## **From Marx To Hegel:**

From Marx to Hegel and Back Victoria Fareld, Hannes Kuch, 2020-01-09 The relation between Hegel and Marx is among the most interpreted in the history of philosophy Given the contemporary renaissance of Marx and Marxist theories how should we re read the Hegel Marx connection today What place does Hegel have in contemporary critical thinking Most schools of Marxism regard Marx s inversion of Hegel s dialectics as a progressive development leaving behind Hegel s idealism by transforming it into a materialist critique of political economy Other Marxist approaches argue that the mature Marx completely broke with Hegel By contrast this book offers a wide ranging and innovative understanding of Hegel as an empirically informed theorist of the social political and economic world It proposes a movement from Marx to Hegel and back by exploring the intersections where the two thinkers can be read as mutually complementing or even reinforcing one another With a particular focus on essential concepts like recognition love revolution freedom and the idea of critique this new intervention into Hegelian and Marxian philosophy unifies the ethical content of Hegel s philosophy with the power of Marx s social and economic critique of the contemporary world     *Marx and Hegel on the Dialectic of the Individual and the Social* Sevgi Dogan, 2018-08-15 Marx and Hegel on the Dialectic of the Individual and the Social is a detailed investigation of the major works of Hegel and the young Marx with exploring how the concept of the individual is positioned within their ontologies and how this positioning is reflected in their related political views Instead of contrasting a Marxist understanding of the individual with that of a liberal thinker Sevgi Dogan chooses to take Hegel s theory of the state as representative of the modern state which Marx criticizes The decision to be in opposition to Hegel rather than some other liberal thinkers is important for two reasons First since Marx has developed many of his early ideas in critical interaction with Hegel this comparative approach enables the book to present a more thorough and well grounded exposition of Marx s arguments Second since Hegel himself has also criticized the concepts of liberal ideology in many respects differentiating Marx s arguments from those of Hegel s enables the book to underline how and why Hegel s critique of liberal ideology falls short of actually empowering individuals in the way that Marx s account does     *Marx and Hegel on the Dialectic of the Individual and the Social* Sevgi Dogan, 2018-08-15 Marx and Hegel on the Dialectic of the Individual and the Social is a detailed investigation of the major works of Hegel and the young Marx with exploring how the concept of the individual is positioned within their ontologies and how this positioning is reflected in their related political views Instead of contrasting a Marxist understanding of the individual with that of a liberal thinker Sevgi Dogan chooses to take Hegel s theory of the state as representative of the modern state which Marx criticizes The decision to be in opposition to Hegel rather than some other liberal thinkers is important for two reasons First since Marx has developed many of his early ideas in critical interaction with Hegel this comparative approach enables the book to present a more thorough and well grounded exposition of Marx s arguments Second since Hegel himself has also criticized the concepts of liberal ideology in many respects differentiating

Marx's arguments from those of Hegel's enables the book to underline how and why Hegel's critique of liberal ideology falls short of actually empowering individuals in the way that Marx's account does *Hegel, Marx and Dialectic* Richard J.

Norman, Sean Sayers, 1980 A lively and provocative debate on the nature of Hegelian and Marxist dialectic and the relation between them A direct and explicit definition of dialectic is given and by sustained debate the dialectical idea of the fruitfulness of contradiction is exemplified in practice The author relate their accounts of dialectic both to recent discussion in the Marxist tradition Sartre Colletti Althusser and to work in the analytical tradition of philosophy thus initiating a dialogue between two as yet hardly related philosophical traditions The clarity and directness of this collection and its complete avoidance of dogmatism make it an invaluable work for anyone interested in the fundamental questions of philosophy Back cover **From Marx to Hegel** George Lichtheim, 1974 *Divergent Paths: The Hegelian foundations of Marx's method* Norman Levine, 2006-01-01 Divergent Paths is the first in a series of three volumes that explores the

historiography of the relationship between Hegel and Marx it sets the terms of the relationship between Marx and Engels and explores the genesis of the theories of Marxism and Engelsism from the late 19th century to the present day Given the vast pool of contemporary post Marxist theoretical work a study like this is sorely needed This is the most thorough exploration of Marx's ideas from Hegel through to the present day and is absolutely essential reading **From Marx to Hegel and Back** Victoria Fareld, Hannes Kuch, 2020-01-09 The relation between Hegel and Marx is among the most interpreted in the history of philosophy Given the contemporary renaissance of Marx and Marxist theories how should we re read the Hegel Marx connection today What place does Hegel have in contemporary critical thinking Most schools of Marxism regard Marx's inversion of Hegel's dialectics as a progressive development leaving behind Hegel's idealism by transforming it into a materialist critique of political economy Other Marxist approaches argue that the mature Marx completely broke with Hegel By contrast this book offers a wide ranging and innovative understanding of Hegel as an empirically informed theorist of the social political and economic world It proposes a movement from Marx to Hegel and back by exploring the intersections where the two thinkers can be read as mutually complementing or even reinforcing one another With a particular focus on essential concepts like recognition love revolution freedom and the idea of critique this new intervention into Hegelian and Marxian philosophy unifies the ethical content of Hegel's philosophy with the power of Marx's social and economic critique of the contemporary world **From Marx to Hegel and other essays** George

