Educating in the Living Word Matías Preiswerk, 1987      **Education That Is Christian** Lois E. Lebar, 1998-08 Essential reading for anyone involved in Christian education this classic bestseller outlines a strategic vision for education that is designed to produce Christ like people      *Philosophy of Education in the Anthropocene* Renaud Hétier, Nathanaël Wallenhorst, 2025-03-24 This book develops a philosophy of education for the Anthropocene proposing that we think about education in the light of contemporary bioclimatic challenges Education is seen as the political means of choice for containing the runaway Earth system change and ensuring the sustainability of human life in society In this book H tier and Wallenhorst continue their work on the biogeophysical and socio political analysis of the Anthropocene here tracing the path toward the re founding of a political education to prepare students to address the greatest challenge of our time the gradual disappearance of the bioclimatic conditions necessary for our very existence      *Dialogic: Education for the Internet Age* Rupert Wegerif, 2013-01-04 Dialogic Education for the Internet Age argues that despite rapid advances in communications technology most teaching still relies on traditional approaches to education built upon the logic of print and dependent on the notion that there is a single true representation of reality In practice the use of the Internet disrupts this traditional logic of education by offering an experience of knowledge as participatory and multiple This new logic of education is dialogic and characterises education as learning to learn think and thrive in the context of working with multiple perspectives and ultimate uncertainty The book builds upon the simple contrast between observing dialogue from an outside point of view and participating in a dialogue from the inside before pinpointing an essential feature of dialogic the gap or difference between voices in dialogue which is understood as an irreducible source of meaning Each chapter of the book applies this dialogic thinking to a specific challenge facing education re thinking the challenge and revealing a new theory of education Areas covered in the book include dialogical learning and cognition dialogical learning and emotional intelligence educational technology dialogic spaces and consciousness global dialogue and global citizenship dialogic theories of science and maths education The challenge identified in Wegerif s text is the growing need to develop a new understanding of education that holds the potential to transform educational policy and pedagogy in order to meet the realities of the digital age Dialogic Education for the Internet Age draws upon the latest research in dialogic theory creativity and technology and is essential reading for advanced students and researchers in educational psychology technology and policy      Adult and Continuing Education: Liberal adult education (part 1) Peter Jarvis, Colin Griffin, 2003 Depicting the ways that adult education has evolved as society has changed and how it has been incorporated into lifelong learning this is a truly unique set that puts a stamp on an exciting field and important far reaching issues These five volumes represent a great advance to scholars as this is the first comprehensive overview of the field The set draws on books journals reports and historical papers to map the vast field of education for adults The writings included in the set have influenced the development of both the practice and the

,2004 **The Quest for a New Education** Merethe Roos,2024-02-19 This book thematizes the tension between education politics and religion in Norway after the Second World War with an emphasis on the years between 1945 and 1970 and throws a new light on Norwegian school and education in the post war period The Norwegian educational landscape in the years after the Second World War must be seen against the development of the welfare state and it appears as a part of the social democracy project typical for Norway at that time The Labour Party which held a prominent position in the educational landscape in the post war decades is normally regarded to have been an important driving force behind secularization of schools in Norway not least because the total number of weekly lessons in religious education gradually was reduced This book problematizes this thesis and enlightens how important politicians and policymakers within the Labour Party defended religious education A central point is that this defense must be seen within the frames of a liberally oriented protestant theology Thus the study highlights the diversity of ideas in Norwegian politics in the post war period and demonstrates how important impulses in Norwegian politics can be viewed against a wider international background *International Journal of Religious Education* ,1926 Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986 ,1990

Hill,2012-11 Schweitzer s goal in this book is to explore what postmodernity actually means for theology and how theology and the church may respond to its challenges He focuses on the life cycle as it is changing with the advent of postmodernity looking sequentially at segments of the life cycle using different lenses modernity postmodernity and responses from church and theology Schweitzer concludes with a theology of the life cycle      *Emancipated Education* Azhar Ibrahim,2022-12-06 The obsession with world rankings and vocational training has turned universities into factories for the production of students and publications Teaching plays second fiddle to research output normally circulated within a small circle of experts to be validated or condemned to the abyss leading to the justifiable charge that universities are ivory towers In *Emancipated Education* Dr Azhar Ibrahim s call to reclaim the space of what he calls the educative front as a site for emancipation is timely and urgent Channelling the thoughts of giants like Paulo Freire and N F S Grundtvig the book articulates the higher purpose of higher education It serves to re humanise the human process of learning that we may have harmed Dr Nazry Bahrawi Literary and cultural critic Co founder of the Bras Basah Open School for Theory and Philosophy Dr Azhar s book is a detour around the current climate of global education which tends to celebrate rankings at the expense of empowerment and humanisation He clearly shows that education should be a combative front against any establishment without having to succumb to dogmatic power through a combination of reason ethics conscience and spirituality For him education is not just a ladder for immediate gains but is also supposed to be a part of supra structure to ensure social justice *Emancipated*
