may consciously generate in themselves and in others resourceful mindsets emotions attitudes and behaviours to enable positive change leadership dynamics Neuro Linguistic Programming for Change Leaders The Butterfly Effect fills this gap by connecting the practices of personal development with those of corporate change leadership This book has the vision of advancing NLP as a serious technology in the change leader s tool box The book introduces to operations managers HR practitioners OD specialists and students of management new ideas and practices which can transform their effectiveness as change leaders It focuses on the benefits of applied NLP to change leaders as a generative change toolkit Secondly the book provides a model that shows change leaders how to build a climate of psychological safety to establish rapport with stakeholders Thirdly the book provides a strategy for enabling broader cultural change and stakeholder engagement throughout the organization
