From Front Porch To Back Seat:

From Front Porch to Back Seat Beth L. Bailey, 1989-08-01 From gentleman callers to big men on campus from Coke dates to parking From Front Porch to Back Seat is the vivid history of dating in America In chronicling a dramatic shift in patterns of courtship between the 1920s and the 1960s Beth Bailey offers a provocative view of how we sought out mates and of what accounted for our behavior More than a quarter century has passed since the dating system Bailey describes here lost its coherence and dominance Yet the legacy of the system remains a strong part of our culture s attempt to define female and male roles alike American Families Past and Present Susan M. Ross, 2006 Bringing together essays by twenty one distinguished scholars who have helped shape the field of family sociology in the last decade this interdisciplinary anthology examines variation within family experience especially as it has evolved across racial ethnic social gender and generational lines The essays place historical and institutional frameworks at the center of the discussion In depth chapter introductions along with critical questions to spark class discussion make this an ideal text for courses focusing on family composition trends and controversies in the United States

Beyond Rosie the Riveter Donna B. Knaff, 2014-01-10 The iconic bicep flexing poster image of Rosie the Riveter has long conveyed the impression that women were welcomed into the World War II work force and admired for helping free a man to fight Donna Knaff however shows that Rosie only revealed part of the reality and that women depicted in other World War II visual art both in the private sector and the military reflected decidedly mixed feelings about the status of women within American society Beyond Rosie the Riveter takes readers back to a time before television s dominance to the golden age of print art and its singular power over public opinion Focusing specifically on instances of female masculinity when women entered previously all male fields Knaff places these images within the context of popular discussions of gender roles and examines their historical cultural and textual contexts As Knaff reveals visual messages received by women through war posters magazine cartoons comic strips and ads may have acknowledged their importance to the war effort but also cautioned them against taking too many liberties or losing their femininity Her study examines the subtle and not so subtle cultural battles that played out in these popular images opening a new window on American women s experience Some images implicitly argued that women should maintain their femininity despite adopting masculinity for the war effort others dealt with society s deep seated fear that masculinized women might feminize men and many reflected the dilemma that a woman was both encouraged to express and suppress her sexuality so that she might be perceived as neither promiscuous nor lesbian From these cases Knaff draws a common theme while being outwardly empowered or celebrated for their wartime contributions women were kept in check by being held responsible for everything from distracting male co workers to compromising machinery with their long hair and jewelry Knaff also notes the subtle distinctions among the images government war posters targeted blue collar women New Yorker content was aimed at socialites Collier s addressed middle class women and Wonder Woman was geared to young girls Especially through its focus

on visual arts Knaff's book gives us a new look at American society decades before the modern women's rights movement torn between wartime needs and antiquated gender roles It provides much needed nuance to a glossed over chapter in our history charting the difficult negotiations that granted and ultimately took back American women's wartime freedoms

Making Marriage Modern Christina Simmons, 2009-04-10 The nineteenth century middle class ideal of the married woman was of a chaste and diligent wife focused on being a loving mother with few needs or rights of her own The modern woman by contrast was partner to a new model of marriage one in which she and her husband formed a relationship based on greater sexual and psychological equality In *Making Marriage Modern* Christina Simmons narrates the development of this new companionate marriage ideal which took hold in the early twentieth century and prevailed in American society by the 1940s The first challenges to public reticence to discuss sexual relations between husbands and wives came from social hygiene reformers who advocated for a scientific but conservative sex education to combat prostitution and venereal disease A more radical group of feminists anarchists and bohemians opposed the Victorian model of marriage and even the institution of marriage Birth control advocates such as Emma Goldman and Margaret Sanger openly championed women's rights to acquire and use effective contraception The companionate marriage emerged from these efforts This marital ideal was characterized by greater emotional and sexuality intimacy for both men and women use of birth control to create smaller families and destigmatization of divorce in cases of failed unions Simmons examines what she calls the flapper marriage in which free spirited young wives enjoyed the early years of marriage postponing children and

domesticity She looks at the feminist marriage in which women imagined greater equality between the sexes in domestic and paid work and sex And she explores the African American partnership marriage which often included wives employment and drew more heavily on the involvement of the community and extended family Finally she traces how these modern ideals of marriage were promoted in sexual advice literature and marriage manuals of the period Though male dominance persisted in companionate marriages Christina Simmons shows how they called for greater independence and satisfaction for women and a new female heterosexuality By raising women s expectations of marriage the companionate ideal also contained within it the seeds of second wave feminists demands for transforming the institution into one of true equality between the sexes

