From Leninism To Freedom Margaret Latus Nugent, 1992-11-12      From Leninism To Freedom Margaret Latus Nugent, 2019-03-08 This book stimulates inquiry into questions about how to facilitate and consolidate transitions from Leninism to market oriented democracies It allows readers to appreciate the diversity of opinion that exists on such questions as the causes for what happened and the prospects for the future      *Selections from Lenin* Vladimir Il'ich Lenin, 1929      The Russian Revolution, and Leninism Or Marxism? Rosa Luxemburg, 1961 A controversial Marxist Luxemburg here opposes the Bolsheviks quest for power      **The Fight Over Freedom in 20th- and 21st-Century International Discourse** Rita Augestad Knudsen, 2020-06-01 This book shows how international discourse citing self determination over the last hundred years has functioned as a battleground between two ideas of freedom a radical idea of freedom and a liberal conservative idea of freedom The book examines each of the major moments in which self determination has been a central part of the language of high level international politics and law the early 20th century discourse of V I Lenin and U S President Woodrow Wilson the aftermath of the First World War and the formulation of the UN Charter the 1950 1960s UN debates on self determination and the 2008 2010 International Court of Justice case on Kosovo s declaration of independence At each of these moments in history self determination was at the top of the international agenda And at each moment a fight over the meaning of freedom played out in self determination discourse Besides providing insights into the historical times in which self determination was prominently cited internationally the book offers a recasting and renewal of international debates on freedom in international discourse      **The Problem of Freedom in Marxist Thought** J.J. O'Rourke, 2012-12-06 This study seeks to present the theory of freedom as found in one line of the Marxist tradition that which begins with Marx and Engels and continues through Lenin to contemporary Soviet philosophy Although the primary goal is simply to describe how freedom is conceived by the thinkers of this tradition an attempt is also made to ascertain whether or not their views are strongly deterministic as has often been presumed by Western commentators is in order regarding the scope of the term contemporary A remark Soviet philosophy The Soviet stage in Marxist philosophy stretches back to the 1917 revolution However for the purposes of this study only works published after 1947 were examined and the vast majority of them date from the 1960 s Apart from the fact that most works of previous periods were not available bibliographical indications such as the titles of the articles in *Pod znamenem marksizma* did not suggest that the theory of freedom was then a major concern In fact even 1947 there was little development of this theme until the upsurge after of works in philosophical anthropology during the last decade On the other hand it is not being suggested that the conception of freedom found in recent writings is representative of earlier Soviet philosophy during the Stalinist dead period or earlier Only further research could establish that This work was presented as a doctoral dissertation at the University of Fribourg Switzerland under the direction of Professor J M      Lenin and the Logic of Hegemony Alan

Shandro,2014-07-10 In *Lenin and the Logic of Hegemony* by means of a careful textual and contextual analysis of the writings of Lenin and his Marxist contemporaries Alan Shandro traces the contours of the anti metaphysical event identified by Gramsci in Lenin's political practice and theory the emergence of the philosophical fact of hegemony In so doing he effectively disputes conventional caricatures of Lenin's role as a political actor and thinker and unearths the underlying parameters of the concept of hegemony in the class struggle He thereby clarifies the conceptual status of this pervasive but now increasingly elusive notion and the logic of theory and practice at work in it

*Broadcasting Freedom* Arch Puddington,2021-05-11 Among America's most unusual and successful weapons during the Cold War were Radio Free Europe and Radio Liberty RFE RL had its origins in a post war America brimming with confidence and secure in its power Unlike the Voice of America which conveyed a distinctly American perspective on global events RFE RL served as surrogate home radio services and a vital alternative to the controlled party dominated domestic press in Eastern Europe Over twenty stations featured programming tailored to individual countries They reached millions of listeners ranging from industrial workers to dissident leaders such as Lech Walesa and Vaclav Havel *Broadcasting Freedom* draws on rare archival material and offers a penetrating insider history of the radios that helped change the face of Europe Arch Puddington reveals new information about the connections between RFE RL and the CIA which provided covert funding for the stations during the critical start up years in the early 1950s He relates in detail the efforts of Soviet and Eastern Bloc officials to thwart the stations their tactics ranged from jamming attempts assassinations of radio journalists the infiltration of spies onto the radios

staffs and the bombing of the radios headquarters Puddington addresses the controversies that engulfed the stations throughout the Cold War most notably RFE broadcasts during the Hungarian Revolution that were described as inflammatory and irresponsible He shows how RFE prevented the Communist authorities from establishing a monopoly on the dissemination of information in Poland and describes the crucial roles played by the stations as the Berlin Wall came down and the Soviet Union broke apart Broadcasting Freedom is also a portrait of the Cold War in America Puddington offers insights into the strategic thinking of the RFE RL leadership and those in the highest circles of American government including CIA directors secretaries of state and even presidents

