European Middle Ages Mark Chinca, Christopher Young, 2022-08-25 How did new literatures begin in the Middle Ages and what does it mean to ask about such beginnings These are the questions this volume pursues across the regions and languages of medieval Europe from Iceland Scandinavia and Iberia through Irish Welsh English French Dutch Occitan German Italian Czech and Croatian to Medieval Greek and the East Slavonic of early Rus Focusing on vernacular scripted cultures and their complicated relationships with the established literary cultures of Latin Greek and Church Slavonic the volume s contributors describe the processes of emergence consolidation and institutionalization that make it possible to speak of a literary tradition in any given language Moreover by concentrating on beginnings the volume avoids the pitfalls of viewing earlier phenomena through the lens of later national developments the result is a heightened sense of the historical contingency of categories of language literature and territory in the space we call Europe Sodomy, Masculinity and Law in Medieval Literature William E. Burgwinkle, 2004-07-08 William Burgwinkle surveys poetry and letters histories and literary fiction including Grail romances to offer a historical survey of attitudes towards same sex love during the centuries that gave us the Plantagenet court of Henry II and Eleanor of Aquitaine courtly love and Arthurian lore Burgwinkle illustrates how sodomy becomes a problematic feature of narratives of romance and knighthood Most texts of the period denounce sodomy and use accusations of sodomitical practice as a way of maintaining a sacrificial climate in which masculine identity is set in opposition to the stigmatised other for example the foreign the feminine and the heretical What emerges from these readings however is that even the most homophobic masculinist and normative texts of the period demonstrate an inability or unwillingness to separate the sodomitical from the orthodox These blurred boundaries allow readers to glimpse alternative even homoerotic readings **Imagining Medieval English** Tim William Machan, 2016-01-25 Imagining Medieval English is concerned with how we think about language and simply through the process of thinking about it give substance to an array of phenomena including grammar usage variation change regional dialects sociolects registers periodization and even language itself Leading scholars in the field explore conventional conceptualizations of medieval English and consider possible alternatives and their implications for cultural as well as linguistic history. They explore not only the language s structural traits but also the sociolinquistic and theoretical expectations that frame them and make them real Spanning the period from 500 to 1500 and drawing on a wide range of examples the chapters discuss topics such as medieval multilingualism colloquial medieval English standard and regional varieties and the post medieval reception of Old and Middle English Together they argue that what medieval English is depends in part on who s looking at it how when and why
