The Differentiation of Modernism Larson Powell, 2013 The Differentiation of Modernism analyzes the phenomenon of intermediality in German radio plays film music and electronic music of the late modernist period 1945 1980 After 1945 the purist medium specificity of high modernism increasingly yielded to the mixed forms of intermediality Theodor Adorno dubbed this development a Verfransung or fraying of boundaries between the arts The Differentiation of Modernism analyzes this phenomenon in German electronic media arts of the late modernist period 1945 80 in radio plays film music and electronic music The first part of the book begins with a chapter on Adorno s theory of radio as an instrument of democratization going on to analyze the relationship of the Hörspiel or radio play to electronic music In the second part on film music a chapter on Adorno and Eisler s Composing for the Film sets the parameters for chapters on the film Das Mädchen Rosemarie 1957 and on the music films of Jean Marie Straub and Danièle Huillet The third part examines the music of Karlheinz Stockhausen and its relationship to radio abstract painting recording technology and theatrical happenings The book s central notion of the differentiation of culture suggests that late modernism unlike high modernism accepted the contingency of modern mass media driven society and sought to find new forms for it Larson Powell is Curator s Professor of Film Studies at University of Missouri Kansas City He is the author of *The Technological Unconscious in German Modernist Literature* Camden House 2008

Grétry's Operas and the French Public R.J. Arnold, 2017-07-05 Why in the dying days of the Napoleonic Empire did half of Paris turn out for the funeral of a composer The death of André Ernest Modeste Grétry in 1813 was one of the sensations of the age setting off months of tear stained commemorations reminiscences and revivals of his work To understand this singular event this interdisciplinary study looks back to Grétry s earliest encounters with the French public during the 1760s and 1770s seeking the roots of his reputation in the reactions of his listeners The result is not simply an exploration of the relationship between a musician and his audiences but of developments in musical thought and discursive culture and of the formation of public opinion over a period of intense social and political change The core of Grétry s appeal was his mastery of song Distinctive direct and memorable his melodies were exported out of the opera house into every corner of French life serving as folkloristic tokens of celebration and solidarity longing and regret Grétry s attention to the subjectivity of his audiences had a profound effect on operatic culture forging a new sense of democratic collaboration between composer and listener This study provides a

reassessment of Gr try s work and musical thought positioning him as a major figure who linked the culture of feeling and the culture of reason and who paved the way for Romantic notions of spectatorial absorption and the power of music

Copyright and the Challenge of the New Brad Sherman, Leanne Wiseman, 2012-08-01 Copyright is not as is often thought something that is periodically extended to cover a new field or medium rather copyright redefines itself whenever its efficacy is challenged While many factors have contributed to this process the most consistent has been the challenges created by new technologies The contributing authors build upon this insight to show that copyright law is and has always been a creature of technology Each chapter focuses on a specific technology or group of technologies photography telegraphy the phonogram radio film the photocopier the tape player television and computer programs emphasizing the changes that each technology instigated and the challenges and opportunities it created Perhaps the most profound insight of this extraordinary book is the authors claim ably supported in a series of intriguing chapters that the way the law responds and reacts to new technologies is always mediated by the political social economic and cultural environment in which the interaction occurs For example these chapters describe and explain how statutory schemes of remuneration arose from failures to effectively police new forms of piracy persistent litigation and lobbying by copyright owners forces legislatures and courts to devise new laws content e g sporting events generates new rules of access to broadcasts and fair copying e g by libraries is the necessary exception that proves the rule As well as providing insight into the ways that copyright law interacted with old technologies when they were new the book also offers important insights into problems and issues currently confronting copyright law and policy such as the appropriate scope of copyright and the relation between copyright and the public interest With the broad perspectives opened by these essays academics practitioners and policymakers in the field will find themselves well equipped to deal with the problems that will inevitably be created by technologies in the future

