The Spanish Atlantic World in the Eighteenth Century Allan J. Kuethe, Kenneth J. Andrien, 2014-05-12 This volume elucidates Bourbon colonial policy with emphasis on Madrid's efforts to reform and modernize its American holdings Set in an Atlantic world context the book highlights the interplay between Spain and America as the Spanish empire struggled for survival amid the fierce international competition that dominated the eighteenth century The authors use extensive research in the repositories of Spain and America as well as innovative consultation of the French Foreign Affairs archive to bring into focus the poorly understood reformist efforts of the early Bourbons which laid the foundation for the better known agenda of Charles III As the book unfolds the narrative puts flesh on the men and women who for better or worse influenced colonial governance It is the story of power ambition and idealism at the highest levels

Enlightenment Volume 2 Peter Gay, 2013-06-26 The Science of Freedom completes Peter Gay's brilliant reinterpretation begun in *The Enlightenment The Rise of Modern Paganism* In the present book he describes the philosophes program and their views of society His masterful appraisal opens a new range of insights into the Enlightenment's critical method and its humane and libertarian vision

Promoting Peace with Information Daniel Lindley, 2021-02-09 It is normally assumed that international security regimes such as the United Nations can reduce the risk of war by increasing transparency among adversarial nations The more adversaries understand each other's intentions and capabilities the thinking goes the less likely they are to be led to war by miscalculations and unwarranted fears But how is transparency provided how does it actually work and how effective is it in preserving or restoring peace In *Promoting Peace with Information* Dan Lindley provides the first scholarly answer to these important questions Lindley rigorously examines a wide range of cases including U N peacekeeping operations in Cyprus the Golan Heights Namibia and Cambodia arms control agreements including the Nuclear Non Proliferation Treaty and the historical example of the Concert of Europe which sought to keep the peace following the defeat of Napoleon in 1815 Making nuanced arguments based on extensive use of primary

sources interviews and field research Lindley shows when transparency succeeds in promoting peace and when it fails His analysis reveals for example that it is surprisingly hard for U N buffer zone monitors to increase transparency yet U N nation building missions have creatively used transparency to refute harmful rumors and foster democracy For scholars Promoting Peace with Information is a major advance into the relatively uncharted intersection of institutionalism and security studies For policymakers its findings will lead to wiser peacekeeping public diplomacy and nation building
