Voices from the Soviet Edge Jeff Sahadeo, 2019-06-15 Jeff Sahadeo reveals the complex and fascinating stories of migrant populations in Leningrad and Moscow Voices from the Soviet Edge focuses on the hundreds of thousands of Uzbeks Tajiks Georgians Azerbaijanis and others who arrived toward the end of the Soviet era seeking opportunity at the privileged heart of the USSR Through the extensive oral histories Sahadeo has collected he shows how the energy of these migrants denigrated as Blacks by some Russians transformed their families lives and created inter republican networks altering society and community in both the center and the periphery of life in the two capitals Voices from the Soviet Edge connects Leningrad and Moscow to transnational trends of core periphery movement and marks them as global cities In examining Soviet concepts such as friendship of peoples alongside ethnic and national differences Sahadeo shows how those ideas became racialized but could also be deployed to advance migrant aspirations He exposes the Brezhnev era as a time of dynamism and opportunity and Leningrad and Moscow not as isolated outposts of privilege but at the heart of any number of systems that linked the disparate regions of the USSR into a whole In the 1980s as the Soviet Union crumbled migration increased These later migrants were the forbears of contemporary Muslims from former Soviet spaces who now confront significant discrimination in European Russia As Sahadeo demonstrates the two cities benefited from 1980s migration but also became communities where racism and exclusion coexisted with citizenship and Soviet identity [Russian Path Dependence](#) Stefan Hedlund, 2005-01-23 Russia s transition to a market economy has been tortuous to say the least However this book argues that the arguments and counter arguments that pitch shock therapy against gradualism are wide of the mark and quite pointless Indeed the reasons for the warped outcomes can actually be traced back through the long sweep of Russian history Decisions made in the distant past can fully influence policy making in the present Hedlund s thesis can like this be seen as influenced by the path dependency theories of Paul David among others [The California Countryman](#) ,1923

The Ukrainian-Russian Borderland Volodymyr V. Kravchenko,2022-08-26 The eastern edge of Europe has long been in flux The nature of the Ukrainian Russian relationship is both complex and ambiguous Prompted by the countries historical and geographical entanglement Volodymyr Kravchenko asks what the words Ukraine and Russia really mean *The Ukrainian Russian Borderland* abandons linear historical interpretation and addresses questions of identity and meaning through

imperial and geographic contexts Dominated by imperial powers Eastern Europe and its boundaries were in a constant state of flux and re identification during the Russian imperial period Here the Little Russian early modern identity discourse both connects and separates modern Russian and Ukrainian identities and gives rise to issues of historical terminology Mirroring the historical ambiguity is the geographical fluidity of the borders between Ukraine and Russia Kravchenko situates this issue in the city of Kharkiv and Kharkiv University as both real and imagined markers of the borderland Putting the centuries long Ukrainian Russian relationship into imperial and regional contexts Kravchenko adds a new perspective to the ongoing discourse about relations between the two nations **Blackwood's Magazine** ,1856 The Home friend, a weekly miscellany of amusement and instruction Society for promoting Christian knowledge,1854