*Freedom's Progress?* Gerard Casey, 2021-10-04 In *Freedom's Progress* Gerard Casey argues that the progress of freedom has largely consisted in an intermittent and imperfect transition from tribalism to individualism from the primacy of the collective to the fragile centrality of the individual person and of freedom Such a transition is he argues neither automatic nor complete nor are relapses to tribalism impossible The reason for the fragility of freedom is simple the importance of individual freedom is simply not obvious to everyone Most people want security in this world not liberty Libertarians writes Max Eastman used to tell us that the love of freedom is the strongest of political motives but recent events have taught us the extravagance of this opinion The herd instinct and the yearning for paternal authority are often as strong Indeed the tendency of men to gang up under a leader and submit to his will is of all political traits the best attested by history The charm of the collective exercises a perennial magnetic attraction for the human spirit In the 20th century Fascism Bolshevism and National Socialism were Casey argues each of them a return to tribalism in one form or another and many aspects of our current Western welfare states continue to embody tribalist impulses Thinkers you would expect to feature in a history of political thought feature in this book Plato Aristotle Machiavelli Locke Mill and Marx but you will also find thinkers treated in *Freedom's Progress* who don't usually show up in standard accounts Johannes Althusius Immanuel Kant William Godwin Max Stirner Joseph Proudhon Mikhail Bakunin Pyotr Kropotkin Josiah Warren Benjamin Tucker and Auberon Herbert *Freedom's Progress* also contains discussions of the broader social and cultural contexts in which politics takes its place with chapters on slavery Christianity the universities cities Feudalism law kingship the Reformation the English Revolution and what Casey calls Twentieth Century Tribalisms Bolshevism Fascism and National Socialism and an extensive chapter on human prehistory

*From Lenin To Khrushchev* Hugh Seton-Watson, 2019-04-09 This book is intended to be both less and more than a survey of communism in the world today or a history of communist movements It focuses on the relationship of communist movements to social classes and to the internal balance of political power in their respective countries

*Political Freedom* George G. Brenkert, 2006-09-27 This book examines the underlying theoretical issues concerning the nature of political freedom Arguing that most previous discussions of such freedom have been too narrowly focused it explores both conservatism from Edmund Burke to its present resurgence the radical tradition of Karl Marx as well as the orthodox liberal model of freedom of John Locke John

Stuart Mill and Isaiah Berlin Political Freedom argues that these three accounts of political freedom conservative liberal and radical all have internal weaknesses which render them unsatisfactory In the second part of the book George Brenkert develops an alternative theory of political freedom Using the guiding concept of empowerment his model explores individual rights democratic participation in government and workplace and the need to provide the material and educational resources to allow individuals to effectively exercise their rights to self determination It is a clear and bold attack on the view that there is no link between freedom and power

**Freedom Fighters** Anne Williams, Vivian Head, 2011-08-05 Throughout the course of history freedom fighters have been many and varied as have the motivations and the successes of the revolutions they attempted and inspired Whether their beliefs were correct or misplaced the courage to fight for the cause has always been the common denominator They stood alone frequently in the face of enormous adversity and attempted to change the face of the world around them Freedom Fighters is a record of inspirational courageous determined and sometimes very dangerous people and the places they secured for themselves in history Contents Ancient Freedom Fighters including Spartacus Jesus Boudicca Medieval Freedom Fighters including Robin Hood William Tell Joan of Arc Early Freedom Fighters including Martin Luther Walter Raleigh Simon Bolivar Karl Marx Modern Freedom Fighters including The Suffragettes Russian Revolution Gandhi Castro Mandela

