Psychoanalysis and Literature, Marilyn Charles, 2015-03-25 Psychoanalysis offers many concepts that are extremely useful clinically but not always accessible in the original In Psychoanalysis and Literature The Stories We Live Marilyn Charles pairs case vignettes with examples from literature to highlight the essential human struggles that play out in the consulting room This pairing depathologizes those struggles and offers a conceptual framework that can help the clinician facilitate these journeys of

discovery Describing first how literature affords an opportunity for vicarious engagement with struggles endemic to the human condition she then focuses on trauma dreams and cultural collisions turning more explicitly to the developmental challenges of identity relatedness aging and generativity Psychoanalysis and Literature is accessible relevant and timely

Etty Hillesum and the Flow of Presence Meins G. S. Coetsier, 2008 Although she died cruelly at Auschwitz at the age of twenty nine Etty Hillesum left a lasting legacy of mystical thought in her letters and diaries Hillesum was a complex and powerful witness to the openness of the human spirit to the call of God even under the most harrowing circumstances Her life was as much shaped by Hitler's regime as was that of philosopher Eric Voegelin and as Meins Coetsier reveals her thought lends itself to interpretation from a uniquely Voegelinian perspective Etty Hillesum and the Flow of Presence analyzes the life and writings of Hillesum from the standpoint of Voegelin's views on consciousness especially his philosophy of luminous participation in the transcendent ground of being Through a careful reading of her letters and diaries Coetsier reveals the inner development of Hillesum's mystically grounded resistance to Nazism as he guides readers through the symbolism of her spiritual journey making effective use of Voegelin's analytics of experience and symbolization to trace her path to spiritual truth Intertwining the lives works and visions of these two mystical thinkers Coetsier demonstrates his mastery of both Voegelin's philosophy and Hillesum's Dutch language materials He shows how mystical attunement to the flow of presence Voegelin's designation for human responsiveness to the divine is the key to the development of Hillesum's life and writings He displays a special affinity for the suffering and grace filled transformation that she underwent as she approached the end of her life and gained insight into the ultimate purpose of each individual's contribution to the well being and maintenance of the human spirit Retrieving one of the lesser known but most compelling figures of the Holocaust Etty Hillesum and the Flow of Presence is an original contribution to both Voegelin and Hillesum scholarship that reflects these writers strong valuation of the human person It presents Hillesum's life and work in an original and provocative context shedding new light on her experiences and their symbolizations while further broadening the application of Voegelin's thought

Vampires from Another World Simon Bacon, 2021-06-04 This book begins at the intersection of Dracula and War of the Worlds both published in 1897 London and describes the settings of Transylvania Mars and London as worlds linked by the body of the vampire It explores the vampire from another world in all its various forms as a manifestation of not just our anxieties around alien others but also our alien selves Unsurprisingly many of the tropes these novels generated and particularly the themes they have in common have been used and adapted by vampire narratives that followed From Nosferatu to Alien Interstellar Stranger Things and many others this book examines how these narratives have evolved since the end of the nineteenth century Bringing together texts and films from across the 19th 20th and 21st centuries from the far reaches of outer space and the distant future it concludes that the unexpected and the unknown are not always to be feared and that humanity does have the power to write its own future

The Silent Sanctuary Patrice Godart, 2025-05-23 The

eternal silence at the core of our being can manifest itself as inner awareness or as a source of inspiration for our active lives Meditation is a path that allows us not only to grow inwardly but also to develop maturity and perfect our outer lives To answer the question What are you doing with your life we must first examine the role our mind plays in guiding our thoughts and actions This book explores the role of the mind in our lives and offers strategies for achieving inner silence drawing inspiration from the methods of Raja Yoga Kriya Yoga Tantra Yoga and the Yoga of Sri Aurobindo It thus complements the first volume devoted to mastering the life force Prana and explores the evolution of Consciousness as the origin means and ultimate goal

J. G. Ballard Jeannette Baxter, 2009-02-12 J G Ballard is one of the most significant British writers of the contemporary period His award winning novels are widely studied and read yet the appeal of Ballard's idiosyncratic and often controversial imagination is such that his work also enjoys something of a cult status with the reading public The hugely successful cinematic adaptations of *Empire of the Sun* Spielberg 1987 and *Crash* Cronenberg 1996 further confirm Ballard's unique place within the literary cultural and popular imaginations This guide includes new critical perspectives on Ballard's major novels as well as his short stories and journalistic writing covering issues of form narrative and experimentation Whilst offering fresh readings of dominant and recurring themes in Ballard's writing including history sexuality violence consumer capitalism and urban space the contributors also explore Ballard's contribution to major contemporary debates including those surrounding post 9 11 politics terrorism neo imperialism science morality and ethics

The War Within - Between Good and Evil Bhimeswara Challa, The human has always prided himself as an exceptional moral species but has always been haunted by two questions Why am I not good when I want to be why do I do bad when I don't want to This is at the heart of what scriptures and sages have long alluded to as the eternal internal struggle between good and evil that wages in the human consciousness The book posits that much of our confusion and angst stems from our inability to recognize the ramifications of this war between two sides of our own self It is because we are ignoring this war between two sides of our own self It is because we are ignoring this war that we are losing all other wars of the world That ignorance is the primary source of all the horrors malevolence and violence that fill us with so much dread But a favorable outcome is possible only if the forces of goodness are aided to get an upper hand consistently and that calls for two cathartic changes consciousness change by inducing a turn from the mind to the heart and contextual change by radically reconstructing the roles of morality money and mortality in our everyday lives

The book offers a menu of insights and options we all can use to tilt the scales in the war waging inside each of us

Peirce, James, and a Pragmatic Philosophy of Religion John W. Woell, 2012-02-09 In this book John W Woell shows us how contemporary readings of American Pragmatism founded on mistakenly used categories of the Analytic tradition have led to misreadings of Peirce and James By focusing on terms drawn largely from Descartes and Kant contemporary debates between metaphysical realists antirealists Realists and Nonrealists have argues Woell failed to shed great light on pragmatism in general and a pragmatic philosophy of religion in particular Woell contends that paying close attention to the internal relationships among inquiry belief and their objects in the respective works of Peirce and James provides a means for fully appreciating pragmatism s richness as a resource for philosophy of religion By taking account of a pragmatic point of view in philosophy of religion this book incites a more productive discussion of the metaphysical status of religious objects and of the epistemic status of religious belief
