Common Land in Britain Angus J. L. Winchester, 2022 The first authoritative survey of the history of common land in Great Britain from the medieval period to present day More than a million hectares of Britain has the status of common land most of it consisting of semi natural environments of mountain moorland wetland or heath Formerly much more extensive common land was and in many places remains an integral part of the pastoral economy Even where it is no longer used by farmers it plays an increasingly important role in modern life as recreational space and for its value for nature conservation This book provides for the first time an authoritative survey of the history of common land across all three nations of Great Britain from medieval times to the present day It charts how commons have been viewed and valued across the centuries how they have been used and how their vegetation has changed highlighting parallels and differences between the histories of common land in England Scotland and Wales It traces the distinctive legal status of common land and the management regimes which regulated the exercise of common rights considers the role of commons as spaces for communal gatherings and as a resource for the poor charts the loss of common land but also its persistence during the era of enclosure in the century 1760 1860 and explores the changing conceptions of the value and right use of commons since the nineteenth century and the impact this has had on their ecological character Eight case studies of individual commons illustrate the richness of common landscapes and their history at local level They include crofters common grazings in Sutherland mountain commons in the Lake District and Snowdonia lowland commons in Co Durham Herefordshire and the New Forest turbary allotments in Lincolnshire and the urban commons of Wimbledon and Putney Heath

A Political Biography of Samuel Johnson Nicholas Hudson, 2015-10-06 Johnson rose from obscure origins to become a major literary figure of the eighteenth century Through a detailed survey of his major works and political journalism Hudson constructs a complex picture of Johnson as a moralist forced to accept the realistic nature of politics during an era of revolutionary transition

Death of a Chief Douglas Watt, 2013-09-15 Mystery surrounds the murder of Sir Lachlan MacLean an impoverished Highland laird With bad debts family quarrels and shady associates Sir Lachlan had many enemies But while motives are not hard to find evidence is another thing entirely Lawyer John MacKenzie and scribe Davie Scougall turn investigator to try to track down the murderer

The Highland Clearances Eric Richards, 2012-11-05 The Highland Clearances stands out as one of the most emotive chapters in the history of Scotland This book traces the origins of the Clearances from the eighteenth century to their culmination in the crofting legislation of the 1880s In considering both the terrible suffering of the Highland people as well as the stark choices that faced landowners during a period of rapid economic change it shows how the Clearances were one of many attempted solutions to the problem of how to maintain a population on marginal and infertile land and were in fact part of a wider European movement of rural depopulation In drawing attention away from the

mythology to the hard facts of what actually happened The Highland Clearances offers a balanced analysis of events which created a terrible scar on the Highland and Gaelic imagination

Medieval and Early Modern Representations of Authority in Scotland and the British Isles Kate Buchanan, Lucinda H.S. Dean, 2016-05-20 What use is it to be given authority over men and lands if others do not know about it Furthermore what use is that authority if those who know about it do not respect it or recognise its jurisdiction And what strategies and language written and spoken visual and auditory material cultural and political did those in authority throughout the medieval and early modern era use to project and make known their power These questions have been crucial since regulations for governance entered society and are found at the core of this volume In order to address these issues from an historical perspective this collection of essays considers representations of authority made by a cross section of society within the British Isles Arranged in thematic sections the 14 essays in the collection bridge the divide between medieval and early modern to build up understanding of the developments and continuities that can be followed across the centuries in question Whether crown or noble government or church burgh or merchant all desired power and influence but their means of representing authority were very different These essays encompass a myriad of methods demonstrating power and disseminating the image of authority including material culture art literature architecture and landscapes saintly cults speeches and propaganda martial posturing and strategic alliances music liturgy and ceremonial display Thus this interdisciplinary collection illuminates the variable forms in which authority was presented by key individuals and institutions in Scotland and the British Isles By placing these within the context of the European powers with whom they interacted this volume also underlines the unique relationships developed between the people and those who exercised authority over them

