Education In Japan Educational Documents Of Occupied Japan:

Education in Japan Mitsuo Kodama, 1983 **Educational Documents of Occupied Japan** Supreme Commander for the Allied Powers. Civil Information and Education Section, 1983 **Education in Japan** Edward R. Beauchamp, Richard Rubinger, 2017-12-12 This book first published in 1989 includes essays on a number of the most important topics in Japanese education as well as the highly selected and annotated bibliographies It is the editors belief that understanding educational matters requires insight into the historical context and have therefore placed contemporary Japanese educational matters in historical perspective **Japanese Studies from Pre-History to 1990** Richard Perren, 1992 *The Political Re-Education of Germany and her Allies* Nicholas Pronay, Keith Wilson, 2019-06-26 Originally published in 1985 this book provides an important insight into the principal aspects of the history of the policy and practice of political re education from its origins to 1951 Political re education was the British alternative to the ideas put forward by the USA and the USSR in the common search for a post war policy which would permanently prevent the resurgence of Germany for a third time as a hostile military power It was adopted as Allied policy and remains one of the boldest and most imaginative policies in history for securing lasting peace This book discusses the question of the place of this policy in the preservation of peace and the integration of Germany and Japan into the community of their historical enemies **Collected Writings of Gordon Daniels** Gordon Daniels, 2004-03-01 Originally a student of Meiji Japan Gordon Daniels is widely known for his work on the Pacific War and the Occupation of Japan with particular regard to the world of communications in film and propaganda as well as Japanese sport He has also been closely involved with the post war era of international relations and Japan as well as studies in Japanese history and historiography In the 1980s he made significant contributions in reporting on the scope and development of Japanese Studies in Britain His most recent work has been as joint editor and contributor with Chushichi Tsuzuki of *Social and Cultural Perspectives* the fifth of the five volume series on the history of Anglo Japanese Relations Palgrave 2002 Education and Training in Japan Thomas P. Rohlen, Christopher Bjork, 1998 This collection written by Japanese and foreign scholars represents an inclusive cross section of the most important work in key areas of this field Topics include the impact of Japanese education and training on Japan s economy and culture the Japanese influence on the East Asian approach to education in comparison with the educational systems of Korea Taiwan Singapore and Hong Kong Japan s promotion of learning organizations and Knowledge workers for the Information Age Educational Reform in Postwar Japan David Maurice Berman, 1989 Japan's Internationalization Policy in Education Rie Atagi, 1996 Exploring Cross-national Attraction in Education Jeremy Rappleye, 2007-05-14 This book attempts to theorize cross national attraction by comparing American and Chinese attraction to Japanese education The study takes a long historical view spanning roughly from the Meiji Restoration 1868 to today to determine when and why Japanese education has become attractive to these two countries It uses a combination of official reports and scholarly analysis as sources to evaluate attraction The study

is underpinned by recently developed models of educational transfer and it attempts to use a comparison of American and Chinese attraction to Japanese education as a means to further develop emerging theoretical understandings of cross national attraction in education The research begins with the more familiar case of American attraction to Japanese education finding that the American case shows a long period of historical neglect punctuated by a short burst of feverish attraction to Japanese education in the 1980s The reasons for this attraction when it finally did occur seemed to be partially driven by Japanese economic competitiveness and partially driven by domestic political agendas within the United States The domestic impulses for attraction are given particular attention in the analysis because few studies have detailed this aspect of attraction The less familiar Chinese case shows a much longer educational relationship with not one but two distinguishable periods of attraction to Japan The first period roughly occurring at the turn of the 20th century was so feverish that it led to wholesale borrowing of many aspects of the Japanese education system A second period of Chinese attraction arguably began in the early 1990s continuing through today The research investigates the reasons for this attraction again revealing a combination of external and internal developments that catalyze attraction Perhaps because it is partially obscured by historical legacies and current political trends little research has attempted to investigate Chinese attraction to Japanese education and thus the current attraction of Chinese observers to Japanese education is of particular note By comparing these two stories of attraction and neglect it becomes apparent that cross national attraction is as much a product of internal forces within these two countries as it is a result of changes in Japanese education The study finds that cross national attraction is therefore best understood as a changing and malleable idea that arises as much from internal as external stimuli This makes it vital to pay closer attention to the role of human actors in creating cross national attraction in education Further comparison of the two cases suggests the need to reorganize the existing theoretical models of cross national attraction In the final chapter an attempt at reorganizing the models is attempted in the form of a Contextual Map of Cross National Attraction

