Transmaterialities Temporalities and Media investigates El Greco's pictorial art as foundational to the globalising trends manifested in the visual culture of early modernity. It also exposes the figurative semantic and allegorical senses that El Greco created to challenge an Italian Renaissance centered discourse. Even though he was guided by the unprecedented burgeoning of devotional art in the post Tridentine decades and by the expressive possibilities of earlier religious artifacts especially those inherited from the apostolic past, the author demonstrates that El Greco forged his own independent trajectory. While his paintings have been studied in relation to the Italian and Spanish school traditions, his pictorial art in a global Mediterranean context continues to receive scant attention. Taking a global perspective as its focus, the book sheds new light on El Greco's highly original contribution to early Mediterranean and multi-institutional configurations of the Christian faith in Byzantium, Venice, Rome, Toledo, and Madrid. El Greco Nikolaos Panagiotakēs, 2009-01-01. This fundamental contribution to El Greco scholarship until now only available in Greek provides a thoroughly substantiated assessment of the evidence regarding the formative years in the life of one of the greatest artists of all time. Dealing with his birthplace, family name, religious affiliation and apprenticeship as a painter, Nikolaos Panagiotakes concludes that El Greco was already an established professional master painter by the time he left Crete for Italy in 1567 at the age of twenty-six.

A prophet of modernism. Strong colors and sinuous figures. El Greco 1541-1614 was born Domínikos Theotokópoulos in Crete in 1541. He arrived in Venice in 1566 where his work was greatly influenced by Titian and Tintoretto. However, when he made an offer to the Pope to paint over Michelangelo's Last Judgement in the spirit of the Counter-Reformation, he incurred the wrath of Roman artists to such an extent that a career in Italy was no longer conceivable. El Greco settled in Spain in Toledo where he received numerous commissions from the Church and the nobility. Between 1586 and 1588 he created one of the great works of European painting, the monumental Burial of the Count of Orgaz for a chapel altar in the parish church of Santo Tomé in Toledo. El Greco confined his palette to a small number of

very expressively used shades with an evident preference for pale purple pink and yellow and greyish tones He located the iconographical events in a space that he dramatized by means of light and atmospheric phenomena His oeuvre had a wide ranging impact on art up to and including modern 20th century painting Paul C zanne and later Picasso and the Expressionists regarded El Greco as a prophet of modernism About the Series Each book in TASCHEN s Basic Art series features a detailed chronological summary of the life and oeuvre of the artist covering his or her cultural and historical importance a concise biography approximately 100 illustrations with explanatory captions *The Complete Works of Ernest Hemingway.
