From Resilience to Revolution Sean L. Yom, 2015-12-01 Based on comparative historical analyses of Iran Jordan and Kuwait Sean L Yom examines the foreign interventions coalitional choices and state outcomes that made the political regimes of the modern Middle East A key text for foreign policy scholars *From Resilience to Revolution* shows how outside interference can corrupt the most basic choices of governance who to reward who to punish who to compensate and who to manipulate As colonial rule dissolved in the 1930s and 1950s Middle Eastern autocrats constructed new political states to solidify their reigns with varying results Why did equally ambitious authoritarians meet such unequal fates Yom ties the durability of Middle Eastern regimes to their geopolitical origins At the dawn of the postcolonial era many autocratic states had little support from their people and struggled to overcome widespread opposition When foreign powers intervened to bolster these regimes they unwittingly sabotaged the prospects for long term stability by discouraging leaders from reaching out to their people and bargaining for mass support early coalitional decisions that created repressive institutions and planted the seeds for future unrest Only when they were secluded from larger geopolitical machinations did Middle Eastern regimes come to grips with their weaknesses and build broader coalitions **The Oxford Encyclopedia of Economic**

Tribal Politics in Iran Stephanie Cronin,2007-01-24 Placing Iran s tribal problem

in its historical context Tribal Politics in Iran provides an overall assessment on the impact of this crucial period on the character of tribe state relations in Iran to the end of Pahlavi rule and in the Islamic Republic It analyzes the political and socio economic factors undermining tribal politics under the regime of Reza Shah and examines the division which took place regarding the tribal problem The author argues that on the one hand it lead to modern ethnic nationalism and on the other detribalization and absorption into wider class or ideology based organizations happened Looking particularly at the land reform of the early 1960s and the revolution of 1979 Cronin also discusses the final disappearance of the khans as a political force and the rise of a new tribal leadership loyal to and dependent upon the regime This innovative and important work challenges conventional political and scholarly approaches to tribal politics The Rite of Urban Passage Reza Masoudi,2018-08-17 The Iranian city experienced a major transformation when the Pahlavi Dynasty initiated a project of modernization in the 1920s The Rite of Urban Passage investigates this process by focusing on the spatial dynamics of Muharram processions a ritual that commemorates the tragic massacre of Hussein and his companions in 680 CE In doing so this volume offers not only an alternative approach to understanding the process of urban transformation but also a spatial genealogy of Muharram rituals that provides a platform for developing a fresh spatial approach to ritual studies

**Recasting Iranian Modernity** Kamran Matin,2013-11-07 Critically deploying the idea of uneven and combined development this book provides a novel non Eurocentric account of Iran s experience of modernity and revolution Recasting Iranian Modernity presents the argument that Eurocentrism can be decisively overcome through a social theory that has international relations at its ontological core This will enable a conception of history in which there is an intrinsic international dimension to social change that prevents historical repetition This hitherto under theorized international dimension is the book argues manifest in combined patterns of development which incorporate both foreign and native forms It is the tension prone and unstable nature of these hybrid developmental patterns that mark Iranian modernity and fuelled the socio political dynamics of the 1979 revolution and the rise of political Islam Challenging solely comparative approaches to the Iranian Revolution that explain it away as either a deviation from or a reaction to modernity on the grounds of its religious form this book will be valuable to those interested in an alternative theoretical approach to the Iranian Revolution modern Iran and political Islam working in the fields of International Relations Middle East and Islamic Studies History Political Science Political Sociology Postcolonialism and Comparative Politics **Subalterns and Social Protest** Stephanie Cronin,2012-09-10 The articles in this collection provide an alternative view of Middle Eastern history by focusing on the oppressed and the excluded offering a challenge to the usual elite narratives The collection is unique in its historical depth ranging from the medieval period to the present and its geographical reach including Iran the Ottoman Empire Turkey the Balkans the Arab Middle East and North Africa The first to focus on the oppressed and the excluded and their differing strategies of survival of negotiation and of protest and resistance the book covers both major social classes and sectors the

these three revolutions and reveals the important similarities between them *Revolutions and the Collapse of Monarchy* argues provocatively that it is often the monarch's own personality that provides the vital spark which produces revolution.
