Annoying Music in Everyday Life Felipe Trotta,2020-06-11 Just as music has the power to inspire it has the power to irritate and enrage Why does certain music annoy us Why does it force us to leave rooms invade our personal space and affect us on a visceral level Based on more than 70 interviews this book discusses the everyday challenges of living together with unwanted music It examines issues of taste individual rights private and public spaces violence and the law The interviews explore various relationships with forced listening and the behaviors that result Interviewees talk about emotions and reactions to the nuisance caused by music highlighting matters of otherness individualism and rights They discuss experiences with neighbors at stores on the street while commuting and even in their homes and reveal the complex social interactions mediated by music and sounds in our day to day lives The Eagle and the Serpent Ignacio Palacios,2007 This work describes the author s experiences in both Spanish and English literacy development It illustrates the bilingual bicultural experience of acculturation and assimilation a process of change both culturally and linguistically The Eagle and the Serpent does so in three levels autobiographical narratives in bi literacy acquisition expository reflections from the viewpoint of a bilingual bicultural Mexican American adult and finally an analysis of the process evident in the author s experience Interspersed in the autobiographical elements Palacios reflects on his spiritual journey of religious conversion from Mexican Catholicism to American Evangelicalism After discussing immigration acculturation and literacy the story ends with an appended poem that reflects many immigrant children s lives of metamorphosis **Speak it Louder** Deborah Wong,2004-07-19 Speak It Louder Asian Americans Making Music documents the variety of musics from traditional Asian

through jazz classical and pop that have been created by Asian Americans This book is not about Asian American music but rather about Asian Americans making music This key distinction allows the author to track a wide range of musical genres Wong covers an astonishing variety of music ethnically as well as stylistically Laotian song Cambodian music drama karaoke Vietnamese pop Japanese American taiko Asian American hip hop and panethnic Asian American improvisational music encompassing jazz and avant garde classical styles In Wong s hands these diverse styles coalesce brilliantly around a coherent and consistent set of questions about what it means for Asian Americans to make music in environments of inter ethnic contact about the role of performativity in shaping social identities and about the ways in which commercially and technologically mediated cultural production and reception transform individual perceptions of time space and society *Speak It Louder Asian Americans Making Music* encompasses ethnomusicology oral history Asian American studies and cultural performance studies It promises to set a new standard for writing in these fields and will raise new questions for scholars to tackle for many years to come
