From Interwar Pluralism To Postwar Neoclassicism

Rachel Sandford

From Interwar Pluralism To Postwar Neoclassicism:

From Interwar Pluralism to Postwar Neoclassicism Mary S. Morgan, Malcolm Rutherford, 1998 From Interwar Pluralism to Postwar Neoclassicism seeks to change assumptions about American economics during the transformative period between the world wars The twelve essays by respected economists and historians collected here take a precise look at the mechanisms that brought about the shift from pluralism to neoclassicism in American economics They discuss such topics as the demise of the Social Gospel Movement the role of general education and graduate study in Chicago economics the Sherman Antitrust Act the transformation of economics through a survey of journal articles and changes in American monetary thought Contributors Roger E Backhouse M rcia L Balisciano Bradley W Bateman Jeff Biddle Ross B Emmett Crauford D W Goodwin D Wade Hands Anne Mayhew Steven G Medema Perry Mehrling Philip Mirowski Mary S Morgan Malcolm Rutherford E Roy Weintraub *How Economics Became a Mathematical Science* E. Roy Weintraub, 2002-05-28

Discusses the history of 20th century economics and how it has become dominated by mathematical approaches **The Institutional Movement in American Economics, 1918-1947** Malcolm Rutherford, 2011-02-21 This book provides a detailed picture of the institutionalist movement in American economics concentrating on the period between the two World Wars The discussion brings a new emphasis on the leading role of Walton Hamilton in the formation of institutionalism on the special importance of the ideals of science and social control embodied within the movement on the large and close network of individuals involved on the educational programs and research organizations created by institutionalists and on the significant place of the movement within the mainstream of interwar American economics In these ways the book focuses on the group most closely involved in the active promotion of the movement on how they themselves constructed it on its original intellectual appeal and promise and on its institutional supports and sources of funding **The Socioeconomics of Economics** Arne Heise, 2020-03 The economic discipline has always been an object of investigation But unlike in former times when methodological and epistemological developments had been the object of historians of economic thought recently the focus of inquiry shifted towards the constitution organisation and performativity of the economic discipline It is the intention of the book to contribute to a better understanding of the working and failures of the market for economic ideas

Pluralist Economics Edward Fullbrook, 2013-07-18 This book is an authoritative and accessible guide to the pluralist movement threatening to revolutionise mainstream economics Leading figures in the field explain why pluralism is a required virtue in economics how it came to be blocked and what it means for the way we think about research and teach economics The first part of the book looks at how neoclassical economics gained its stranglehold particularly in the United States and how the social and intellectual underpinnings of economics have enabled it to maintain this in the face of inconsistent evidence from the real world This is then contrasted with different approaches to pluralism Pluralist Economics then goes on to address the array of arguments for establishing pluralism showing how economics came to function as a concealed

ideology and not as a science and how value free economics is an illusion Finally it addresses the practical problems presented by this different way of doing economics

The Oxford Handbook of Professional Economic Ethics George DeMartino, Deirdre N. McCloskey, 2016 This volume brings together leading figures in economics professional ethics and other relevant fields to explore questions related to the nature of ethical economic practice and the adoption and content of professional economic ethics It explores current thinking that has emerged in these areas while widening substantially the terrain of inquiry into economic ethics There has never been a volume that poses so directly and intensively the question of the need for and content of professional ethics for economics The Handbook incorporates the work of a wide array of scholars including economists from various theoretical traditions economists from academia economists from other fields where practicing economists have a large social impact and professional ethicists from fields that have addressed the nature of professionalism and its implications for ethical practice

A History of Irish Economic Thought Thomas Boylan, Renee Prendergast, John Turner, 2013-03 For a country that can boast a distinguished tradition of political economy from Sir William Petty through Swift Berkeley Hutcheson Burke and Cantillon through to that of Longfield Cairnes Bastable Edgeworth Geary and Gorman it is surprising that no systematic study of Irish political economy has been undertaken In this book the contributors redress this glaring omission in the history of political economy for the first time providing an overview of developments in Irish political economy from the seventeenth to the twentieth century Logistically this is achieved through the provision of individual contributions from a group of recognized experts both Irish and international who address the contribution of major historical figures in Irish political economy along the analysis of major thematic issues schools of thought and major policy debates within the Irish context over this extended period

