From Goethe To Gide:

From Goethe to Gide Mary Orr, Lesley Sharpe, 2005 From Goethe to Gide brings together twelve essays on canonical male writers six French and six German commissioned from leading specialists from Britain and North America These essays aimed at final year undergraduates and postgraduates focus on Rousseau Goethe Schiller Hoffmann Stendhal Baudelaire Flaubert Heine Fontane Zola Kafka Gide The collection therefore foregrounds the major authors taught on British university BA courses in French and German Working with the tools of feminist criticism the authors demonstrate how feminist readings of these writings can illuminate far more than attitudes towards women *Gide's Bent* Michael Lucey, 1995 This study investigates the place of sexuality in the writings of Andre Gide Focusing on his writing of the 1920s and 1930s the years in which Gide wrote most openly about his homosexuality and also the years of his most notable left wing political activity the work interrogates both the political content of his reflections on his homosexuality and the ways in which his sexuality inflected his political interests

Modernist Mysteries: Persephone Tamara Levitz, 2012-08-15 Modernist Mysteries Pers phone is a landmark study that will move the field of musicology in important new directions The book presents a microhistorical analysis of the premiere of the melodrama Pers phone at the Paris Opera on April 30th 1934 engaging with the collaborative transnational nature of the production Author Tamara Levitz demonstrates how these collaborators Igor Stravinsky Andr Gide Jacques Copeau and Ida Rubinstein among others used the myth of Persephone to perform and articulate their most deeply held beliefs about four topics significant to modernism religion sexuality death and historical memory in art In investigating the aesthetic and political consequences of the artists diverging perspectives and the fall out of their titanic clash on the theater stage Levitz dismantles myths about neoclassicism as a musical style The result is a revisionary account of modernism in music in the 1930s As a result of its focus on the collaborative performance this book differs from traditional accounts of musical modernism and neoclassicism in several ways First and foremost it centers on the performance of modernism highlighting the theatrical performative and sensual Levitz places Christianity in the center of the discussion and questions the national distinctions common in modernist research by involving a transnational team of collaborators She further breaks new ground in shifting the focus from history to memory by emphasizing the commemorative nature of neoclassic listening rituals over the historicist stylization of its scores and contends that modernists captured on stage and in philosophical argument their simultaneous need and inability to mourn the past The book as a whole counters the common criticism that neoclassicism was a reactionary musical style by suggesting a more pluralistic ambivalent and sometimes even progressive politics and reconnects musical neoclassicism with a queer classicist tradition extending from Winckelmann through Walter Pater to Gide Modernist Mysteries concludes that 1930s modernists understood neoclassicism not as formalist compositional approaches but rather as a vitalist art haunted by ghosts of the past and promissory visions of the future *On Gide's PROMETHEE* Kurt Weinberg, 2015-03-08 Through a

Gender, Collaboration, and Authorship in German Culture John B. Lyon, Laura Deiulio, 2019-08-22 Gender Collaboration and Authorship in German Culture challenges a model of literary production that persists in literary studies the so called Geniekult or the idea of the solitary male author as genius that emerged around 1800 in German lands A closer look at creative practices during this time indicates that collaborative creative endeavors specifically joint ventures between women and men were an important mode of literary production during this era This volume surveys a variety of such collaborations and proves that male and female spheres of creation were not as distinct as has been previously thought It demonstrates that the model of the male genius that dominated literary studies for centuries was not inevitable that viable alternatives to it existed Finally it demands that we rethink definitions of an author and a literary work in ways that account for the complex modes of creation from which they arose