Lichtheim, 1971 **From Hegel to Marx** Sidney Hook, 1994 In this classic work originally published in 1932 Hook set out to demonstrate to the radical and conservative philosophers and activists of the 1920s and 1930s that Marx was a systematic thinker who developed a sound set of philosophical principles **Marx's Discourse with Hegel** N. Levine, 2012-02-21 The end of Stalinist Russia China's change under Deng Xiaoping and the publication of previously unexplored documents of Marx in the MEGA2 opened a new epoch in the analysis of Marx Marx's Discourse With Hegel is both a product and contribution to

this rebirth of Marxism by its reformulation of the relationship between Hegel and Marx

**The Communist Ideal in Hegel and Marx** David MacGregor, 2015-04-24 One reader has called this study first published in 1984 easily the best book on the relation of Hegel to Marx With spirited argument MacGregor demonstrates that Hegelian logic suited Marx's purpose so well because it already contained the unique elements that later appeared in Marx's social theory including the notions of surplus value and the transition to communism The most exciting thing about the book is the clear demonstration that the mature Marx gets ever closer to Hegel and is increasingly indebted to him In short the author gives us a new Hegel and a new Marx In a manner both original and penetrating MacGregor shows that dialectical logic is pre eminently social logic a reconstruction in thought of social relationships and social structure Central to the work is the examination of the Philosophy of Right in which Hegel delineated a theory of modern capitalist society MacGregor provides a compelling analysis of Hegel's importance for Lenin and a strong caveat that contemporary Marxism ignores Hegel to its own peril MacGregor establishes that Hegel's absolute idealism is founded on a theory of the dialectics of labour similar to Marx's historical materialism Another significant discovery elucidates Hegel's concept of poverty as the missing link which joins Marx's formulation to classical liberal theory

*Hegel and Marx* David MacGregor, 2014-06-15 The Second Edition of *Hegel and Marx* After the Fall of Communism surveys Hegel's close connection with world famed economist Friedrich List the declared enemy of Karl Marx Illuminating the mysterious nature of Hegel's relationship with Marx and Friedrich List may help us to comprehend the extraordinary geopolitical transformations that have occurred in the last 15 years since the original publication in 1998 The Afterword to this Edition looks at Russia's revival as a world power under Vladimir Putin and China's ambitious economic development efforts that bring to mind Sun Yat sen's vision of The International Development of China

**Divergent Paths** Norman Levine, 2006-02-13 *Divergent Paths* is the first volume of a groundbreaking three volume work Its purpose is to explore the relationship between Hegel and Marx to define the relationship between Hegel and Engels and to distinguish between the theories of Marxism and Engelsism Marx used Feuerbach towards the critique and ultimate transformation of Hegel's phenomenology and humanism This transformation which cut out Hegel's idealism by identifying the environment in which people produced their sustenance as the subject of history marks the genesis of historical materialism Marx continued to use Hegel's logical categories In chapter three of *Divergent Paths* Norman Levine conducts an in depth study of Marx's 1841 doctoral dissertation *The Difference Between Democritus and Epicurus Philosophy of Nature* It is the center of gravity and controversy of Levine's study Placed alongside Hegel's *Philosophy of History* Levine isolates the categories Marx appropriated from Hegel to show conclusively that Marx was not a dialectical materialist Levine then claims that Engels totally distorted the Hegelian legacy and this debasement is enshrined in his 1887 essay *Ludwig Feuerbach and The End of Classical German Philosophy* Levine brilliantly locates Marxism as the theory of Marx and Engelsism the theory of Engels According to Levine both embodied a separate view of history and society and their contradictions are expressive in part of

