

FROM DELIVERANCE TO DESTRUCTION

REBELLION AND CIVIL WAR IN AN ENGLISH CITY

Mark Stoye

From Deliverance To Destruction Rebellion And Civil War In An English City

Peter Gaunt

From Deliverance To Destruction Rebellion And Civil War In An English City:

From Deliverance to Destruction Mark Stoye,1996 This is a study of the city of Exeter during the Great Civil War of 1642-46 it offers a lively immediate account of how one English city slid inexorably into the chaos of civil war The book shows how Exeter's inhabitants first began to dissent from each other over religious issues then became divided into two warring camps and finally after three years of bitter conflict witnessed much of the ancient city being destroyed about their ears The main text is accompanied by a generous collection of transcripts from original seventeenth century documents These have been specially selected to illuminate the war's effect on ordinary men and women and to show how closely engaged they were with the national politico religious debate This book will be of interest to all serious students of the English Civil War while at the same time being accessible to a non specialist audience

A Military History of the English Civil War Malcolm Wanklyn, Frank Jones, 2014-07-10 A Military History of the English Civil War examines how the civil war was won who fought for whom and why it ended With a straightforward style and clear chronology that enables readers to make their own judgements and pursue their own interests further this original history provides a thorough critique of the reasons that have been cited for Parliament's victory and the King's defeat in 1645-46 It discusses the strategic options of the Parliamentary and Royalist commanders and councils of war and analyses the decisions they made arguing that the King's faulty command structure was more responsible for his defeat than Sir Thomas Fairfax's strategic flair It also argues that the way that resources were used rather than the resources themselves explain why the war ended when it did

The Oxford Handbook of the English Revolution Michael J. Braddick, 2015-03-05 This Handbook brings together leading historians of the events surrounding the English revolution exploring how the events of the revolution grew out of and resonated in the politics and interactions of each of the Three Kingdoms England Scotland and Ireland It captures a shared British and Irish history comparing the significance of events and outcomes across the Three Kingdoms In doing so the Handbook offers a broader context for the history of the Scottish Covenanters the Irish Rising of 1641 and the government of Confederate Ireland as well as the British and Irish perspective on the English civil wars the English revolution the Regicide and Cromwellian period The Oxford Handbook of the English Revolution explores the significance of these events on a much broader front than conventional studies The events are approached not simply as political economic and social crises but as challenges to the predominant forms of religious and political thought social relations and standard forms of cultural expression The contributors provide up to date analysis of the political happenings considering the structures of social and political life that shaped and were re shaped by the crisis The Handbook goes on to explore the long term legacies of the crisis in the Three Kingdoms and their impact in a wider European context

Gangraena and the Struggle for the English Revolution Ann Hughes, 2004-09-23 This is the first comprehensive study of Gangraena an intemperate anti sectarian polemic written by a London Presbyterian Thomas Edwards and published in three parts in 1646 These books which bitterly opposed

any moves to religious toleration were the most notorious and widely debated texts in a Revolution in which print was crucial to political mobilization. They have been equally important to later scholars who have continued the lively debate over the value of *Gangraena* as a source for the ideas and movements its author condemned. This study includes a thorough assessment of the usefulness of Edwards's work as a historical source but goes beyond this to provide a wide-ranging discussion of the importance of *Gangraena* in its own right as a lively work of propaganda crucial to Presbyterian campaigning in the mid 1640s. Contemporary and later readings of this complex text are traced through a variety of methods literary and historical with discussions of printed responses, annotations and citation. Hughes's work thus provides a vivid and convincing picture of revolutionary London and a reappraisal of the nature of 1640s Presbyterianism too often dismissed as conservative. Drawing on the newer histories of the book and of reading, Hughes explores the influence of Edwards's distasteful but compelling book.

The English Civil War Peter Gaunt, 2014-05-09 Sir God hath taken away your eldest son by a cannon shot. It brake his leg. We were necessitated to have it cut off whereof he died. In one of the most famous and moving letters of the Civil War, Oliver Cromwell told his brother-in-law that on 2 July 1644 Parliament had won an emphatic victory over a Royalist army commanded by King Charles I's nephew Prince Rupert on rolling moorland west of York. But that battle, Marston Moor, had also slain his own nephew, the recipient's firstborn. In this vividly narrated history of the deadly conflict that engulfed the nation during the 1640s, Peter Gaunt shows that with the exception of World War I the death rate was higher than any other contest in which Britain has participated. Numerous towns and villages were garrisoned, attacked, damaged or wrecked. The landscape was profoundly altered. Yet amidst all the blood and killing, the fighting was also a catalyst for profound social change and innovation. Charting major battles, raids and engagements, the author uses rich contemporary accounts to explore the life-changing experience of war for those involved, whether musketeers at Cheriton, dragoons at Edgehill or Cromwell's disciplined Ironsides at Naseby 1645.

