From Conquest To Struggle Jesus Of Nazareth In Latin America:

From Conquest to Struggle David B. Batstone, 1991-01-01 This book goes to the very heart of the passionate debate over the true character of Christian faith and practice The advance of liberation theology in the Latin American church has caused international reverberations within both the religious and political worlds The Vatican was moved to denounce it as heretical and the Reagan Bush administration has deemed it a significant threat to the stability of the region Here Batstone evaluates the writings of liberation theologians as they consider the central figure of Christian faith Jesus of Nazareth and asks whether a message of liberation for the poor and oppressed actually springs from the life and teachings of Jesus or is merely a religious projection of activists bent on radical social transformation The judgment given to that issue will weigh heavily in the debate which currently rages in religious communities and seminaries over the political role and responsibility of the church Batstone s work links these discussions to the concrete lives of the Latin American people and in that sense goes beneath the text and examines the subtext of religious reflection Chapters present events and stories that originate in the daily realities of contemporary Latin America and then consider what connection these experiences have to the story of Jesus of Nazareth

From conquest to struggle David B. Batstone, 1989 *The Cross of Christ in African American Christian Religious Experience* Demetrius K. Williams, 2023-10-03 In *The Cross of Christ in African American Christian Religious Experience* Piety Politics and Protest Demetrius K Williams examines and explores the ideational importance and rhetorical function of cross language and terminology in Black religious experience through an ideological lens Williams argues that for the first time in Christian history the European nation of Portugal under the guidance of Prince Henry used the theology of the cross to justify and sustain an exclusive trade of Sub Saharan African peoples Claiming that Jesus died on the cross only to save lost souls provided a convincing rational for Henry s exploratory

voyages of discovery to West African to exclusively enslave Black bodies With the confirmation of Catholic Popes and the competition of other European nations this same rationale would inspire empire building colonization and slave trading justified on their newly constructed ideological narrative of compassionate evangelism to save lost souls Over time with massive conversions to the faith of their enslavers Black people s Christian religious experiences would articulate a response to the world that held them in thrall That response would be articulated most consistently and effectively through their understanding of the cross of Christ Williams affirms Howard Thurman s claim that by some amazing but vastly creative spiritual insight the slave undertook the redemption of a religion that the master had profaned in his midst **The**

Cambridge Companion to Jesus Markus Bockmuehl, 2001-11-08 This Companion takes as its starting point the realization that Jesus of Nazareth cannot be studied purely as a subject of ancient history a man like any other man History literature theology and the dynamic of a living worldwide religious reality all appropriately impinge on the study of Jesus The two parts of the book roughly correspond to the interdependent tasks of historical description and critical and theological reflection It incorporates the most up to date historical work on Jesus the Jew with the bigger issues of critical method the story of Christian faith and study and Jesus in a global church and in the encounter with Judaism and Islam Written by seventeen leading international scholars the book encourages students of the historical Jesus to discover the vital contribution of theology and students of doctrine to engage the Christ of faith as Jesus the first century Jew Biography of a Mexican

Baker, Joel B. Green, 2011-08-02 Since its publication in 2000

Recovering the Scandal of the Cross has provoked thought among evangelicals about the nature of the atonement and how it should be expressed in today s various global contexts In this second edition Green and Baker have clarified and enlarged the text to ensure its ongoing critical relevance Liberation Theologies, Postmodernity and the Americas David

Batstone, Eduardo Mendieta, Lois Ann Lorentzen, Dwight N. Hopkins, 2013-09-13 Simultaneously arising out of such diverse contexts as the black community in the United States grassroots religious communities in Latin America and feminist circles in North Atlantic countries theologies of liberation have emerged as a resource and inspiration for people seeking social and political freedom Over the last three decades liberation theology has irrevocably altered religious thinking and practice throughout the Americas Liberation Theologies Postmodernity and the Americas provides a meaningful and spirited debate on vital interpretive issues in religion philosophy and ethics The renowned group of scholars explore liberation theologies uses of discourses of emancipation revolution and utopia in contrast with postmodernism s suspicion of grand narratives while assessing what the postmodernism liberation debate means for strategies of social and political transformation Guided by the experiences of those at the margins of social power liberation theologies demystify the eurocentric myths of

Vadi,2020-02-24 This book highlights the cogency and urgency of the protection of indigenous peoples and discusses crucial aspects of the international legal theory and practice relating to their rights These rights are not established by states rather they are inherent to indigenous peoples because of their human dignity historical continuity cultural distinctiveness and connection to the lands where they have lived from time immemorial In the past decades a new awareness of the importance of indigenous rights has emerged at the international level UN organs have adopted specific international law instruments that protect indigenous peoples Nonetheless concerns persist because of continued widespread breaches of such rights Stemming from a number of seminars organised at the Law Department of the University of Roma Tre the volume includes contributions by distinguished scholars and practitioners It is divided into three parts Part I introduces the main themes and challenges to be addressed considering the debate on self determination of indigenous peoples and the theoretical origins of indigenous sovereignty Parts II and III explore the protection of indigenous peoples afforded under the international law rules on human rights and investments respectively Not only do the contributors to this book critically assess the current international legal framework but they also suggest ways and methods to utilize such legal instruments towards the protection promotion and fulfilment of indigenous peoples rights to contribute to the maintenance of peace and the pursuit of justice in international relations DOI 10 13134 978 88 32136 92 0 **Indigenous Peoples in International Law** S.