How Music Grew in Brooklyn Maurice Edwards, 2006 The Brooklyn Philharmonic is one of the most innovative and respected symphony orchestras of modern times Maurice Edwards provides a personal and comprehensive history of this institution *How Music Grew in Brooklyn* includes more than two dozen historical photographs and illustrations and an eighty page appendix providing detailed listing of the orchestra s programs including the Marathons **BOOK JACKET** **The ^AOxford Handbook of**

Sound and Imagination, Volume 1 Mark Grimshaw-Aagaard, Mads Walther-Hansen, Martin Knakkegaard, 2019-07-26 In this two volume Handbook contributors address the tendency to discuss musical imagination through terms like compositional creativity or performance technique correcting the current bias towards visual imagination to instead highlight the many forms of sonic and musical imagination **Acrobatic Modernism from the Avant-Garde to Prehistory** Jed Rasula, 2020-02-27 This is a book about artistic modernism contending with the historical transfigurations of modernity As a conscientious engagement with modernity s restructuring of the lifeworld the modernist avant garde raised the stakes of this engagement to programmatic explicitness But even beyond the vanguard the global phenomenon of jazz combined somatic

assault with sensory tutelage Jazz like the new technologies of modernity re calibrated sensory ratios The criterion of the new as self making also extended to names pseudonyms and heteronyms The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement Expressivity trumped representation The artwork was a diagram of perception not a mimetic rendering For artists the historical pressures of altered perception provoked new models and Ezra Pound s slogan Make It New became the generic rallying cry of renovation The paradigmatic stance of the avant garde was established by Futurism but the discovery of prehistoric art added another provocation to artists Paleolithic caves validated the spirit of all over composition unframed and dynamic Geometric abstraction Constructivism and Purism and Surrealism were all in quest of a new mythology Making it new yielded a new pathos in the sensation of radical discrepancy between futurist striving and remotest antiquity The Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future As such the present was suffused with the pathos of being neither but subject to both

The Oxford Handbook of Music and Virtuality Sheila Whiteley, Shara Rambarran, 2016 Has the virtual invaded the realm of the real or has the real expanded its definition to include what once was characterized as virtual With the continual evolution of digital technology this distinction grows increasingly hazy But perhaps the distinction has become obsolete perhaps it is time to pay attention to the intersections mutations and transmigrations of the virtual and the real Certainly it is time to reinterpret the practice and study of music The Oxford Handbook of Music and Virtuality edited by Sheila Whiteley and Shara Rambarran is the first book to offer a kaleidoscope of interdisciplinary perspectives from scholars around the globe on the way in which virtuality mediates the dissemination acquisition performance creation and reimagining of music The Oxford Handbook of Music and Virtuality addresses eight themes that often overlap and interact with one another Questions of the role of the audience artistic agency individual and communal identity subjectivity and spatiality repeatedly arise Authors specifically explore phenomena including holographic musicians and virtual bands and the benefits and detriments surrounding the free circulation of music on the internet In addition the book investigates the way in which fans and musicians negotiate gender identities as well as the dynamics of audience participation and community building in a virtual environment The handbook rehistoricizes the virtual by tracing its progression from cartoons in the 1950s to current industry innovations and changes in practice Well grounded and wide reaching this is a book that students of any number of disciplines from Music to Cultural Studies have awaited

The Routledge History of Social Protest in Popular Music Jonathan C. Friedman, 2013-07-04 The major objective of this collection of 28 essays is to analyze the trends musical formats and rhetorical devices used in popular music to illuminate the human condition By comparing and contrasting musical

