Educational Therapy Volume :

The Clinical Practice of Educational Therapy Maxine Ficksman, Jane Utley Adelizzi, 2013-05-13 The Clinical Practice of Educational Therapy is the first book to provide a comprehensive review of the interdisciplinary profession and practice of educational therapy as it exists today. It describes the scope and practice of educational therapy from its European roots to its growing presence in the United States and provides case studies to illustrate the work of educational therapists. Key Features: Interdisciplinary Perspective. Other books focus on either educational or therapeutic interventions but rarely discuss the blend and synergy of disciplines that are the hallmark of the profession. Illustrative Cases. The text draws heavily on case studies as a means of understanding the practice of educational therapy, especially the relationship between therapist and client. Expertise. Chapter authors are either experienced educational therapists or allied professionals who have made scholarly contributions to the profession, such as Dorothy Ungerleider, Patricia Waters, Roslyn Arnold, and George McCloskey. In addition to educational therapy students and practitioners, this book is appropriate for those working in related fields including special education, school psychology, school counseling, and social work in educational settings.

Educational Therapy Jerome Hellmuth, 1966 **Best Practices in Educational Therapy** Ann Parkinson Kaganoff, 2019-01-18 Best Practices in Educational Therapy provides actionable strategies and solutions for novice and veteran educational therapists. Given the diverse backgrounds of educational therapists and the varieties of specialization and client types, there is no single approach for all therapists and all clients. This book is built on a foundation of individualized, intensive intervention, offering generalized principles of application across many contexts. Featuring practices informed by documented experiences of educational therapists, as well as research in memory and cognition, attention, speech, language, specific syndromes, and the role of emotion in learning, this well-rounded guide will serve educational therapists at all stages in their career.

Assessment in Educational Therapy Marion Marshall, 2019-12-20 Assessment in Educational Therapy offers essential grounding skills and ethical approaches for understanding and conducting assessments in the context of educational therapy. Six clear, straightforward chapters guide graduate students and trainees of the field to use scores, observation, and hypothesis testing to create strengths-based assessments and intervention strategies that can be delivered orally or in written reports. The book is the first to describe and critique all the standardized assessment instruments that qualified educational therapists can use to measure skills in reading, written expression, mathematics, and processing. Real-world case studies, practical takeaways of key concepts, resources for self-study, reflective questions, and other readers' tools enliven this comprehensive yet accessible reference. *Educational Therapy* Jerome Hellmuth, 1966 **The Oxford Handbook of Deaf Studies, Language, and Education, Volume 1, Second Edition** Marc Marschark, Patricia Elizabeth Spencer, 2011-01-11 In this updated edition of the landmark original volume, a range of international experts present a comprehensive overview of the field of deaf studies, language, and education.
