definitive resource the catalogue provides title year medium and dimensions along with location origin exhibition history and a bibliography of the works This first volume collects Ruscha's earliest works from his apprenticeship years as an art student along with sketch ideas drafts of book covers studies for oil paintings and drawings of words often executed in such unusual materials as gunpowder vegetable juices petroleum jelly tobacco stain and sometimes even in graphite and pastels All of these works propose Ruscha as a profoundly premeditative artist for whom sketches are an essential first step on the way to a well executed final product They also expose Ruscha as an artist whose finished drawings always invoke their conceptual dimension particularly so when the materials are unusual paradoxically over their texture thus opening a breach between signifier and the word as icon As noted critic and art historian Dave Hickey observes The mystery of Ed Ruscha's drawings begins with drawing itself with its peculiar status in the history of Western art where it has always occupied an equivocal position between the realms of objects and ideas