their divergent receptions of Hegel This is an analysis like no other published to date with two more volumes planned Philosophers sociologists anthropologists and historiographers of Marx and Engels cannot afford to miss this study **From Marx to Kant** Dick Howard,1985-01-01 The crisis of contemporary capitalist society suggests a return to Kant Kant's republican politics is shown to be a necessary element of his philosophical system This system becomes explicit in Marx whose stress on the primacy of philosophy or politics illuminates and distorts the implications of republican philosophy and its politics An independent methodology that would avoid one sidedness can be drawn from a rereading of Kant's Critique of Judgment The resulting reading suggests a philosophy of history and politics that can do in fact what Marx thought his overcoming of German Idealism would accomplish Critique of Hegel's Philosophy of Right Karl Marx,2024-05-09 Written between 1843 and 1844 but unpublished during his lifetime Marx's Critique of Hegel's Philosophy of Right Kritik des Hegelschen Staatsrechts marks a decisive break from Hegelian idealism and initiates Marx's turn toward a materialist critique of politics and society Composed while he was still associated with the Young Hegelians Marx systematically confronts Hegel's Philosophy of Right dismantling its speculative framework and exposing its ideological justifications for monarchical and bureaucratic rule The manuscript incomplete and driven by polemical urgency reveals Marx's early commitment to revolutionary praxis over abstract philosophical reconstruction Although often cited for the famous dictum that religion is the opium of the people the text's deeper significance lies in its critique of the alienation embedded in the structure of the modern constitutional state Marx argues that the state far from embodying a universal rational will conceals the fragmentation of civil society and reinforces the separation between political and human emancipation Drawing influence from Rousseau's concept of the general will Marx critiques the German state as an emblem of political mystification and democratic failure In Toward the Critique of Hegel's Philosophy of Right Marx contends that Hegel's political theory abstracts away from material reality and overlooks the concrete social relations and economic structures that shape political life He insists that understanding the state civil society and alienation requires a historical and materialist analysis grounded in class dynamics The state according to Marx is not a neutral expression of collective interests but a vehicle of class domination a view that echoes and radicalizes Feuerbach's critique of idealist abstraction This work anticipates the foundational ideas of historical and dialectical materialism serving as a critical bridge between Marx's philosophical beginnings and his later revolutionary theory It is not a polished treatise but a raw penetrating intervention that reveals the emergence of Marx's distinctive critique of ideology alienation and political power This modern Critical Reader's Edition includes an illuminating afterword tracing Marx's intellectual relationships with revolutionary thinkers and philosophers including Hegel Feuerbach Engels and Ricardo containing unique research into his ideological development and economic metaphysical theories a comprehensive timeline of his life and works a glossary of Marxist terminology and a detailed index of all of Marx's writings This professional translation renders Marx's dense dialectical prose into modern language to

preserve the original force and precision of the text Combined with the scholarly amplifying material this edition is an indispensable exploration of Marx's classic works and his enduring Hegelian Protestant influence in the political, religious, economic, and philosophical spheres Hegel, Marx, And The English State David MacGregor, 2019-04-08 In this radically revised intellectual portrait of Hegel and Marx that challenges standard interpretations of their political theory David MacGregor considers the nature of the state in capitalist society This is the first book to place Marx's and Hegel's political thought directly into social and historical context Revealing the revolutionary c Hegel, Marx, Nietzsche Henri Lefebvre, 2020-02-11 With the translation of Lefebvre's philosophical writings his stature in the English speaking world continues to grow Though certainly within the Marxist tradition he consistently saw Marx as an unavoidable necessary but insufficient starting point Unsurprisingly Lefebvre always insisted on the importance of Hegel to understanding Marx But the imposing Metaphilosophy also suggested the significance he ascribed to Nietzsche in the realm of shadows through which philosophy seeks to think the world Lefebvre proposes here that the modern world is at the same time Hegelian in terms of the state Marxist in terms of the social and society and Nietzschean in terms of civilization and its values As early as 1939 Lefebvre pioneered a French reading of Nietzsche that rejected the philosopher's appropriation by fascism bringing out the tragic implications of Nietzsche's proclamation that God is dead long before this approach was followed by such later writers as Foucault Derrida and Deleuze Forty years later in the last of his philosophical writings Lefebvre juxtaposes the contributions of the three great thinkers in a text whose themes remain surprisingly relevant today **Hegel and Marx** Ian Fraser, 1998 This text introduces the concept of need as viewed by Hegel and Marx and places it within the context of modern need theories and theorists The book works through key texts including Hegel's Philosophy of Right and Marx's Capital and discusses the theory in relation to Soviet Communism and social democracy Covers key texts by Hegel and Marx studied by undergraduates on political theory courses Looks at political implications for modern need theory Accessible author makes good use of textual evidence Need theory is a major element of modern social theory Hegel, Marx, and the Necessity and Freedom Dialectic Russell Rockwell, 2018-04-26 This book provides close readings of primary texts to analyze the linkage between G W F Hegel's philosophy and Karl Marx's critical social theory of necessity and freedom This is important for three reasons first to understand the significance of the changing relationships of work, society, and critical social theory in the origins of Hegelian Marxism in the US as documented in the recently published correspondence between the Marxist Humanist theoretician Raya Dunayevskaya and the critical theorist Herbert Marcuse second to identify the intersections of the Critical Theorists Jurgen Habermas and Marcuse's influential reinterpretations of Marx's value theory of economy and society that enables navigation of the changing relationships of the social and economic spheres in the last century as developed in Marx's Grundrisse and thirdly to assess the potential of Moishe Postone's renewal of Marx's value theory largely conceived by the notion of a necessity and freedom dialectic intrinsic to capitalism *The Power of Negativity*

Raya Dunayevskaya, 2001-11-13 Raya Dunayevskaya is hailed as the founder of Marxist Humanism in the United States In this new collection of her essays co editors Peter Hudis and Kevin B Anderson have crafted a work in which the true power and originality of Dunayevskaya s ideas are displayed This extensive collection of writings on Hegel Marx and dialectics captures Dunayevskaya s central dictum that contrary to the established views of Hegelians and Marxists Hegel was of signal importance to the theory and practice of Marxism The Power of Negativity sheds light not only on Marxist Humanism and the rooting of Dunayevskaya s Marxist Humanist theories in Hegel but also on the life of one of America s most penetrating and provocative critical thinkers