White People, Indians, and Highlanders Colin G. Calloway, 2008-07-03 A comparative approach to the American Indians and Scottish Highlanders this book examines the experiences of clans and tribal societies which underwent parallel experiences on the peripheries of Britain's empire in Britain the United States and Canada

Plantation and Civility in the North Atlantic World Aonghas MacCoinnich, 2015-09-17 The settlement of the Hebrides is usually considered in terms of the state formation agenda Yet the area was subject to successive attempts at plantation largely overlooked in historical narrative Aonghas MacCoinnich's study *Plantation and Civility* explores these plantations against the background of a Lowland Highland cultural divide and competition over resources The Macleod of Lewis clan uncivil Gaelic Highlanders were dispossessed by the Lowland civil Fife Adventurers 1598 1609 Despite the collapse of this Lowland Plantation however the recourse to the Mackenzie clan often thought a failure of policy was instead a pragmatic response to an intractable problem The Mackenzies also pursued the civility agenda treating with Dutch partners and fending off their English rivals in order to develop their plantation

The Wild Irish Girl Claire Connolly, 2016-06-16 This novel intervenes in many of the literary and philosophical debates of the late eighteenth century and early nineteenth century forging a connection between the eighteenth century discourse of

sentiment and the emergent nineteenth century concept of the nation Lady Morgan's Introductory Letters are included

Finding the Family in Medieval and Early Modern Scotland Elizabeth Ewan, Janay Nugent, 2017-03-02 In this interdisciplinary collaboration an international group of scholars have come together to suggest new directions for the study of the family in Scotland circa 1300-1750 Contributors apply tools from across a range of disciplines including art history literature music gender studies anthropology history and religious studies to assess creatively the broad range of sources which inform our understanding of the pre-modern Scottish family A central purpose of this volume is to encourage further studies in this area by highlighting the types of sources available as well as actively engaging in broader historiographical debates to demonstrate how important and effective family studies are to advancing our understanding of the past Articles in the first section demonstrate the richness and variety of sources that exist for studies of the Scottish family These essays clearly highlight the uniqueness feasibility and value of family studies for pre-industrial Scotland The second and third sections expand upon the arguments made in part one to demonstrate the importance of family studies for engaging in broader historiographical issues The focus of section two is internal to the family These articles assess specific family roles and how they interact with broader social forces issues In the final section the authors explore issues of kinship ties an issue particularly associated with popular images of Scotland to examine how family networks are used as a vehicle for social organization

The Lordship of the Isles, 2014-07-31 In The Lordship of the Isles twelve specialists offer new insights on the rise and fall of the MacDonalds of Islay and the greatest Gaelic lordship of later medieval Scotland Portrayed most often as either the independently minded last great patrons of Scottish Gaelic culture or as dangerous rivals to the Stewart kings for mastery of Scotland this collection navigates through such opposed perspectives to re-examine the politics culture society and connections of Highland and Hebridean Scotland from the fourteenth to sixteenth centuries It delivers a compelling account of a land and people caught literally and figuratively between two worlds those of the Atlantic and mainland Scotland and of Gaelic and Anglophone culture Contributors are David Caldwell Sonja Cameron Alastair Campbell Alison Cathcart Colin Martin Tom McNeill Lachlan Nicholson Richard Oram Michael Penman Alasdair Ross Geoffrey Stell and Sarah Thomas

Political Culture, the State, and the Problem of Religious War in Britain and Ireland, 1578-1625 R. Malcolm Smuts, 2023 In the period 1575-1625 civic peace in England Scotland and Ireland was persistently threatened by various kinds of religiously inspired violence involving conspiracies rebellions and foreign invasions This study seeks to understand how this was addressed in local communities between the three nations and more broadly across Europe

