The Works of Edgar Allan Poe Edgar Allan Poe, Darrell Schweitzer, 2003-08-01 This volume of THE WORKS OF EDGAR ALLEN POE contains examples of his frantic and to 21st century readers at least forced humor but also such unusual items as Mellonian Tauta a satirical science fiction story set in the year 2848 aboard an airship and The Conversation of Eiros and Charmion in which two spirits in the afterlife recall how the Earth was destroyed by a comet which drew all the nitrogen out of the atmosphere leaving the remaining oxygen to start a world consuming fire An odd notion Spiritual prologue aside is this a predecessor of the hard science sort of science fiction which has flourished since the 1940s The Colloquy of Monas and Una can be read as a sequel a vision of a further future and

of a new Earth which has emerged since the holocaust There are classic supernatural stories present too Metzengerstein is a horror story of murder supernatural revenge and a prophetic curse The thing to remember about Poe is that he is a sufficiently important figure in the history of literature that it is worthwhile to read his entire output No one really cares about the whole body of the work of say W W Jacobs the author of The Monkey s Paw mostly humorous sea stories some of them topical of little interest today But Poe is different He is more than just the author of The Raven and The Masque of the Red Death That is why he fills five volumes