*In the Vale of Tears* Roland Boer, 2013-10-10 Winner of the 2014 Isaac and Tamara Deutscher Memorial Prize In the Vale of Tears brings to a culmination the project for a renewed and enlivened debate over the interaction between Marxism and religion It does so by offering the author's own response to that tradition It simultaneously draws upon the rich insights of a significant number of Western Marxists and strikes out on its own Thus it argues for the crucial role of political myth on the Left explores the political ambivalence at the heart of Christianity challenges the bent among many on the Left to favour the unexpected rupture of kair's as a key to revolution is highly suspicious of the ideological and class alignments of ethics offers a thorough reassessment of the role of fetishism in the Marxist tradition and broaches the question of death unavoidable for any Marxist engagement with religion While the book is the conclusion to the five volume series The Criticism of Heaven and Earth it also stands alone as a distinct intervention in some burning issues of our time

Thinking Freedom in Africa Michael Neocosmos, 2016-12-01 Thinking Freedom in Africa conceives an emancipatory politics beginning from the axiom that people think Previous ways of conceiving the universal emancipation of humanity have in practice ended in failure Marxism anti colonial nationalism and neo liberalism all understand the achievement of universal emancipation through a form of state politics Marxism which had encapsulated the idea of freedom for most of the twentieth century was found wanting when it came to thinking emancipation because social interests and identities were understood as simply reflected in political subjectivity which could only lead to statist authoritarianism Neo liberalism and anti colonial nationalism have also both assumed that freedom is realizable through the state and have been equally authoritarian in their relations to those they have excluded on the African continent and elsewhere Thinking Freedom

in Africa then conceives emancipatory politics beginning from the axiom that people think. In other words the idea that anyone is capable of engaging in a collective thought practice which exceeds social place interests and identities and which thus begins to think a politics of universal humanity. Using the work of thinkers such as Alain Badiou, Jacques Rancière, Sylvain Lazarus, Frantz Fanon and many others along with the inventive thought of people themselves in their experiences of struggle, the author proceeds to analyse how Africans themselves with agency of their own have thought emancipation during various historical political sequences and to show how emancipation may be thought today in a manner appropriate to twenty first century conditions and concerns.

Propaganda Hailong Liu, 2019-11-21. Propaganda is subjective information primarily used to influence an audience and further a political agenda. In China it has a long history but has been most effective in modern society. What exactly is propaganda? Why does it exist and why does the public tolerate it? The book answers these questions by tracing back to the emergence and development of integrated propaganda and scientific propaganda. On this basis it focuses on the emergence of propaganda concept in China, the establishment of Kuomintang and the Communist Party of China's propaganda concept, intellectuals and propaganda, the debate on the propaganda concept in China after 1949, as well as the emergence of Propaganda 3.0 that coordinates integrated propaganda and scientific propaganda. Setting propaganda in the framework of modernity, the book explains how various groups have legitimized propaganda since the 20th century. From a reasonable and neutral standpoint, the author describes the confrontation among various propaganda concepts and discourses, displaying a panorama of the mutual conflicts between nations and individuals, control and freedom, ideas and bodies. Not only will scholars and students studying journalism and communication find this book interesting but professionals working in journalism, advertising, public relations and publicity will also find it engaging and enlightening.

Biography: Freedom and Destiny Rudolf Steiner, 2013-04-03. The path of an individual human life, our biography, is something of a mystery. Despite the abundance of published biographies and autobiographies of celebrities and historical figures, the scientific study of human biography remains in its infancy with little understanding of the inherent laws in the path of an individual's life. Yet as Rudolf Steiner shows here, every biography, regardless of the individual's fame, perceived importance, or outer success, is ruled by archetypal influences, patterns and laws. This broad-ranging anthology addresses some critical and as yet unanswered questions: What effects do education and, in particular, contrasting education methods have on later life? How do the various periods of life relate to each other? Do the effects of events on the individual become evident immediately or is their true impact delayed, perhaps by decades? To what extent can an individual shape the stages of his or her biography? How much freedom of choice do we have and how much of life is predetermined? Out of the higher knowledge Rudolf Steiner acquired from his spiritual research, he described the human individuality as a being with a continuing existence before birth and beyond death. This eternal being experiences many varied conditions and situations, the effects of which are observable in our biography. This book addresses these and other issues such as freedom and destiny, the

effects of heredity illness and the impact of education offering answers based on a profound knowledge of the human being