offerings in a number of countries and in different contexts from the 19th century until today The Routledge History of Social Protest in Popular Music aims to be a probing introduction to the history of social protest music ideal for popular music studies and history and sociology of music courses Sex, Time and Place Simon Avery, Katherine M. Graham, 2016-10-06 Sex Time and Place extensively widens the scope of what we might mean by queer London studies Incorporating multidisciplinary perspectives including social history cultural geography visual culture literary representation ethnography and social studies this collection asks new questions widens debates and opens new subject terrain Featuring essays from an international range of established scholars and emergent voices the collection is a timely contribution to this growing field Its essays cover topics such as activist and radical communities and groups AIDS and the city art and literature digital archives and technology drag and performativity lesbian Londons notions of bohemianism and deviancy sex reform and research and queer Black history Going further than the existing literature on Queer London which focuses principally on the experiences of white gay men in a limited time frame Sex Time and Place reflects the current state of this growing and important field of study It will be of great value to scholars students and general readers who have an interest in queer history London studies cultural geography visual cultures and literary criticism **Iranian Classical Music** Laudan Nooshin, 2017-03-02 Questions of creativity and particularly the processes which underlie creative performance or improvisation form some of the central areas of interest in current musicology Yet the predominant discourses on which musicological thought in this area are based have rarely been challenged In this book Laudan Nooshin interrogates musicological discourses of creativity from the perspective of critical theory and postcolonial studies examining their ideological underpinnings the relationships of alterity which they sustain and the profound implications for our understanding of creative processes in music The repertoire which forms the book's main focus is Iranian classical music a tradition in which the performer plays a central creative role Addressing a number of issues regarding the nature of musical creativity the author explores both the discourses through which ideas about creativity are constructed exchanged and negotiated within this tradition and the practice by which new music comes into being For the latter she compares a number of performances by musicians playing a range of instruments and spanning a period of more than 30 years focusing on one particular section of repertoire dastg h Seg h and providing transcriptions of the performances as the basis for analytical exploration of the music's underlying compositional principles This book is about understanding musical creativity as a meaningful social practice It is the first to examine the ways in which ideas about tradition authenticity innovation and modernity in Iranian classical music form part of a wider social discourse on creativity and in particular how they inform debates regarding national and cultural identity Building musical culture in Nineteenth-century Amsterdam Darryl Cressman, 2016-03-15 When people attend classical music concerts today they sit and listen in silence offering no audible reactions to what they're hearing We think of that as normal but as Darryl Cressman shows in this book it's the product of a long history of interrelationships between music social norms and

technology Using the example of Amsterdam's Concertgebouw in the nineteenth century Cressman shows how its design was in part intended to help discipline and educate concert audiences to listen attentively and analysis of its creation and use offers rich insights into sound studies media history science and technology studies classical music and much more *Opera and Sovereignty* Martha Feldman, 2010-10-05 Performed throughout Europe during the 1700s Italian heroic opera or opera seria was the century's most significant musical art form profoundly engaging such figures as Handel Haydn and Mozart *Opera and Sovereignty* is the first book to address this genre as cultural history arguing that eighteenth century opera seria must be understood in light of the period's social and political upheavals Taking an anthropological approach to European music that's as bold as it is unusual Martha Feldman traces Italian opera's shift from a mythical assertion of sovereignty with its festive forms and rituals to a dramatic vehicle that increasingly questioned absolute ideals She situates these transformations against the backdrop of eighteenth century Italian culture to show how opera seria both reflected and affected the struggles of rulers to maintain sovereignty in the face of a growing public sphere In so doing Feldman explains why the form had such great international success and how audience experiences of the period differed from ours today Ambitiously interdisciplinary *Opera and Sovereignty* will appeal not only to scholars of music and anthropology but also to those interested in theater dance and the history of the Enlightenment *The Hallelujah Effect* Babette Babich, 2016-03-16 This book studies the working efficacy of Leonard Cohen's song Hallelujah in the context of today's network culture Especially as recorded on YouTube k d lang's interpretation's of Cohen's Hallelujah embody acoustically and visually viscerally what Nietzsche named the spirit of music Today the working of music is magnified and transformed by recording dynamics and mediated via Facebook exchanges blog postings and video sites Given the sexual religious core of Cohen's Hallelujah this study poses a phenomenological reading of the objectification of both men and women raising the question of desire including gender issues and both homosexual and heterosexual desire A review of critical thinking about musical performance as currency and consumed commodity takes up Adorno's reading of Benjamin's analysis of the work of art in the age of mechanical reproduction as applied to music radio sound and the persistent role of recording consciousness Ultimately the question of what Nietzsche called the becoming human of dissonance is explored in terms of both ancient tragedy and Beethoven's striking deployment of dissonance as Nietzsche analyses both as playing with suffering discontent and pain itself a playing for the sake not of language or sense but musically as joy *Music and the Performing Arts in the Anthropocene* François Ribac, Isabelle Moindrot, Nicolas Donin, 2025-08-08 *Music and the Performing Arts in the Anthropocene* offers a series of thought provoking chapters about music and the performing arts viewed from current Anthropocene aware perspectives From the use of gas water and air in 19th century stage practices to the ecology of musical instruments and sound reproduction technologies waste and carbon print in experimental music and theatrical production knowledge of precariousness and empowerment through music in a changing world each chapter aims at highlighting an

