Educated Executive:

Heidegger and Executive Education Toby Thompson, 2017-09-13 Global corporations and the senior executives who oversee them have been subject to great criticism in recent times not only do such corporations hold extreme concentrations of wealth but they continue to sanction staggering pay inequalities between the haves and the have nots At the same time university based business schools are conducting programmes of executive education seemingly customised to sanction these same inequalities Heidegger and Executive Education is a piece of critical philosophy that has been written from within the business school in order to examine how this sheltered process of educating in role corporate executives operates Thompson claims that executive education is based on a very simple premise that an executive executes an order and that executive education is an amelioration of that process Thompson argues that the easiest way to conceive of executive education is to treat order and execution as cognates as a single conceptual entity Thus he asks if educating executives in line with the order execution cognate involves swapping the boardroom for the classroom and in keeping with the critical tag shouldn't executive education be about questioning not only the execution but also the dominant order The author uses time as the philosophical method by which one can undo the order execution cognate question the sanctity of the cognate and thereby halt the seemingly inexorable temporal sequence from order through to those orders becoming executed This book uses Martin Heidegger's exotic philosophy of time in order to mount a philosophical challenge to the temporal sequentiality of executive education It will therefore be of great interest to academics researchers and postgraduates who are interested in Heidegger the philosophy of education and executive education It should also be essential reading for those involved in training developing and educating corporate executives

Organizational Innovation Howard B. Kaplan, Marshall Scott Poole, 2012-12-06 Innovation in the private and public sectors has been the subject of a great deal of study since it is central to the economic growth and effective governance of most organizations Determining the changes needed in an organization is less difficult than determining how to make the changes work This volume is the result of a three year study that investigated the factors associated with the implementation of program changes in a nonprofit community welfare agency The results of the research showed that a greater understanding of the implementation process was needed both by the workers and administrators In addition factors other than need were determined to influence what action is taken to implement the recommendations This book takes the results of the study and demonstrates how implementation can be successful in an organization This work includes factors such as administration behavior and perception its effect on board members mobility orientation job satisfaction and the prediction of program change and will be of interest to management in both the private and non profit sector as well as students of organizational sociology and psychology

I know the plans I have for you declares the LORD plans to prosper you and not to harm you plans to give you hope and a future A friend of mine gave me this quote along with other bible verses to encourage me after an unexpected job loss At the time I thought I was a person of faith Little did I know that it was a key moment that contributed to a 7 year journey that resulted in a renaissance of my faith a second baptism and a lifestyle that has been more fulfilling than I could ever imagine My career had taken hold of me to the point that it was more important to me than all of the wonderful things in life that were around me but I did not see My value my self worth my confidence was determined by my success and accomplishment almost in entirety On May 29 2015 that changed I was a successful driven executive who was told my employer no longer needed my services It was one of those seminal moments in life when you either step up and move forward or step back and become a victim In my journey to move ahead I encountered several people who put me on the path to lasting success by encouraging me to take a hard look at myself and my career choices through the lens of faith I am telling my story to share what I learned the mistakes I made and the ultimate success I achieved after a series of adverse events in my professional career forced me to take a hard look at my life and my career In these pages I offer concrete advice on how to network what your resume should include and how to position yourself to leverage resources long before you need to We ll take a look at what a complete LinkedIn profile looks like what a professional resume should include the kind of research you should be doing before you agree to interview with a company and more I ll also explore a 90 day action plan for what you should be doing after you secure a new position Whether it s effectively communicating with your boss engaging your new team or prioritizing company needs these are the pieces that you ll need to put together to ensure that the job you just got is one that you re prepared to excel in Perhaps most importantly I also share my personal journey toward becoming the best Husband Father Friend Neighbor Community and Business Leader I can be with God s help While my story is told from the perspective of a white Christian male it is told based on universal elements that apply to people of any race gender or faith From meeting with like minded professionals to being open to what your faith is guiding you to do to filling your spare time with recommended books on growing as a leader who is grounded in faith there are networks of support available that extend far beyond the professional world I explain how I tapped into them on my own journey and offer suggestions on how you might begin to reach out to find them in your own life As I explain in my book I ask God to help me find the right opportunity that can permit me to make the most contribution and build success for customers suppliers employees investors and security for my family Then I get to work for God helps those who help themselves Whether you are just beginning your career looking to correct your course or embarking on a completely new chapter this book and your faith can guide you to greater heights