Love in the Time of Algorithms Dan Slater,2013-01-24 If online dating can blunt the emotional pain of separation if adults can afford to be

increasingly demanding about what they want from a relationship the effect of online dating seems positive But what if it is also the case that the prospect of finding an ever more compatible mate with the click of a mouse means a future of relationship instability a paradox of choice that keeps us chasing the illusive bunny around the dating track It is the mother of all search problems how to find a spouse a mate a date The escalating marriage age and declining marriage rate mean we are spending a greater portion of our lives unattached searching for love well into our thirties and forties It is no wonder that a third of America's 90 million singles are turning to dating Web sites Once considered the realm of the lonely and desperate sites like eHarmony Match OkCupid and Plenty of Fish have been embraced by pretty much every demographic Thanks to the increasingly efficient algorithms that power these sites dating has been transformed from a daunting transaction based on scarcity to one in which the possibilities are almost endless Now anyone young old straight gay and even married can search for exactly what they want connect with more people and get more information about those people than ever before As journalist Dan Slater shows online dating is changing society in more profound ways than we imagine He explores how these new technologies by altering our perception of what is possible are reconditioning our feelings about commitment and challenging the traditional paradigm of adult life Like the sexual revolution of the 1960s and 70s the digital revolution is forcing us to ask new questions about what constitutes normal Why should we settle for someone who falls short of our expectations if there are thousands of other options just a click away Can commitment thrive in a world of unlimited choice Can chemistry really be quantified by math geeks As one of Slater's subjects wonders What is the etiquette here Blending history psychology and interviews with site creators and users Slater takes readers behind the scenes of a fascinating business Dating sites capitalize on our quest for love but how do their creators ideas about profits morality and the nature of desire shape the virtual worlds they've created for us Should we trust an industry whose revenue model benefits from our avoiding monogamy Documenting the untold story of the online dating industry's rise from ignominy to ubiquity beginning with its early days as computer dating at Harvard in 1965 Slater offers a lively entertaining and thought provoking account of how we have for better and worse embraced technology in the most intimate aspect of our lives

asexual to being regarded and feared as primarily sexual in nature **Undressed Toronto** Dale Barbour, 2021-10-01

Undressed Toronto looks at the life of the swimming hole and considers how Toronto turned boys skinny dipping into comforting anti modernist folk figures By digging into the vibrant social life of these spaces Barbour challenges narratives that pollution and industrialization in the nineteenth century destroyed the relationship between Torontonians and their rivers and waterfront Instead we find that these areas were co opted and transformed into recreation spaces often with the acceptance of indulgent city officials While we take the beach for granted today it was a novel form of public space in the nineteenth century and Torontonians had to decide how it would work in their city To create a public beach bathing needed to be transformed from the predominantly nude male privilege that it had been in the mid nineteenth century into an activity that women and men could participate in together That transformation required negotiating and establishing rules for how people would dress and behave when they bathed and setting aside or creating distinct environments for bathing Undressed Toronto challenges assumptions about class the urban environment and the presentation of the naked body It explores anxieties about modernity and masculinity and the weight of nostalgia in public perceptions and municipal regulation of public bathing in five Toronto environments that showcase distinct moments in the transition from vernacular bathing to the public beach the city s central waterfront Toronto Island the Don River the Humber River and Sunnyside Beach on Toronto s western shoreline Interactions Ann Moseley, Jeanette Harris, 2002 Interactions a thematic reader