A Companion to the History of Economic Thought Warren J. Samuels, Jeff E. Biddle, John B. Davis, 2008-04-15 Assembling contributions from top thinkers in the field this companion offers a comprehensive and sophisticated exploration of the history of economic thought The volume has a threefold focus the history of economic thought the history of economics as a discipline and the historiography of economic thought Provides sophisticated introductions to a vast array of topics Focuses on a unique range of topics including the history of economic thought the history of the discipline of economics and the historiography of economic thought

The Theory of the Individual in Economics John B Davis, 2003-03-20 The concept of the individual and his her motivations is a bedrock of philosophy All strands of thought at heart come down to a particular theory of the individual Economics though is guilty of taking this hugely important concept without questioning how we theorise it This superb book remedies this oversight The new approach put forward by Da

Modern Applications of Austrian Thought Jürgen G. Backhaus, 2007-05-07 Austrian economics is often criticized as being hostile to empirical research and seen purely as an ideology In contrast the purpose of this book is to show that Austrian economics provides an interesting approach to most conceivable subjects in economics Edited by Jürgen G Backhaus this comprehensive volume includes Austrian analysis of

health economics labour economics taxation business cycle theory property rights Contributors include Roger Koppl Bart Nooteboom Larry Moss Dick Wagner and Gerrit Meijer and this significant book will prove invaluable to students of economics and will make interesting reading for applied economists in any area of application *Critical Theories of Crisis in Europe* Poul F. Kjaer, Niklas Olsen, 2016-07-18 This book provides truly interdisciplinary analysis bridging the gap between humanities legal and social science approaches to the ongoing crisis in Europe **American Economists and the Greek Economy, 1947-62** Michalis Psalidopoulos, 2025-07-01 This book explores the role of American economists in Greece between 1947 and 1962 With a focus on economic thought and political relations it examines the Greek economy following the Second World War and highlights the economic ideas and policies that brought Greece out of an economic depression Collaboration between Greek American and British policymakers economists politicians and administrators in providing humanitarian relief economic rehabilitation and monetary order is highlighted By examining the specific economic policies and how they were articulated a nuanced view of policy making is presented that provides insight into policies that were shaped by both New Deal idealism and post war realism This book offers unique insights into the post war reconstruction of Greece and the exchange of ideas between American and Greek economists It will be of interest to students and researchers working within economic policy issues international political economy and the history of economic thought **Principles and Pluralist Approaches in Teaching Economics** Samuel Decker, Wolfram Elsner, Svenja Flechtner, 2019-06-28 This volume is a state of the art compilation of diverse and innovative perspectives principles and a number of practiced approaches of fields courses and methods of pluralist economics teaching It fosters constructive controversy aiming to incite authors and commentators to engage in fruitful debate The complex economic problems of the 21st century require a pluralist real world oriented and innovative discipline of economics capable of addressing and teaching those complex issues to students from diverse perspectives This volume addresses a number of key questions Which models could be taught outside the equilibrium and optimality paradigm Which methods could help to improve our understanding of the complex globalized economy How can qualitative and quantitative methods be combined in a fruitful way to analyze complex economic problems How can the academic isolation of mainstream economics that has developed over many decades be overcome despite its attempted transdisciplinary imperialism What role should knowledge from other disciplines play in teaching economics and what is the relevance of transdisciplinarity Through examining these issues the editors and authors have created a pluralist but cohesive book on teaching economics in the contemporary classroom drawing from ideas and examples from around the world Principles and Pluralist Approaches in Teaching Economics is a unique collection of diverse perspectives on the methodology and applications of pluralist economics teaching It will be a great resource for those teaching economics at various levels as well as researchers and intermediate and advanced students searching for pluralism in economics *Dictionary of Contemporary Chinese Economics* Hong Yinxing, 2025-05-26 This Dictionary provides the

theoretical summary and conceptual framework around the milestones obtained through Chinese reform and development and highlights the research achievements of Chinese economics over the past 40 years It also presents Chinese economics to the world featuring the Belt and Road Initiative and the Chinese theory and Chinese system to be known and shared internationally with a Chinese intellectual foundation It sets out to frame the theoretical achievements of extraction and summary of practice experience from Chinese reform and development The choice of entries in the Dictionary seeks to embody the very Chinese characteristics of economics and the combination of theory and practice is illuminated Furthermore the dictionary explores examples of scientific achievements that traditional economics has brought forward and how they fit and unify within both a Chinese as well as an international context

