C. Ludington, 2016-01-12 A unique look at the meaning of the taste for wine in Britain from the establishment of a Commonwealth in 1649 to the Commercial Treaty between Britain and France in 1860 this book provides an extraordinary window into the politics and culture of England and Scotland just as they were becoming the powerful British state      The Beautiful, Novel, and Strange Ronald Paulson, 2019-12-01 Originally published in 1995 In *The Beautiful Novel and Strange* Ronald Paulson fills a lacuna in studies of aesthetics at its point of origin in England in the 1700s He shows how aesthetics took off not only from British empiricism but also from such forms of religious heterodoxy as deism The third earl of Shaftesbury the founder of aesthetics replaced the Christian God of rewards and punishments with beauty worship of God with a taste for a work of art William Hogarth reacting against Shaftesbury's disinterestedness replaced his Platonic abstractions with an aesthetics centered on the human body gendered female and based on an epistemology of curiosity pursuit and seduction Paulson shows Hogarth creating first in practice and then in theory a middle area between the Beautiful and the Sublime by adapting Joseph Addison's category in the *Spectator* of the Novel Uncommon and Strange Paulson retrieves an aesthetics that had strong support during the eighteenth century but has been obscured both by the more dominant academic discourse of Shaftesbury and later Sir Joshua Reynolds and by current trends in art and literary history Arguing that the two traditions comprised not only painterly but also literary theory and practice Paulson explores the innovations of Henry Fielding John Cleland Laurence Sterne and Oliver Goldsmith which followed and complemented the practice in the visual arts of Hogarth and his followers      Visualizing the Text Lauren Beck, Christina Ionescu, 2017-06-01 This volume presents in depth and contextualized analyses of a wealth of visual materials These documents provide viewers with a mesmerizing and informative glimpse into how the early modern world was interpreted by image makers and presented to viewers during a period that spans from manuscript culture to the age of caricature The premise of this collection responds to a fundamental question how are early modern texts objects and systems of knowledge imaged and consumed through bimodal hybrid or intermedial products that rely on both words and pictures to convey meaning The twelve contributors to this collection go beyond traditional lines of inquiry into word and image interaction to deconstruct visual dynamics and politics to show how images were shaped manipulated displayed and distributed to represent the

material world to propagate official and commercial messages to support religious practice and ideology or to embody relations of power These chapters are anchored in various theoretical and disciplinary points of departure such as the history of collections and collecting literary theory and criticism the histories of science art history and visual culture word and image studies as well as print culture and book illustration Authors draw upon a wide range of visual material hitherto insufficiently explored and placed in context in some cases hidden in museums and archives or previously assessed only from a disciplinary standpoint that favored either the image or the text but not both in relation to each other They include manuscript illuminations representing compilers and collections frontispieces and other accompanying plates published in catalogues and museographies astronomical diagrams mixed pictographic alphabetic accounting documents Spanish baroque paintings illustrative frontispieces or series inspired by or designed for single novels or anthologies anatomical drawings featured in encyclopedic publications visual patterns of volcanic formations engravings representing the New World that accompany non fictional travelogues commonplace books that interlace text and images and graphic satire Geographically the collection covers imperial centers Great Britain France the Netherlands and Spain as well as their colonial periphery New France Mexico Central America South America in particular Brazil parts of Africa and the island of Ceylon Emblematic and thought provoking these images are only fragments of the multifaceted and comprehensive visual mosaic created during the early modern period but their consideration has far reaching implications

**Representation, Heterodoxy, and Aesthetics** Ashley Marshall, 2014-12-23 The chapters constituting this book are different in subject and method striking testimony to the range of Paulson s interests and the versatility of his critical powers In his prolific career he has produced extensive analysis of art poetry fiction and aesthetics produced in England between 1650 and 1830 Paulson s unique contribution has to do with his understanding of seeing and reading as closely related enterprises and popular forms in art and literature as intimately connected connections illustrated by literary critics and art historians here Every essay shares some of the concerns and methods that characterize Paulson s wonderfully idiosyncratic thought except for the final essay an attempt systematically to analyze Paulson s critical principles and methods Recurrent themes are a concern with satire in the eighteenth century a connection between verbal and visual reading an insistence on the importance of individual artistic choices to the history of culture an attention to the aims and motives of individual makers of art and a sensitivity to the crucial links between high and low art This volume offers rich explorations of a range of subjects Swift s relationship to Congreve Zoffany s condemnation of Gillray and Hogarth and broader implications for the role of art in public discourse the presentation of mourning in the work of the Welsh artist and writer Edward Pugh G M Woodward s Coffee House Characters representing a turn from satire on morals towards satire on manners Adam Smith s evolving aesthetic program Samuel Richardson s notions of social reading The discussions represent a variety of exemplifications of the Paulsonesque showing a concern with satiric representation in mixed media with different forms of heterodoxy and iconoclasm and with the values of

producers of popular and polite culture in this period