The Challenge of Epistemology Christina Toren, João de Pina-Cabral, 2011-10-01 Epistemology poses particular problems for anthropologists whose task it is to understand manifold ways of being human Through their work anthropologists often encounter people whose ideas concerning the nature and foundations of knowledge are at odds with their own Going right to the heart of anthropological theory and method this volume discusses issues that have vexed practicing anthropologists for a long time

The authors are by no means in agreement with one another as to where the answers might lie. Some are primarily concerned with the clarity and theoretical utility of analytical categories across disciplines; others are more inclined to push ethnographic analysis to its limits in an effort to demonstrate what kind of sense it can make. All are aware of the much wanted differences that good ethnography can make in explaining the human sciences and philosophy. The contributors show a continued commitment to ethnography as a profoundly radical intellectual endeavor that goes to the very roots of inquiry into what it is to be human and to anthropology as a comparative project that should be central to any attempt to understand who we are.

A Dictionary of Environmental History Ian Whyte, 2013-05-21. Increasing awareness of the extent and cause of environmental problems has fuelled the emergence of a new and timely discipline: environmental history. An exciting blend of geography, history, archaeology, anthropology, landscape, environment and science, it seeks to reveal how human activity has affected the environment in the past and how we in turn have been affected by that environment. How did people use and transform their environment? What problems of pollution and resource depletion occurred? What has been the impact of industrialisation and urbanisation? How have people's perceptions of nature and the environment changed over time? Environmental historians are revealing how and why our environment changed in the past; they are providing key insights into the mechanisms that influence environmental change today and are helping to make informed decisions on crucial environmental concerns such as deforestation, desertification, pollution, global warming and climate change. Professor Whyte's A Dictionary of Environmental History provides in a single volume a comprehensive reference work covering the past 12,000 years of the Earth's environmental history. An introduction to the discipline is followed by almost 1,000 entries covering key terminology, events, places, dates, topics as well as the major personalities in the history of the discipline. Entries range from shorter factual accounts to substantial mini-essays on major topics and issues. Fully cross-referenced and with an extensive bibliography, this pioneering work provides an authoritative yet accessible resource that will form essential reading for academics, practitioners and students of environmental history and related disciplines.

Caritas Katie Barclay, 2021-01-28. Caritas, a form of grace that turned our love for our neighbour into a spiritual practice, was expected of all early modern Christians and corresponded with a set of ethical rules for living that displayed one's love in the everyday. Caritas was not just a willingness to behave morally to keep the peace and to uphold social order; however, but was expected to be felt as a strong passion, like that of a parent to a child. *Caritas: Neighbourly Love and the Early Modern Self* explores the importance of caritas to early modern communities, introducing the concept of the emotional ethic to explain how neighbourly love became not only a code for moral living but a part of felt experience. As an emotional ethic, caritas was an embodied norm where physical feeling and bodily practices guided right action and was practiced in the choices and actions of everyday life. Using a case study of the Scottish lower orders, this book highlights how caritas shaped relationships between men and women, families and the broader community. Focusing on marriage, childhood and youth, sinful sex, privacy and secrecy and hospitality

towards the itinerant poor Caritas provides a rich analysis of the emotional lives of the poor and the embodied moral framework that guided their behaviour Charting the period 1660 to 1830 it highlights how caritas evolved in response to the growing significance of romantic love as well as new ideas of social relation between men such as fraternity and benevolence

The Art of Political Control in China Daniel C. Mattingly, 2020 Civil society groups can strengthen an autocratic state's coercive capacity helping to suppress dissent and implement far reaching policies **Women in Early Modern Britain,**

