Wilson Sisters Adventures 3: Allegiance, the Wild

Kaimanawa Kelly Wilson, Nina Sutherland, 2024-01-30 Nina's and Lily's wild horse adventures take off at a gallop when they get the opportunity of a lifetime to help Kelly Wilson save five wild stallions from slaughter. All of a sudden Nina is in charge of training a mature stallion called Allegiance, a huge step up from her little yearling Thunder. The stallions are flightier and fiercer than Nina and Lily could have imagined and they're left second-guessing if they're up for the challenge. Will Nina's hard work and determination pay off in time for them to compete in the Freedom to Friendship Challenge at Equidays, the nation's biggest equestrian event? From the author of the bestselling Showtym Adventures, this novel follows Kelly Wilson's and Nina Sutherland's experiences with wild horses and is inspired by true events. Read all the books in this bestselling series: Wilson Sisters Adventures 1 Shyla the Snowy Brumby, Wilson Sisters Adventures 2 Thunder the Yearling Colt.

Schooling and Riding the Sport Horse Paul D. Cronin, 2004 The director of the riding program at Sweet Briar College for more than 30 years, Cronin is a well-known and highly respected trainer and riding instructor. Here he presents a clear and practical guide to getting the most out of a horse in a humane and sensitive way.

Course Design Georg Christoph Bödicker, Susanne Strübel, Werner Deeg, 2018-02-14 The title says it all: Course Design. Fascinatingly Logical. In many different ways and with illustrative examples, this book presents how a course must be designed to meet the modern demands of riders and horses. Course layouts specifically drafted for this purpose and extensive picture material provide comprehensive advice on this topic. The three authors dedicate a large portion of this book to the fundamental theoretical knowledge on the design and development of show jumping courses. In doing so, the construction and design of the obstacles, as well as their effect, is examined. Individual obstacles are introduced, the execution of the obstacle approach, tasks and their degree of difficulty are described. In addition, valuable tips for self-organization for material procurement and for the practical set-up and design are given to riders of all ages and aspiring course designers. The thoughts on the necessary psychological empathy of the course designer also make for an interesting read. After all, not only the organizer but also the sponsors, riders, and the audience have to be kept happy, and as the highest priority, the horse's health must always be kept in mind. The second edition of Course Design: Fascinatingly Logical has been completely revised, and text and images have been updated. Next to the old masters of riding, Ludger Beerbaum and Marcus Ehning, both from Germany, the book features the experience of female riders Luciana Diniz (Portugal) and Reed Kessler (USA). A new chapter entitled 'Thoughts on the Work of International Course Designers' focuses on the demands on a course designer who has to respect and implement international rules and regulations. Course maps and pictures of international championships provide the finishing touches to this chapter. In summary: From the early beginnings to modern performance-oriented course design. Practical assistance and fundamental theoretical knowledge for the design of competition and training courses. Psychological skill of those responsible for designing the course. Insights into the work of