James Anaya,2004 In this thoroughly revised and updated edition of the first book length treatment of the subject S James Anaya incorporates references to all the latest treaties and recent developments in the international law of indigenous peoples Anaya demonstrates that while historical trends in international law largely facilitated colonization of indigenous peoples and their lands modern international law s human rights program has been modestly responsive to indigenous peoples aspirations to survive as distinct communities in control of their own destinies This book provides a theoretically grounded and practically oriented synthesis of the historical contemporary and emerging international law related to indigenous peoples It will be of great interest to scholars and lawyers in international law and human rights as well as to those interested in the dynamics of indigenous and ethnic identity **Resurrection and Discipleship** Thorwald

Lorenzen,2004-01-30 The authority of the Bible in the Gospel narratives and Paul s impassioned epistles revolve around the factual basis and foundational nature of Christ s resurrection for Christianity The question is how can the resurrection best be understood In Resurrection and Discipleship Thorwald Lorenzen provides a balanced and nuanced investigation of this question The New Cold War? Mark Juergensmeyer,2023-04-28 Will the religious confrontations with secular authorities

around the world lead to a new Cold War Mark Juergensmeyer paints a provocative picture of the new religious revolutionaries altering the political landscape in the Middle East South Asia Central Asia and Eastern Europe Impassioned Muslim leaders in Egypt Palestine and Algeria political rabbis in Israel militant Sikhs in India and triumphant Catholic clergy in Eastern Europe are all players in Juergensmeyer's study of the explosive growth of religious movements that decisively reject Western ideas of secular nationalism Juergensmeyer revises our notions of religious revolutions Instead of viewing religious nationalists as wild eyed anti American fanatics he reveals them as modern activists pursuing a legitimate form of politics He explores the positive role religion can play in the political life of modern nations even while acknowledging some religious nationalists proclivity to violence and disregard of Western notions of human rights Finally he situates the growth of religious nationalism in the context of the political malaise of the modern West Noting that the synthesis of traditional religion and secular nationalism yields a religious version of the modern nation state Juergensmeyer claims that such a political entity could conceivably embrace democratic values and human rights Will the religious confrontations with secular authorities around the world lead to a new Cold War Mark Juergensmeyer paints a provocative picture of the new religious revolutionaries altering the political landscape in the Middle East South Asia Centr **The Open Secret** Alister E.

Kirylo,2023-01-26 James D Kirylo gives a personal and reflective account of what it means to be a Catholic teacher drawing on the rich history of the Church and its inclusive nature through ecumenical interfaith and interreligious dialogue along with the Church's social teachings and its link to liberation theology and a critical pedagogy in the light of faith Recognizing teaching as a sacred vocation Kirylo covers how faith should inform the practical matters of teaching and how these intersect with broader debates outside the classroom including the COVID 19 pandemic gun control the sanctity of life and climate change The Catholic Teacher Teaching for Social Justice with Faith Hope and Love is a book that underscores the dialectical interweaving of faith and action in the effort to foster a more just loving and right world

International Law as Social Construct Carlo Focarelli,2012-05-24 The book distils and articulates international law as a

social construct It does so by analysing its social foundations essence and roots in practical and socially workable as opposed to pure reason In addition to well known doctrines of jurisprudence and international law it draws upon psycho analytic insights into the origins and nature of law as well as philosophical social constructivism The work suggests that seeing law as a social construct is crucial to our understanding of international law and to the struggle to create better working rules The book re conceptualizes both past and new doctrines of international law as constructs namely as strategies of concomitantly de mythologizing and re mythologizing international law Key areas of international law including subjects sources hierarchy values and remedies are shown to be part of this process The social impact on international law of transnational actors and stakeholders normative fragmentation global justice legitimacy of both rules and players dynamics and hierarchization of norms compliance and implementation in municipal law is also extensively investigated Five basic values of the international community namely security humanity wealth environment and knowledge are explored by stressing their inter and intra tensions Finally the analysis is extended to the role that international courts play in the prosecution of heads of state and other transnational players who violate international law

On Cultural Rights: The Equality of Nations and the Minority Legal Tradition William Kurt Barth, 2008-08-31 This work addresses the question how has the evolution of a legal regime within the United Nations and regional organisations influenced state behaviour regarding recognition of minority groups The author assesses the implications of this regime for political theorists account of multiculturalism This research bridges a gap between normative questions in political theory on multiculturalism and the international law on minorities It does so by means of case studies of legal challenges involving two groups namely the Aboriginal peoples of Canada and the Roma peoples in Europe The author concludes by discussing the normative implications of the minority regime for helping to resolve conflicts that arise out of state treatment of minority groups

ideological criticism poststructuralism and psychoanalytic criticism hold promise for the continued transformation of these studies in the future Focusing on readings from both the Hebrew Bible and the New Testament this volume illuminates the current multidisciplinary debates emerging from postmodernism by exposing the still highly contested epistemological political and ethical positions in the field of biblical studies Marx and We Sun Zhengyu,2024-08-01 Marxist ideology is the only fully scientific ideology the only one able to guide mankind toward the settlement of fundamental social problems and to point out the royal road for the proletariat to take in its march toward socialism and communism Without Marxism modern people cannot establish true social ideals nor can they engage in the rational pursuit of values Without Marxism modern people cannot choose the correct path of development nor can they build up new forms of civilizations Without Marxism modern people would never base their commitments to schedule the consensus building effort and support the consensus building process on any irrefutably and sufficiently sound theoretical foundations Religions/Globalizations Dwight N.
