Law and Opinion in Twentieth-Century Britain and Ireland W. Morgan, S. Livingstone, 2003-05-02 Law and Opinion in Twentieth Century Britain and Ireland covers four main themes Law and the State Culture and Identity Public Morality and the Citizen The Death of the English Constitution each theme being analyzed through two essays authored by leading British and Irish academics The book provides a substantial and readable analysis of the relationship between law and opinion in Britain and Ireland with a special focus on the question of culture identity and the state Twentieth-Century Mass Society in Britain and the Netherlands Bob Moore, Henk van Nierop, 2006-10-01 From the beginning of the nineteenth century Western Europe witnessed the emergence of a mass society Grand social processes such as urbanization industrialization and democratization blurred the previous sharp distinctions that had divided society This massive transformation is central to our understanding of modern society Comparing the British and Dutch experience of mass society in the twentieth century this book considers five major areas politics welfare media leisure and youth culture In each section two well known specialists one from each country examine the conditions behind the rise of a mass society and show how these conditions were distinctively British or Dutch Drawing on history cultural studies and sociology the authors bring new insight into the development of modern European society **Education Policies in the 21st Century** Birol Akgün, Yusuf Alpaydın, 2022-05-31 This open access book explores the agenda of education policies in the 21st century In the first part of the book education is handled from a historical and political framework and the effects of the change of states and policies on education are examined In the second part the effects of changes in the economy on education policies and economies demands from educational institutions are examined In the last section current policies in the international education sector which is growing day by day as a result of increasing globalization and internationalization are examined and future trends are tried to be revealed In articles written by academics from different universities all over the world the

topics are presented in a comparative perspective The British Economy in the Twentieth Century Alan Booth, 2017-03-14 It is commonplace to assume that the twentieth century British economy has failed falling from the world s richest industrial country in 1900 to one of the poorest nations of Western Europe in 2000 Manufacturing is inevitably the centre of this failure British industrial managers cannot organise the proverbial knees up in a brewery British workers are idle and greedy its financial system is uniquely geared to the short term interests of the City rather than of manufacturing its economic policies are perverse for industry and its culture is fundamentally anti industrial. There is a grain of truth in each of these statements but only a grain In this book Alan Booth notes that Britain's living standards have definitely been overtaken but evidence that Britain has fallen continuously further and further behindits major competitors is thin indeed Although British manufacturing has been much criticised it has performed comparatively better than the service sector The British Economy in the Twentieth Century combines narrative with a conceptual and analytic approach to review British economic performance during the twentieth century in a controlled comparative framework It looks at key themes including economic growth and welfare the working of the labour market and the performance of entrepreneurs and managers Alan Booth argues that a careful balanced assessment which must embrace the whole century rather than simply the post war years does not support the loud and persistent case for systematic failure in British management labour institutions culture and economic policy Relative decline has been much more modest patchy and inevitable than commonly believed British Froebelian Women from the Mid-Nineteenth to the Twenty-First Century Amy Palmer, Jane Read, 2020-07-09 British Froebelian Women from the Mid Nineteenth to the Twenty First Century presents a series of critical case studies of individual women who worked and advocated for the cause of Froebelian and progressive pedagogy in Britain from the mid nineteenth century until the present day The book presents a compelling picture of how women have contributed in powerful ways to educational life and child centred practices The book examines the beliefs and values of its subjects offering crucial insights into how these women forged their professional identities and practice as new thinking about education and childhood emerged and considers the differing forms of inspiration they drew from their connections with the Froebelian community This book will be of great interest for postgraduate students and academics in the fields of Women's Studies History of Education Early Childhood Education and Early Childhood Studies Health and Society in Twentieth Century Britain Helen Jones, 2014-01-14 Few things tell us more of a nation s general well being than the development of the life expectancy of its citizens the rising standards of health that they come to demand and how evenly that improvement is shared throughout society Helen Jones examines the record of twentieth century Britain in these respects She has much heartening progress to record yet stark inequalities remain Her book is thus both a review of and contribution to the current debates over gender class and ethnic inequalities in standards of health in Britain today Educational Reform Legislation in the 20th Century Gary McCulloch, 2018-08-29 Much has been written on Education Acts yet we have abused and neglected them The history of educational legislation has been written off as Acts and facts and the conventional approach to writing about them has been concerned with politics and especially with the men responsible for them On the centenary of the 1918 Education Act and Education Scotland Act and the thirtieth anniversary of the 1988 Education Reform Act we can rightly compare them alongside the other two agenda setting master Acts of the 20th century those of 1902 and 1944 These latter Acts themselves landmarks of legislation have each attracted several significant articles that have been published in the British Journal of Educational Studies Between them these provide a detailed commentary on the key legislation that has framed the development of UK education that is also open to critique and challenge The anniversaries of these key Education Acts are also starting points for broader discussion of continuities changes and contestation in legislation involving the regime of power control and regulation of education This can also include consideration of the international context and the relationship between educational and other social legislation and reform