Military Occupation as Pedagogy Yuka Moriguchi Tsuchiya, 2004 *Japanese Education since 1945* Edward R. Beauchamp, James M. Vardaman Jr, 2015-05-11 A study of postwar education in Japan which is intended to shed light on the development of Japanese educational policy Major educational documents are included some taken from records of the American occupation forces and others being original translations from Japanese sources

Japan Occupied Ruriko Kumano, 2023-01-28 This book documents Japan's psychological deterioration caused by its defeat in August 1945 Also Japan's traumatic transformation from authoritarianism to democracy is detailed The study exposes an ideological war between the Soviet Union and the USA within American occupied Japan which triggered violent polarization among the Japanese Under General MacArthur's tutorage the defeated Japanese were expected to become a peace loving people but the Cold War derailed Japan's progress toward freedom and democracy The Red Purge instituted by MacArthur's Headquarters GHQ from 1949 to 1950 triggered the devastating side effects on Japan's academic freedom and freedom of speech Stanford

University Professor Dr Walter C Eells 1886 1962 served at the GHQ as an influential education adviser and became the most vocal advocate of the Red Purge Japanese Marxist historians have constructed the popular postwar narrative of the Red Purge blaming the GHQ for every failure The vast archival materials including the GHQ papers Eells papers and Japanese language documents revealed that the Red Purge was a serious propaganda battle between the Americans and the Soviets in a war torn Japan This propaganda war engendered the violently polarized political climate in which the conservative Japanese government behaved according to the dictates of US Cold War policy By revealing feverish tensions within the GHQ regarding communist influences in Japanese universities this study sheds bright new light on the Red Purge and its lasting impact on Japan's political future *English Language Teaching during Japan's Post-war Occupation* Mayumi Ohara, John Buchanan, 2018-06-27 In 1945 Japan had to adjust very rapidly to sudden defeat to the arrival of the American Occupation and to the encounter with the English language together with a different outlook on many aspects of society and government This scholarly book is based on in depth interviews with people now aged who were school students at the time of the Occupation and who experienced first hand this immense cultural change The book considers the nature of the changing outlook including democratization the new role for the Japanese Emperor and all this represented for the place of tradition in Japanese life and the growing emphasis on individualism away from collectivism It discusses the changing system of education itself including new structures and new textbooks and relates the feelings of the participants as they came to terms with defeat and the language and culture of the former enemy Overall the book provides a fascinating insight into a key period of Japanese history *Japan and Germany Under the U.S. Occupation* Masako Shibata, 2008-01-01 Japan and Germany under the U S Occupation explores the reconstruction of education in both countries after World War II In Japan large scale reforms were undertaken swiftly after the nation's surrender whereas in the U S Zone of Germany most of the traditional aspects of education were maintained Masako Shibata argues that differences in the role of the university and in the pattern of elite formation traceable back to the beginnings of Meiji Japan and the Kaiserreich created the conditions for the diverging approaches of the Japanese and German leaders to the adoption of foreign educational patterns during the Occupation *Learning To Be Modern* Byron Marshall, 2018-03-08 Emphasizing the political discourse and conflict that have surrounded Japanese education this book focuses on the three main issues of central versus local control elitism versus equality and nationalism versus universalism *History of Education: Studies of education systems* Roy Lowe, 2000 *Japanese Education since 1945* Edward R. Beauchamp, James M. Vardaman Jr, 2015-05-11 A study of postwar education in Japan which is intended to shed light on the development of Japanese educational policy Major educational documents are included some taken from records of the American occupation forces and others being original translations from Japanese sources **Educational Reform in Occupied Japan** Joseph C. Trainor, 1983 **Moral Education in Japan** Marie Roesgaard, 2016-10-04 Japan's Fundamental Law on Education was revised in 2006 and new curriculum guidelines along

with new proposals for strengthening the position of moral education reflect the increased political focus particularly by the two Abe administrations. Changes include increased emphasis on patriotism on respect for life and the environment on individual responsibility on respecting differences and other countries and on a general strengthening of moral values. Using theories of globalization, cosmopolitanism, and universal human values, it is the intention by using an Asian example to illustrate and elaborate upon existing discourses within theories of globalization and cosmopolitanism as well as in education and values and citizenship studies. Chapters include: Revision of the fundamental law on Education in 2006 and beyond; Official and semi-official bids for contents of moral education; Moral education in practice; Risk, globalization, and meaning in Japanese Moral Education.
