From Children To Citizens The Mandate For Juvenile Justice From Children To Citizens:

From Children to Citizens Mark H. Moore, 2012-12-06 From the preface History has dealt the juvenile court and more broadly the juvenile justice system a cruel blow What began as a promising social experiment has disappointed nearly everyone Inevitably disillusionment has weakened the mandate of the juvenile justice system Conflicts in philosophy once held at bay by general enthusiasm for the enterprise have now surfaced with great urgency What in fact is the purpose of the juvenile justice system Is it to protect the community from youth crime or to help children grow up Is it primarily a court dominated by concerns for justice Or is it more fundamentally a social service agency concerned with structuring the environments of children Is the court an independent institution that stands apart from the community and administers justice in a fair and impartial way Or is the court an agent of the community in the sense that it establishes norms of conduct and draws both public and private agencies to the tasks of socializing children *The Black Child-Savers* Geoff K.

Ward, 2022-12-22 During the Progressive Era a rehabilitative agenda took hold of American juvenile justice materializing as a citizen and state building project and mirroring the unequal racial politics of American democracy itself Alongside this liberal manufactory of citizens a parallel structure was enacted a Jim Crow juvenile justice system that endured across the nation for most of the twentieth century In *The Black Child Savers* the first study of the rise and fall of Jim Crow juvenile justice Geoff Ward examines the origins and organization of this separate and unequal juvenile justice system Ward explores how generations of black child savers mobilized to challenge the threat to black youth and community interests and how this struggle grew aligned with a wider civil rights movement eventually forcing the formal integration of American juvenile justice Ward's book reveals nearly a century of struggle to build a more democratic model of juvenile justice an effort that succeeded in part but ultimately failed to deliver black youth and community to liberal rehabilitative ideals At once an inspiring story about the shifting boundaries of race citizenship and democracy in America and a crucial look at the nature of racial inequality *The Black Child Savers* is a stirring account of the stakes and meaning of social justice **Negotiating**

Responsibility in the Criminal Justice System Jack B. Kamerman, 1998 With this collection of essays Jack Kamerman presents the first sustained examination of one of the underpinnings of the operation of the criminal justice system the issue of responsibility for actions and as a consequence the issue of accountability Unique in the breadth of its approach this volume examines the issue of responsibility from the perspectives of criminal justice professionals sociologists philosophers and public administrators from four countries Attacking the problem on various levels the essayists look first at the assumptions made by criminal justice institutions regarding offender responsibility then turn to the views of offenders on the causes of their own actions and to the consequences of offenders either accepting or denying responsibility These scholars also examine the social and psychological circumstances under which people in general accept or deny responsibility for what they do thus providing the basis for understanding the process of social distance as a major precondition for people to

commit atrocities without seeing themselves as responsible Understanding the circumstances under which people either distance themselves from or embrace responsibility enables criminologists to make grounded recommendations for reordering responsibility in the criminal justice system and more generally for restoring a sense of responsibility to organizations occupations and society The substantive vehicle for this analysis of accountability and responsibility is the relationship between criminal justice institutions and the offenders who are under institutional control Aside from Kamerman the contributors are William C Collins Charles Fethe Gilbert Geis Robert J Kelly Alison Liebling Jess Maghan Mark Harrison Moore Paul Neurath John Rakis William Rentzmann and Jose E Sanchez From Children to Citizens Mark H.

Loury,James Q.

Wilson,2013-03-09 Are there ways to intervene early in a child s life that might reduce at a reasonable cost the probability of his becoming a serious delinquent The results of some small scale social experiments have been published suggesting that certain kinds of preschool education and parent training might have desirable and lasting effects In addition there is growing evidence that some kinds of medical intervention and certain forms of school organization and ethos could help reduce the rate of misconduct The authors provide a full scale assessment of the evidence that might lead to the design of new research and action efforts *From Children to Citizens* Francis X. Hartmann,1987-06-17 From the preface The issues around which the juvenile justice system is centered frequently evoke anger and impatience These emotions arise because the issues are so important and movement concerning the same issues seems nonexistent The persons who are involved with those same issues however elicit respect and often affection The Executive Sessions of the Kennedy School of Government combine the two elements issues and persons with the stated goal of advancing fruitful and effective public policy The Executive Session on the Future of the Juvenile Justice System regularly brought to the same table over a period of almost two years persons who understand the issues well who are professionally and personally invested in certain positions on the issues and who were willing to engage themselves fully in the exchange of ideas both theoretical and practical which an Executive Session demands This book is one of the products of that process The editor who chaired the meetings of the Session takes certain

positions regarding the future of the juvenile justice system and what the system should look like ten years from now 1

King, 2020-02-19 Children's rights law is a relatively young but rapidly developing discipline The U N Convention on the Rights of the Child the field's core legal instrument is the most widely ratified human rights treaty in history Yet like children themselves children's rights are often relegated to the margins in mainstream legal political and other discourses despite their application to approximately one third of the world's population and every human being's first stages of life Now thirty years old the Convention on the Rights of the Child CRC signalled a definitive shift in the way that children are viewed and understood from passive objects subsumed within the family to full human beings with a distinct set of rights Although the CRC and other children's rights law have spurred positive changes in law policies and attitudes toward children in numerous countries implementation remains a work in progress We have reached a state in the evolution of children's rights in which we need more critical evaluation and assessment of the CRC and the large body of children's rights law and policy that this treaty has inspired We have moved from conceptualizing and adopting legislation to focusing on implementation and making the content of children's rights meaningful in the lives of all children This book provides a critical evaluation and assessment of children's rights law including the CRC With contributions from leading scholars and practitioners from around the world it aims to elucidate the content of children's rights law explore the complexities of implementation and identify critical challenges and opportunities for children's rights law The Child as Citizen Felton Earls, 2011-02-23 Marking the 20th anniversary of the United Nations General Assembly's adoption of the Convention on the Rights of the Child CRC this volume of the ANNALS considers conceptual legal and practical issues related to the realization of children as citizens **Centennial Sourcebook on Selected Juvenile Justice Literature, 1900-1999** John C.