The Handbook of Pluralist Economics Education Jack Reardon, 2009-09-10 This book provides a blueprint for those interested in teaching from a pluralist perspective regardless of ideology It provides educators policy makers and students with helpful suggestions for implementing pluralism into pedagogy by offering detailed suggestions and guidelines for incorporating pluralist approaches tailored to specific individual courses The Handbook for Pluralist Economics Education specifically provides practical suggestions for professors willing to implement pluralism in the classroom and increases the pedagogical influence of pluralist economics while reducing the hegemony of monism at any level

A Companion to the History of American Science Georgina M. Montgomery, Mark A. Largent, 2019-09-23 A Companion to the History of American Science offers a collection of essays that give an authoritative overview of the most recent scholarship on the history of American science Covers topics including astronomy agriculture chemistry eugenics Big Science military technology and more Features contributions by the most accomplished scholars in the field of science history Covers pivotal events in U S history that shaped the development of science and science policy such as WWII the Cold War and the Women s Rights movement

A History of Heterodox Economics Frederic Lee, 2009-06-02 Economics is a contested academic discipline between neoclassical economics and a collection of alternative approaches such as Marxism radical economics Institutional economics Post Keynesian economics and others that can collectively be called heterodox economics Because of the dominance of neoclassical economics the existence of the alternative approaches is generally not known This book is concerned with the community history of heterodox economics seen primarily through the eyes of Marxian radical economics and Post Keynesian economics Throughout the 20th century neoclassical economists in conjunction with state and university power have attacked heterodox economists and tried to cleanse them from the academy Professor Lee his groundbreaking new title discusses issues including the contested landscape of American economics in the 1970s the emergence and establishment of Post Keynesian economics in the US and the development of heterodox economics in Britain from 1970 to 1996

The History of the Social Sciences since 1945 Roger E. Backhouse, Philippe Fontaine, 2010-05-24 This compact volume covers the main developments in the social sciences since the Second World War Chapters on economics human geography political science

psychology social anthropology and sociology will interest anyone wanting short accessible histories of those disciplines all written by experts in the relevant field they will also make it easy for readers to make comparisons between disciplines A final chapter proposes a blueprint for a history of the social sciences as a whole Whereas most of the existing literature considers the social sciences in isolation from one other this volume shows that they have much in common for example they have responded to common problems using overlapping methods and cross disciplinary activities have been widespread

Microfoundations Reconsidered Pedro Garcia Duarte, Gilberto Tadeu Lima, 2012-01-01 Most macroeconomists agree that we live in the age of microfoundations The recent worldwide financial crisis may have emboldened critics of this microfoundational orthodoxy but it remains the dominant view that macroeconomic models must go beyond supply and demand functions to the level of individual decision making taking into account the general dynamic environment where agents live *Microfoundations Reconsidered* seeks to reassess how the relationship of micro and macroeconomics evolved over time The highly regarded contributors to the book argue that the standard narrative of microfoundations is likely to be unreliable They therefore re examine the history of the relationship of microeconomics and macroeconomics starting from their emergence as self consciously distinct fields within economics in the early 1930s They seek to go beyond the conventional history that is often told and written by practicing economists From different perspectives they challenge the association of microfoundations with Robert Lucas and rational expectations and offer both a more complete and a deeper reading of the relationship between micro and macroeconomics *Microfoundations Reconsidered* is a valuable addition to the macroeconomic research literature It is ideally suited to students scholars researchers and practitioners with an interest in macro and microeconomics and the history of economics

The Political Economy of Digital Monopolies Paško Bilić, Toni Prug, Mislav Žitko, 2021-07-16 As outrage over the socially damaging practices of technology companies intensifies this book asks what it actually means to hold a monopoly in the tech world and offers an in depth analysis of how these corporate giants are produced financialized and regulated

Enjoying the Track of Phrase: An Emotional Symphony within **From Interwar Pluralism To Postwar Neoclassicism**

In some sort of eaten by displays and the ceaseless chatter of immediate connection, the melodic beauty and emotional symphony produced by the prepared term often disappear in to the back ground, eclipsed by the constant sound and disturbances that permeate our lives. Nevertheless, situated within the pages of **From Interwar Pluralism To Postwar Neoclassicism** a charming fictional value brimming with organic emotions, lies an immersive symphony waiting to be embraced. Constructed by an elegant composer of language, that fascinating masterpiece conducts readers on an emotional trip, well unraveling the concealed melodies and profound affect resonating within each carefully crafted phrase. Within the depths of the moving analysis, we will investigate the book is key harmonies, analyze its enthralling writing type, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