Dismembering the Body Politic Paul D. Halliday, 2003-11-13 This is a major survey of how towns were governed in late Stuart and early Hanoverian England. A new kind of politics emerged out of England's Civil War: partisan politics. This happened first in the corporations governing the towns and not at Parliament as is usually argued. Based on an examination of the records of scores of corporations, this book explains how war unleashed a cycle of purge and counter-purge which continued for decades. It also explains how a society that feared a system of politics based on division found the means to absorb it peacefully. As conflict sharpened in communities everywhere, local competitors turned to the court of King's Bench to resolve their differences. In doing so, they prompted the court to develop a new body of law that protected local governments from the divisive impulses within them.

Historical Dictionary of the British and Irish Civil Wars 1637-1660 Martyn Bennett, 2016-02-10 When a large number of the people in Scotland rejected King Charles I's religious policy, they set in motion a train of events that resonated throughout England, Wales and Ireland and challenged the rule of the king. Between 1637 and 1660 the British Isles were

embroiled in a series of wars rebellions and revolutions that affected not only all the political and social institutions within them but all of the people living there Radical changes in the political relationships within the four nations sparked a series of wars that brought far reaching political revolution By spring 1649 the king had been executed the monarchy abolished in England and Wales and a republic established The 1650s saw Scotland and Ireland incorporated into the republic as the wars finally ended The republic had a brief life but by 1660 it was ended and the monarchy restored the united nation established in 1653 was again broken into its component parts and the old institutions seemingly returned to preeminence This second edition of Historical Dictionary of the British and Irish Civil Wars 1637 1660 contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics and military technology as well as descriptions of the battles of the war This book is an excellent access point for students researchers and anyone wanting to know more about this period in history

George Goring (1608-1657) Dr Florene S Memegalos,2013-06-28 George Goring was in many ways the archetypal cavalier often portrayed as possessing all the worst characteristics associated with the followers of King Charles I He drank copiously dressed and entertained lavishly gambled excessively abandoned his wife frequently and was quick to resort to swordplay when he felt his honour was at stake Yet he was also an active Member of Parliament and a respected soldier who learnt his trade on the Continent during the Dutch Wars and put his expertise to good use in support of the royalist cause during the English Civil War In this the first modern biography of Goring the main events of his life are interwoven with the wider history of his age Beginning with his family background in Sussex it charts his successes at court and exploits in the service of the Dutch culminating in his experiences at the siege of Breda in 1637 and his role in the Bishops Wars However it is his key role as a royalist general during the Civil War that is the major focus of this book which concludes with Goring s years of exile during the Republic This fascinating and illuminating account of Goring s life character and actions provides not only a fresh examination of this contentious figure but also reveals much about English society and culture in the first half of the seventeenth century

The Murder of King James I Alastair Bellany,Thomas Cogswell,2015-10-15 A year after the death of James I in 1625 a sensational pamphlet accused the Duke of Buckingham of murdering the king It was an allegation that would haunt English politics for nearly forty years In this exhaustively researched new book two leading scholars of the era Alastair Bellany and Thomas Cogswell uncover the untold story of how a secret history of courtly poisoning shaped and reflected the political conflicts that would eventually plunge the British Isles into civil war and revolution Illuminating many hitherto obscure aspects of early modern political culture this eagerly anticipated work is both a fascinating story of political intrigue and a major exploration of the forces that destroyed the Stuart monarchy

Insolent proceedings Peter Lake,Jason Peacey,2022-05-10 Insolent proceedings brings together leading scholars working on the politics religion and literature of the English Revolution It embraces new approaches to the upheavals that occurred in the mid seventeenth century in daily life as well as in debates

between parliamentarians royalists and radicals Driven by a determination to explore the dynamic course and consequences of the civil wars and Interregnum contributors investigate the polemics print culture and everyday practices of the revolutionary decades in order to rethink the period s public politics This involves integrating national and local affairs as well as elite and popular culture and looking at the connections between everyday activism and ideological endeavours The book also examines participation by and the treatment of women from all walks of life

Godly Reformers and Their Opponents in Early Modern England Matthew Reynolds,2005 Close examination of the divided religious life of Norwich in the late sixteenth and early seventeenth centuries with wider implications for the country as a whole

