**From Malin Head to Mizen Head** Kevin Rafter, Noel Whelan, 1992      *Local Government Reform* Brian Dollery, Joseph Garcea, Edward C. LeSage, 2008-01-01 Written by an impressive array of experts this book surveys local government reforms in six advanced democracies federal and unitary which share a municipal legacy Australia Canada Ireland New Zealand the UK and the US The book has an excellent bibliography and will help open up a field heretofore noted for its insularity Recommended A J Ward Choice      Parliaments and Citizens in Western Europe Philip Norton, 2020-07-24 Citizens elect the parliament but what contract takes place between citizen and parliament in between elections The authors assess the extent and nature of that contact To what extent are members of parliament accessible to the ordinary citizen And what are the implications for the legislature Can there be too much or too little contact      *Green Parties in Transition* Paul Lucardie, 2016-12-05 When green parties emerged in the 1980s not only did they question established ideas about nature and economic growth they also challenged the iron law of Roberto Michels that all parties inevitably follow a similar path towards informal concentration of power and oligarchy Grass roots democracy was both an ideological tenet and an organizational project for practically all green parties These days the greens have lost their glamour and innocence They have grown up and even joined governing coalitions in several countries Did they leave grass roots democracy by the roadside on the way to power This book investigates to what extent green parties have remained true to their identity or have been transformed Country specialists analyze the development of green parties in 14 countries across the world not only Western Europe but also Australia Canada New Zealand and the United States These analyses also offer clues on broader questions about party types and party change in contemporary democracies      *Ireland and Anglo-Irish Relations Since 1800: From the Treaty to the present* Neil C. Fleming, Alan O'Day, 2008 This landmark series of three volumes brings together selected essays from leading and specialist journals that have made a significant or original contribution to Irish historiography Each volume contains a range of articles reappraising the major political themes of the period but also offering new interpretations on social economic cultural and religious history as well as women s history and historical geography Introductions to each volume explain the specific and wider significance of the articles      **Power to the People?** Ian Hughes, 2007      **Gender and the Law in Ireland** Alpha Connelly, 1993      **Women in Parliament** Maedhbh McNamara, Paschal Mooney, 2000      *The Anonymous Leader* Kurt Klaudi Klausen, Annick Magnier, 1998 Local government takes upon itself important tasks and are prime movers in the implementation of new developments in most welfare societies This volume deals with the top civil servants in local government the Chief Executive Officers those who form the link between the political and the administrative system      **Recycling the State** Katy Hayward, Muiris MacCarthaigh, 2007 Explores the processes of continuity and change that have forged the nature of the Irish state This work offers a fresh analysis of modern Ireland The main theme is that change in the Irish state is best understood as part of a continual process of adaptation or recycling
