abdullah II Exploring these transitions and how each in turn affects the others he provides a major contribution to our understanding of Jordan *A History of Jordan* Philip Robins, 2004-02-09 Publisher Description *From Hussein to Abdullah* Robert Barry Satloff, 1999 *The Middle East in 1958* Jeffrey G. Karam, 2020-09-17 The revolutionary year of 1958 epitomizes the height of the social uprisings military coups and civil wars that erupted across the Middle East and North Africa in the mid twentieth century Amidst waning Anglo French influence growing US USSR rivalry and competition and alignments between Arab and non Arab regimes and domestic struggles this year was a turning point in the modern history of the Middle East This multi and interdisciplinary book explores this pivotal year in its global regional and local contexts and from a wide range of linguistic geographic academic specialties The contributors draw on declassified and multilingual archives reports memoirs and newspapers in thirteen country specific chapters shedding new light on topics such as the extent of Anglo American competition after the Suez War Turkey s efforts to stand as a key pillar in the regional Cold War the internationalization of the Algerian War of Independence and Iran and Saudi Arabia s abilities to weather the revolutionary storm that swept across the region The book includes a foreword from Salim Yaqub which highlights the importance of Jeffrey G Karam s collection to the scholarship on this vital moment in the political history of the modern middle east **The Struggle for the State in Jordan** Jamie Allinson, 2015-01-05 Why do the states of the Arab world seem so unstable Why do alliances between them and with outside powers change Jamie Allinson argues that the answer lies in the

expansion of global capitalism in the Middle East Drawing out the unexpected way in which Jordan's Bedouin tribes became allied to the British Empire in the twentieth century and the legacy of this for the international politics of the Middle East he challenges the existing views of the region Using the example of Jordan this book traces the social bases of the struggles that produced the country's foreign relations in the latter half of the twentieth century to the reforms carried out under the Ottoman Empire and the processes of land settlement and state formation experienced under the British Mandate By examining the attempts of Jordan to create foreign alliances during a time of upheaval and instability in the region Allinson offers wider conclusions concerning the nature of the interaction between state and society in the wider Middle East

Nationalist Voices in Jordan Betty S. Anderson, 2009-09-15 According to conventional wisdom the national identity of the Jordanian state was defined by the ruling Hashemite family which has governed the country since the 1920s But this view overlooks the significant role that the Arab street in this case ordinary Jordanians and Palestinians played and continues to play in defining national identity in Jordan and the Fertile Crescent as a whole Indeed as this pathfinding study makes clear the street no less than the state has been a major actor in the process of nation building in the Middle East during and after the colonial era In this book Betty Anderson examines the activities of the Jordanian National Movement JNM a collection of leftist political parties that worked to promote pan Arab unity and oppose the continuation of a separate Jordanian state from the 1920s through the 1950s Using primary sources including memoirs interviews poetry textbooks and newspapers as well as archival records she shows how the expansion of education new jobs in the public and private sectors changes in economic relationships the establishment of national militaries and the explosion of media outlets all converged to offer ordinary Jordanians and Palestinians who were under the Jordanian government at the time an alternative sense of national identity Anderson convincingly demonstrates that key elements of the JNM's pan Arab vision and goals influenced and were ultimately adopted by the Hashemite elite even though the movement itself was politically defeated in 1957

Modern Conflict in the Greater Middle East Spencer C. Tucker, 2017-04-17. This reference work covers the history of Middle East nations, addressing military, political, diplomatic, and ideological trends in each respective country and enabling readers to better understand the factors behind the crises shaping the Middle East today. *Modern Conflict in the Greater Middle East: A Country By Country Guide* is a concise reference for students exploring the importance of each nation-state in the Middle East and their level of involvement in major conflicts in the region. It supplies the broad historical background necessary for readers to understand each country's unique role in the conflicts that have characterized the region since the end of World War I. The book also enables readers to grasp the various motives and ideologies that have shaped each nation's military objectives and to appreciate the political and social climates of each of these countries that propelled them into various wars. The book presents a chapter-by-chapter discussion of the origins and impacts of war on specific Middle Eastern countries, giving readers an in-depth understanding of the global importance of the conflicts within the region. These chapters, along with detailed timelines, sidebars, and primary source documents, will help readers grasp the connections between individuals, developments, and conflicts in the Middle East and events and developments such as European imperialism, World Wars I and II, U.S. foreign policy during and after the Cold War, the formation of the state of Israel, Arab nationalism, the emergence of the oil industry in the region, and the origins of radical Islam.

The Management of Islamic Activism Quintan Wiktorowicz, 2000-10-19. *The Management of Islamic Activism* examines the relationship between the changing nature of state power and patterns of Islamic activism in Jordan. Using extensive fieldwork, the author demonstrates how regimes continue to constrain the organization of Islamic opposition even after the advent of political liberalization. In the case of the Jordanian regime, control has been maintained through the management of collective action, the regulation of opposition through a complex array of bureaucratic and legal mechanisms. More specifically, laws governing

civil society organizations are manipulated to encourage the formation of moderate Islamic groups while disempowering more radical activists As a result the radical activists have formed informal social networks that operate outside the state s control Composed of like minded Islamists these networks evade attempts to manage Islamic activism through a loose web of personal relationships small group interactions and informal meetings A comparison of the Salafis and the Muslim Brotherhood in Jordan demonstrates how state management strategies shape these patterns of social movement mobilization
