Education As A Force For Social Change:

Education as a Force for Social Change Rudolf Steiner, 1997-07 These dazzling radical lectures were given one month before the opening of the first Waldorf School following two years of intense preoccupation with the social situation in Germany as World War I ended and society sought to rebuild itself Well aware of the dangerous tendencies present in modern culture that undermine a true social life such as psychic torpor and boredom universal mechanization and a growing cynicism Steiner recognized that any solution must address not only economic and legal issues but also that of a free spiritual life Steiner also saw the need to properly nurture in children the virtues of imitation reverence and love at the appropriate stages of development in order to create mature adults who are inwardly prepared to fulfill the demands of a truly healthy society adults who are able to assume the responsibilities of freedom equality and brotherhood Relating these themes to an understanding of the human as a threefold being of thought feeling and volition and against the background of historical forces at work in human consciousness Steiner lays the ground for a profound revolution in the ways we think about education Also included here are three lectures on the social basis of education a lecture to public school teachers and a lecture to the workers of the Waldorf Astoria Cigarette Company after which they asked him to form a school for their children German sources Die Erziehungsfrage als soziale Frage GA 296 lectures 4 5 and 6 the Volkspädagogik lectures in Geisteswissenschaftliche Behandlung sozialer und pädagogischer Fragen GA 192 lectures 2 and 11 Neugestaltung des sozialen Organismus GA 330 331 **Social Change with Respect to Culture and Original Nature** William F.

disconnection from the changing society learning cannot truly happen in school and the reform will fail Zhang suggests a philosophy of education that highlights the cultivation of students unique but inclusive individuality so that students learn how to nurture their own mind in this profoundly changing society rather than becoming empty and lost The discussion of this proposed question is inspired by the thoughts of the American pragmatist John Dewey and Chinese Confucian scholar Liang Shuming It is not the author s intention to have a pure philosophical discussion but rather to refer to their philosophies to help answer the practical question of cultivating individuality in an educational setting during this period of China s modern transition **Education as the Driving Force of Equity for the Marginalized** Boivin, Jacquelynne
