Edgerton, 2024-06-04 This book serves as a basic primer on how one of the world s most mineral rich countries was turned into one of its greatest tragedies Publishers Weekly Written over a century ago Joseph Conrad s *Heart of Darkness* continues to dominate our vision of the Congo unlikely as it might seem that a late Victorian novella could encapsulate a country roughly equal in size to the United States east of the Mississippi Conrad s Congo is hell itself a place where civilization won t take where literal and metaphor darkneses converge and where human conduct unmoored from social Western in other words norms turns barbaric As Robert Edgerton shows in this crisply narrated yet sweeping work of history the Congo is still trying to awaken from the nightmare of its past struggling to pull free from the grip of the heart of darkness cliché Plundered for centuries for its natural resources which remain Africa s most abundant the Congo was not always a place of horror Before the Portuguese landed on its shores at the end of the 15th century it was a prosperous and thriving region The Congo River the world s second longest as well as the deepest and one of the only routes to the continent s interior provided indigenous populations with ample means for living and trading What the Portuguese found first to exploit

were people and with the slave trade began a dizzying downward spiral of conquest and degradation that continued for centuries. By the 19th century the race to explore the full length of the legendary river masked a fight for territorial and moral control among the French, Arabs, British, Germans, as well as American missionaries, all of whom dreamed of possessing Africa's very heart. When King Leopold of Belgium managed to solidify control in 1885, the Congo question seemed solved. His reign of course was almost pathological in its cruelty, the true source of Conrad's horror, and its grim legacy endures to this day. Edgerton documents the Congo's long sad history with a sense of empathy with and admiration for the character of the land and its inhabitants. Since independence in June 1960, the country has endured the machinations and disappointments of one dictator after another, beginning with Patrice Lumumba and continuing through Joseph Mobutu, Laurent Kabila, and today Kabila's son Joseph, who assumed power after his father was assassinated in January 2001. Whether called the Congo Free State or Zaire or the Democratic Republic of the Congo, the country remains perilously unstable. *The Troubled Heart of Africa* is the only book to give a complete history of the Congo, filling in the blanks in the country's history before the advent of Henry Stanley, David Livingstone, King Leopold, and other figures, and carrying us straight into today's headlines. The Congo continues today to be the subject of intense speculation and concern, and with good reason, upon it hangs the fate of sub-Saharan Africa as a whole. Here is a book that helps us face the stark truths of the Congo's past and appreciate both the enormous potential and uncertainty of its future.

*Bound Lives* Rachel Sarah O'Toole, 2012-04-15 *Bound Lives* chronicles the lived experience of race relations in northern coastal Peru during the colonial era. Rachel Sarah O'Toole examines how Andeans and Africans negotiated and employed *casta* and in doing so constructed these racial categories. Royal and viceregal authorities separated Indians from blacks by defining each to specific labor demands. *Casta* categories did the work of race, yet not all *casta* categories did the same type of work, since Andeans, Africans, and their descendants were bound by their locations within colonialism and slavery. The secular colonial legal system clearly favored indigenous populations. Andeans were afforded greater protections as threatened native vassals. Despite this, in the 1640s, during the rise of sugar production, Andeans were driven from their assigned colonial towns and communal property by a land privatization program. Andeans did not disappear, however; they worked as artisans, muleteers, and laborers for hire. By the late seventeenth and early eighteenth centuries, Andeans employed their legal status as Indians to defend their prerogatives to political representation that included the policing of Africans. As rural slaves, Africans often found themselves outside the bounds of secular law and subject to the judgments of local slaveholding authorities. Africans therefore developed a rhetoric of valuation within the market and claimed new kinships to protect themselves in disputes with their captors and in slave trading negotiations. Africans countered slaveholders' claims on their time, overt supervision of their labor, and control of their rest moments by invoking customary practices. *Bound Lives* offers an entirely new perspective on racial identities in colonial Peru. It highlights the tenuous interactions of colonial authorities, indigenous communities, and enslaved populations and shows how the

interplay between colonial law and daily practice shaped the nature of colonialism and slavery

**Indigenous and Black Confraternities in Colonial Latin America** Javiera Jaque Hidalgo, Miguel Valerio, 2025-10-01 Employing a transregional and interdisciplinary approach this volume explores indigenous and black confraternities or lay Catholic brotherhoods founded in colonial Spanish America and Brazil between the sixteenth and eighteenth century It presents a varied group of cases of religious confraternities founded by subaltern subjects both in rural and urban spaces of colonial Latin America to understand the dynamics and relations between the peripheral and central areas of colonial society underlying the ways in which colonized subjects navigated the colonial domain with forms of social organization and cultural and religious practices The book analyzes indigenous and black confraternal cultural practices as forms of negotiation and resistance shaped by local devotional identities that also transgressed imperial religious and racial hierarchies The analysis of these practices explores the intersections between ethnic identity and ritual devotion as well as how the establishment of black and indigenous religious confraternities carried the potential to subvert colonial discourse

Elleman, 2022-03-14 Maritime powers dominate the planet from the British empire of the 19th century to the American post World War II domination of global affairs To a large degree their control of the globe is based on control of the seas This book seeks to examine the strengths and weaknesses of maritime power including specific chapters on mutiny blockades coalitions piracy expeditionary warfare commerce raiding and soft power operations but with larger discussion of such sea power characteristics as sea control sea denial and the competition between land powers and sea powers The conclusions will discuss how many other countries including Russia during the Cold War and the PRC today have or are seeking to use sea power to claim regional and then eventually global hegemony

**Edible People** Christian Siefkes, 2022-09-13 While human cannibalism has attracted considerable notice and controversy certain aspects of the practice have received scant attention These include the connection between cannibalism and xenophobia the capture and consumption of unwanted strangers Likewise ignored is the connection to slavery the fact that in some societies slaves and persons captured in slave raids could be and were killed and eaten This book explores these largely forgotten practices and ignored connections while making explicit the links between cannibal acts imperialist influences and the role of capitalist trading practices These are highly important for the history of the slave trade and for understanding the colonialist history of Africa

**Colorblind Shakespeare** Ayanna Thompson, 2006-09-12 The systematic practice of non traditional or colorblind casting began with Joseph Papp s New York Shakespeare Festival in the 1950s Although colorblind casting has been practiced for half a century now it still inspires vehement controversy and debate This collection of fourteen original essays explores both the production

history of colorblind casting in cultural terms and the theoretical implications of this practice for reading Shakespeare in a contemporary context
