Introduction Somebody asked me once why I did not become a doctor and then join the Defense Services as a Doctor like the majority of my family members Here was I with an easily obtained Degree in Natural Sciences and all my knowledge garnered during a peripatetic childhood and youth about natural remedies ancient medicine and natural healing processes The medical or the engineering fields were the only options left for good students during the time I was at University And I give them my stock answer which I consider logical and sensible If I become a doctor I will be giving my patients chemical based medicine and I will just be curing their bodies On the other hand if I stick to my habit of learning more about natural remedies and ancient remedies I will be curing their bodies as well as fighting the disease from the root onwards My grandmother had learned about natural remedies and beauty recipes from her grandmother and this wisdom was passed down the ages from mother to daughter For millenniums every mother in every ancient civilization taught her daughters the rudimentary art of survival and staying beautiful and youthful with fruits vegetables spices and herbs This is now considered to be alternative medicine by doctors in the West But this was the medicine with which people survived through centuries and stayed healthy So if you believe in natural remedies and naturopathic treatments the cures are right around you But many of us would rather go to a doctor and get some expensive medicine The side effect of that medicine is going to be that some other part of our system is going to get affected After that we go back to the doctor again and get some medicine to treat that side effect That medicine produces another side effect This is going to be your way of living for the rest of your life However if you eat natural medicines you are never going to suffer from any sort of side effects That is because natural products are more tuned to your body's systems and natural needs than chemical drugs are Say no to chemical drugs as far as possible For all those who have read Lloyd C Douglas Magnificent Obsession and liked it Mr Douglas had some more words spoken by another of his popular characters in Disputed Passage That doctor said something on the lines of it is not our duty to just cure the body We have to cure the mind and spirit too and heal them much to the disgust of doctor Tubby

Forrester who considered every human to be a machine which needed to be put right and where did emotions and spirit and soul come into this curing process At the end of the story Dr Forrester had to accept the fact that human beings had to be treated by doctors who understood their psychological mental spiritual and emotional makeup Unfortunately this is not being done today because doctors are harried and have to see a number of patients till the end of a day **The Good Living**