1450-1640 Christine Peters, 2017-03-09 Although in its infancy the history of women in Wales and Scotland before and during the Reformation is now thriving A longer tradition of historical studies has shed light on many areas of women's experience in England Drawing on this historiography Christine Peters examines the significance of contrasting social economic and religious conditions in shaping the lives of women in Britain Gender assumptions were broadly similar in England Wales and Scotland but female experience varied widely *Women in Early Modern Britain 1450 1640* explores how this was influenced by various factors including changes in clanship and inheritance the employment of single women the punishment of pregnant brides and scolds the introduction of Protestantism and the fusion of fairy beliefs with ideas of demonological witchcraft Peters text is the first comparative survey and analysis of the diversity of women's lives in Britain during the early modern period *Life Between the Tides* Adam Nicolson, 2025-08-22 Adam Nicolson explores the marine

life inhabiting seashore rockpools with a scientist's curiosity and a poet's wonder in this beautifully illustrated book The sea is not made of water Creatures are its genes Look down as you crouch over the shallows and you will find a periwinkle or a prawn a claw displaying crab or a cluster of anemones ready to meet you No need for binoculars or special stalking skills go to the rocks and the living will say hello Inside each rock pool tucked into one of the infinite crevices of the tidal coastline lies a rippling silent unknowable universe Below the stillness of the surface course different currents of endless motion the ebb and flow of the tide the steady forward propulsion of the passage of time and the tiny lifetimes of the rock pool's creatures all of which coalesce into the grand narrative of evolution In *Life Between the Tides* Adam Nicolson investigates one of the most revelatory habitats on earth Under his microscope we see a prawn's head become a medieval helmet and a group of winkles transform into a Dickensian social scene with mollusks munching on Stilton and glancing at their pocket watches Or rather is a winkle more like Achilles an ancient hero throwing himself toward death for the sake of glory For Nicolson who writes with scientific rigor and a poet's sense of wonder *The American Scholar* the world of the rock pools is infinite and as intricate as our own As Nicolson journeys between the tides both in the pools he builds along the coast of Scotland and through the timeline of scientific discovery he is accompanied by great thinkers no one can escape the pull of the sea We meet Virginia Woolf and her *Waves* a young T S Eliot peering into his own rock pool in Massachusetts even Nicolson's father in law a classical scholar who would hunt for amethysts along the shoreline his mind on Heraclitus and the other philosophers of ancient Greece And of course scientists populate the pages not only their discoveries but also their doubts and errors their

moments of quiet observation and their thrilling realizations Everything is within the rock pools where you can look beyond your own reflection and find the miraculous an inch beneath your nose The soul wants to be wet Heraclitus said in Ephesus twenty five hundred years ago This marvelous book demonstrates why it is so Includes Color and Black and White Photographs

The Wild Black Region David Taylor, 2016-02-01 This book tells the fascinating story of Badenoch a forgotten region in accounts of Scottish history Situated in the heart of the Highlands and with its own distinct historic and geographic identity Badenoch was in the throes of dramatic change in the post Culloden decades This ground breaking study reveals some radical differences from trends across the rest of the Highlands Foremost was the role of the indigenous entrepreneurial tacksmen in driving the rapidly growing commercial economy as cattle graziers drovers and agricultural improvers inevitably provoking confrontation with the absentee and ostentatious Dukes of Gordon Meanwhile the common people still operated within a subsistence farming economy heavily dependent on a surprisingly sophisticated use of their mountain environment Though suffering great hardship they too were quick to exploit any potential commercial opportunities Economic forces social ambition and post Culloden legislation created intolerable pressures within the old clan hierarchy as Duke tacksmen and erstwhile clansmen tried to forge their individual and often irreconcilable destinies in a rapidly changing world In doing so all were increasingly drawn into the wider and often lucrative dimensions of British state and empire

Scottish Society, 1707-1830 Christopher A. Whatley, 2000 This book challenges conventional wisdom and provides new insights into Scottish social and economic history Christopher A Whatley argues that the Union of 1707 was vital for Scottish success but in ways which have hitherto been overlooked He proposes that the central place of Jacobitism in the historiography of the period should be revised Comprehensive in its coverage the book is based not only on an exhaustive reading of secondary material but also incorporates a wealth of new evidence from previously little used or unused primary sources