issue that has always been here but never looked at thoroughly due to the divides and hierarchies of the modern cosmogony Gathering 16 scholars from a variety of disciplinary backgrounds history of literature opera and theatre studies musicology sound studies sociology information science etc this volume reflects on the relationships between the performing arts music and environmental issues It also explores a number of tools for changes and sketches how we will understand the arts their history and their future beyond ecocriticism This book will be of great interest to students and scholars in the humanities and social sciences as well as a broader readership involved in art and environment policies **Fine Meshwork** Dan

O'Brien,2020-02-28 In a 1984 interview with longtime friend Edna O'Brien Philip Roth describes her writing as a piece of fine meshwork a net of perfectly observed sensuous details that enables you to contain all the longing and pain and remorse that surge through the fiction The phrase fine meshwork can apply not only to O'Brien's writing but also to the connective threads that bind her work to others including most illuminatingly Roth's Since the publication of their first controversial novels in the 1950s and 1960s Roth and O'Brien have always argued against the isolation of mind from body autobiography from fiction life from art and self from nation In *Fine Meshwork* Dan O'Brien investigates the shared concerns of these two authors now regarded as literary icons in their home countries He traces their fifty year literary friendship and the striking parallels in their books and reception bringing together what at first glance seem to be quite disparate milieus the largely feminist and Irish scholarship on O'Brien with Jewish and American perspectives on Roth In doing so and in considering them in a transnational context he argues that the intertwined nature of their writing symbolizes the far ranging symbiosis between Irish literature and its American particularly Jewish American counterpart **Representing the Passions** Richard Evan

Meyer,2003 Through an interlocking series of texts and images this work explores how extreme sensations such as wonder misery ecstasy and rage have been portrayed at different moments in Western culture Moving across multiple fields of creative endeavour and intellectual inquiry from classical artefacts to Chicano art political protest to operatic performance Rene Descartes's writings on the soul to the Internet's digitised flesh it reveals how the passions have elicited eluded and transformed the act of representation *A Marriage of Philosophy and Music* Erich Welling,2014-04 How to use philosophy and music to open your horizons and enjoy being yourself put theory to work and help you experience personal growth is discussed in *A Marriage of Philosophy and Music* It is all about after After having a liberal education you are comfortable in modern culture and after further education and becoming a specialist in some field you enjoy using your skills We learn the ideas and methods of many social cultures and our own chosen specialty but we often neglect the liberal art of disciplining and enjoying the ideas and methods of our own individuality This book offers a path toward the education of privacy with the key words being selection design and beauty The book relates five areas of general human interest spirituality philosophy science art and body awareness The interrelation is accomplished by using personal patterns of experience that are available from philosophy and music Because of the plurality of subject matters and methods used in philosophy and music their

patterns of discipline are comparable to self discipline A Marriage of Philosophy and Music attempts to create a path in this direction because besides the enjoyment of social culture and personal skills there is enjoyment in being yourself which is a neglected liberal art
