Quigley,2008-10-01 div In the aftermath of debate about the death of literary theory Austin E Quigley asks whether theory has failed us or we have failed literary theory Theory can thrive he argues only if we understand how it can be strategically deployed to reveal what it does not presuppose This involves the repositioning of theoretical inquiry relative to historical and critical inquiry and the repositioning of theories relative to each other What follows is a thought provoking reexamination of the controversial claims of pluralism in literary studies The book explores the related roles of literary history criticism and theory by tracing the fascinating history of linguistics as an intellectual problem in the twentieth century Quigley s approach clarifies the pluralistic nature of literary inquiry the viability and life cycles of theories the controversial status of canonicity and the polemical nature of the culture wars by positioning them all in the context of recurring debates about language that have their earliest exemplifications in classical times DIV Anthropology of Tobacco Andrew Russell,2019-03-04 Tobacco has become one of the most widely used and traded commodities on the planet Reflecting contemporary anthropological interest in material culture studies Anthropology of Tobacco makes the plant the centre of its own contentious global story in which instead of a passive commodity tobacco becomes a powerful player in a global adventure involving people corporations and public health Bringing together a range of perspectives from the social and natural sciences as well as the arts and humanities Anthropology of Tobacco weaves stories together from a range of historical cross cultural and literary sources and empirical research These combine with contemporary anthropological theories of agency and cross species relationships to offer fresh perspectives on how an apparently humble plant has progressed to world domination and the consequences of it having done so It also considers what needs to happen if as some public health advocates would have it we are seriously to imagine a world without tobacco This book presents students scholars and practitioners in anthropology public health and social policy with unique and multiple perspectives on tobacco human relations *Intimate Strangers* Fredric Brandfon,2023-05 Illuminating the history of Jews and Jewish Catholic relations in Rome *Intimate Strangers* investigates the unusual and uninterrupted relationship between Jews and Catholics as it has developed from the first century CE to the present **Ideas and Trends in World Anthropology** Charles Frantz,1981 Readings for a History of Anthropological Theory Paul A. and introductions accompany each reading and a revamped glossary makes the book more student friendly Used on its own or together with the overview text *A History of Anthropological Theory* Fourth Edition this anthology offers a flexible and unrivaled introduction to anthropological theory that reflects not only the history but also the changing nature of the discipline today For additional resources visit the Teaching Theory page at www.utpteachingculture.com Readings for a History of Anthropological Theory, Fifth Edition Liam D. the boundaries of folklore literature anthropology and Latin American studies It is one of the very few studies to offer an overview of the changes taking place in Amazonia through the eyes of ordinary people This book is a rich collection of stories about the transformation of dolphins in the city of enchantment The joy in this book is not just its vibrant analysis and careful relating of tradition and lore but also its uncanny accurateness in capturing the very essence of Amazonia Darrell Posey Journal of Latin American Studies Slater s fluid prose reads like a novel for those interested in Amazonian culture and folklore while her integrated approach makes this a must read for those interested in innovative methodology Lisa Gabbert Western Folklore Kuna Art and Shamanism Paolo Fortis, 2013-01-02 Known for their beautiful textile art the Kuna of Panama have been scrutinized by anthropologists for decades Perhaps surprisingly this scrutiny has overlooked the magnificent Kuna craft of nuchukana wooden anthropomorphic carvings which play vital roles in curing and other Kuna rituals Drawing on long term fieldwork Paolo Fortis at last brings to light this crucial cultural facet illuminating not only Kuna aesthetics and art production but also their relation to wider social and cosmological concerns Exploring an art form that informs birth and death personhood the dream world the natural world religion gender roles and ecology Kuna Art and Shamanism provides a rich understanding of this society s visual system and the ways in which these groundbreaking ethnographic findings can enhance Amerindian scholarship overall Fortis also explores the fact that to ask what it means for the Kuna people to carve the figure of a person is to pose a riddle about the culture s complete concept of knowing Also incorporating notions of landscape islands gardens and ancient trees as well as cycles of life including the influence of illness Fortis places the statues at the center of a network of social relationships that entangle people with nonhuman entities As an activity carried out by skilled elderly men who possess embodied knowledge of lifelong transformations the carving process is one that mediates mortal worlds with those of immortal primordial spirits Kuna Art and Shamanism immerses readers in this sense of unity and opposition between soul and body internal forms and external appearances and image and design

Anthropology, Colonial Policy and the Decline of French Empire in Africa Douglas W. Leonard, 2019-12-26 Conceived as both a vehicle to national prestige and as a civilizing mission the second French colonial empire 1830 1962 challenged soldiers scholars and administrators to understand societies radically different from their own The resultant networks of anthropological inquiry however did not have this effect Rather they opened pathways to political and intellectual independence framed in the language of social science and in the process upended the colonial political system and reshaped the nature of human inquiry in France While still unequal French colonial rule in Africa revealed the durability and strength of non European modes of thought In this influential new study historian Douglas W Leonard examines the political and intellectual repercussions of French efforts to understand and to dominate colonial Africa through the use of anthropology From General Louis Faidherbe in the 1840s to politician Jacques Soustelle and sociologist Pierre Bourdieu in the 1950s these French thinkers sowed the seeds of colonial destruction **Bathing - the Body and Community Care** Julia

Twigg,2002-01-04 Community care lies at the intersection of day to day life and the public world of service provision Using the lens of one particular activity bathing this book explores what happens when the public world of professionals and service provision enters the lives of older and disabled people In doing so it addresses wider issues concerning the management of the body the meaning of carework and the significance of body care in the ordering of daily life Bathing the Body and Community Care provides an engaging text for students and will be of interest to a wide range of audiences both social science and health science students and nursing and allied professionals The Ethnological Imagination Fuyuki Kurasawa,2004 Kurasawa sociology York U Toronto suggests what he calls the ethnological imagination as one of the possible routes out of the impasse created by the apparent exhaustion or inadequacy of Western social theory to deal with cross cultural thinking which becomes ever more urgent in light of increasing cultural pluralism and difference in the glo

Dialogicality in Development Ingrid E. Josephs,2003-09-30 The crucial nature of developmental theory is the question of relationship between cultural and personal facets of human development Dialogue is a useful concept to specify this relationship from a process oriented perspective In its broadest sense the notion of dialogue entails the interaction between at least two entities persons meanings perspectives out of which novelty can but need not emerge Thus dialogic models are open for developmental questions These issues are examined in this the first volume in which the increasingly popular metaphor of dialogue is systematically applied to developmental issues Dialogue is a multilevel concept and can be understood 1 as a real exchange between two interacting persons 2 as the interaction between culture at large e

g stories and narratives and the interacting developing person and 3 as a metaphor for developmental processes in general In the first part of this international volume the concept of dialogue is elaborated by researchers from different disciplines The focus of the second section is on dialogic models in the area of self development The third deals with the dialogical co development of person and culture