God's Fury, England's Fire Michael Braddick,2008-02-28 A brilliantly researched and vividly written history of the English Civil Wars from one of Britain s most prominent Civil War historians The sequence of civil wars that ripped England apart in the seventeenth century was the single most traumatic event in this country between the medieval Black Death and the two world wars Indeed it is likely that a greater percentage of the population were killed in the civil wars than in the First World War This sense of overwhelming trauma gives this major new history its title God s Fury England s Fire The name of a pamphlet written after the king s surrender it sums up the widespread feeling within England that the seemingly endless nightmare that had destroyed families towns and livelihoods was ordained by a vengeful God that the people of England had sinned and were now being punished As with all civil wars however God s fury could support or destroy either side in the conflict Was God angry at Charles I for failing to support the true protestant religion and refusing to work with Parliament Or was God angry with those who had dared challenge His anointed Sovereign Michael Braddick s remarkable book gives the reader a vivid and enduring sense both of what it was like to live through events of uncontrollable violence and what really animated the different sides God s Fury England s Fire allows readers to understand once more the events that have so fundamentally marked this country and which still resonate centuries after their bloody ending

"Into Another Mould" Ivan Alan Roots,1998 The first edition of this volume published in 1981 under the title *Into Another Mould* contemplated three aspects of the interregnum 1642-60 the suggested or even attempted reforms of local government the politics of the New Model Army the strains new and old between and within the constituent kingdoms In this new edition the original essays have been revised and joined by three new essays Wales and the British Dimension Oliver Cromwell and his Protectorate Parliaments and a commentary by the editor Ivan Roots on procedure legislation and constitutional change in the second of these parliaments

The Debate on the English Revolution R. C. Richardson,1998-12-15 Analyses the different ways in which historians over the last three centuries have tried to explain the causes course and consequences of the English Revolution

Remembering the English Civil Wars Lloyd Bowen,Mark Stoye,2021-10-17 Remembering the English Civil Wars is the first collection of essays to explore how the bloody struggle which took place between the supporters of king and parliament during the 1640s was viewed in retrospect The English Civil Wars were perhaps the most calamitous series of

conflicts in the country's recorded history Over the past twenty years there has been a surge of interest in the way that the Civil Wars were remembered by the men women and children who were unfortunate enough to live through them The essays brought together in this book not only provide a clear and accessible introduction to this fast developing field of study but also bring together the voices of a diverse group of scholars who are working at its cutting edge Through the investigation of a broad but closely interrelated range of topics including elite popular urban and local memories of the wars as well as the relationships between civil war memory and ceremony material culture and concepts of space and place the essays contained in this volume demonstrate with exceptional vividness and clarity how the people of England and Wales continued to be haunted by the ghosts of the mid century conflict throughout the decades which followed The book will be essential reading for all students of the English Civil Wars Stuart Britain and the history of memory Citizens without Nations Maarten Prak,2018-08-16 Examines how urban citizenship gave many people a real stake in their own communities even before the rise of modern democracy **The English Civil War** Charles J Esdaile,2024-08-30 Cavaliers and Roundheads are figures who appear in hundreds of English ghost stories In this innovative account Charles Esdaile argues that such tales are in reality folk memories of an episode of English history that was second only to the Black Death in terms of individual and collective suffering alike and further that they reveal important truths about the way in which the conflict was represented it is no surprise then to find that spectral Cavaliers are often romantic figures and revenant Roundheads grim ones full of menace Yet the book is no mere catalogue On the contrary rather than being discussed in a vacuum the tales of haunting are rather set within a detailed regional history of the conflicts of 1642-1651 of a sort that has never yet been attempted but is for all that badly needed The Routledge Companion to the Stuart Age, 1603-1714 John Wroughton,2013-02-01 Here is an invaluable user friendly and compact compendium packed with facts and figures on the seventeenth century one of the most tumultuous and complex periods in British history From James I to Queen Anne this Companion includes detailed information on political religious and cultural developments as well as military activity foreign affairs and colonial expansion Chronologies biographies documents maps and genealogies and an extensive bibliography navigate the reader through this fascinating and formative epoch as the book details the key events and themes of the era including the English Civil War and its military campaigns the Gunpowder Plot Catholic persecution and the influence of Puritanism imperial adventures in America Asia Africa and the Caribbean Scotland and the Act of Union 1707 the Irish Confederate wars and the Cromwellian conquest of Ireland the Great Fire of 1666 and the rebuilding of London biographies of key figures including women artists architects writers and scientists the Restoration and the revival of drama With complete lists of offices of state an extensive glossary of key constitutional political and religious terminology and up to date thematic annotated bibliographies to aid further research this student friendly reference guide is essential for all those interested in the Stuart Age The Cambridge Urban History of Britain Peter Clark,David Michael Palliser,Martin J. Daunton,2000-07-20 This volume examines

when why and how Britain became the first modern urban nation *Turncoats and Renegadoes* Andrew Hopper, 2012-11-15
The first dedicated study of the practice of changing sides during the English Civil Wars Reveals how side changing shaped the course of the English Revolution even contributing to the regicide itself and remained an important political legacy to the English speaking peoples thereafter

From Deliverance To Destruction Rebellion And Civil War In An English City Book Review: Unveiling the Power of Words
