Huhman, 2010 The statistics are frightening The National Association of Colleges and Employers NACE 2009 Student Survey shows that just 19.7 percent of 2009 graduates who applied for a job actually have one And according to NACE's Job Outlook 2010 Fall Preview employers expect to hire 7 percent fewer graduates from the college Class of 2010 than they hired from the Class of 2009 What's worse this issue cannot completely be blamed on a poor economy Entry level hiring should have increased because many employers have laid off more expensive experienced talent So what's preventing new talent from entering the career marketplace Millennials those individuals born between 1977 and 1997 and also known as Generation Y often expect college to teach them how to find jobs and are disappointed upon finding out this is not the case And the career advice they do receive comes from authority figures i.e. campus career center staff whom they do not believe or trust These graduates need practical and insightful guidance from someone who knows the challenges they face and how to overcome them ENTRYLEVELtweet Book01 by career expert Heather R. Bonnie-Marie Doughty-Jenkins, 2021-04-10 What prepares a graduating high school student for meaningful work as they enter adulthood Conventional wisdom from the last several decades has stressed a direct pipeline into higher education Should this be considered the gold standard and best practice Make no mistake there is great value in a college education However a laser focus on moving students from traditional high school models into the halls of higher learning has permeated our culture and driven the conversations in countless guidance counselor offices perhaps to the detriment of not only individual students but our economy and ability to compete in a global market as well In this wide ranging exploration of the value of integrating careers such as manufacturing and traditional blue collar jobs into classroom experiences author Dr Bonnie Marie Doughty Jenkins tackles the value and definition of post high school education From exploring our cultural history and norms around college bound guidance to diving into the perhaps unintended outcome of a wide gap in the skilled labor workforce you ll be inspired to think both deeply and broadly about what our focus on education means for students as individuals and the nation as a whole In the end there is a simple question to be posed and an answer to be drawn Do
