Light Up the Cave Denise Levertov, 1981 This volume of fiction and essays includes three short stories articles on the craft of poetry focusing on the musical function of the line and a discussion of the relation of poets to politics *The 1980s British Conspiracy Thriller* Paul Lynch, 2022-08-29 In this book Paul Lynch explores the genre of the British conspiracy thriller a confrontational and dark response to what novelists and filmmakers perceived as an increasingly Orwellian secret state in the political landscape of the time Through analyses of a variety of film and television productions Lynch examines the ways in which they were influenced by their Hollywood and European counterparts and the work of John le Carr conveying the real world practices of the British intelligence services that served as inspiration and evaluating the genre's effectiveness in providing meaningful political commentary to mainstream audiences Lynch draws on extensive interviews with novelists film producers screenwriters and directors to form the basis of detailed and original case studies about films such as *Defence of the Realm* 1986 *The Whistle Blower* 1986 and *The Fourth Protocol* 1987 In addition to these case studies Lynch also includes declassified intelligence material and interviews with former members of the intelligence community to reveal the extent to which popular television and cinema accurately reflected the inner workings of the security services at that time Scholars of film studies cultural history political science and adaptation studies will find this book of particular interest *Nuclear Fictions* Michael Gardiner, 2024-11-30 In this book Michael Gardiner suggests that the conception of the war ending weapon was tied up with a longer commitment to unified space and singular progress The mission for total weapons can be seen rising with the highly technical defensive war of the later nineteenth century and passing through

twentieth century atomic research then the targeting of the outskirts of commercial empire and the post war consensus with deterrence as its foundation The end of the Cold War brought an opportunity to fully naturalise deterrence but also brought a

tacit acceptance of nuclear violence while forms of violence against the individual were rigorously sought out If the world unifying role of deterrence has always been undermined by the rise of rival empires it has also been questioned by critical communities including the consensus sceptics of the 1950s 60s 1980s 90s Nuclear Criticism and readers of nuclearism millennial campaigns for Scottish independence and twenty first century descriptions of nuclear colonialism Recently it has become more obvious that an Anglosphere concept of worldly deterrence was bound to a singular and ultimately nihilistic idea of progress bio Michael Gardiner is Professor in the Department of English and Comparative Literature at the University of Warwick

The End of Wisdom Martin A. Shields,2006-06-30 Through the ages the book of Ecclesiastes Qoheleth has elicited a wide variety of interpretations Its status as wisdom literature is secure but its meaning for the religion of the Hebrew Bible and its heirs has been a matter of much debate The debate has swung from claiming orthodoxy for the book to arguing that the message intended by its author is heterodox in its entirety There are a number of passages in the book that present difficulties for any comprehensive approach to the work Martin Shields here fully acknowledges the heterodox nature of Qoheleth's words but offers an orthodox reading of the book as a whole through the eyes of the author of the epilogue After a survey of attitudes regarding wisdom in the Hebrew Bible itself which serves as an orientation to the monograph as a whole

Shields provides a detailed study of the epilogue Qoh 12 9 14 which he believes is the key to the reading of the remainder of the book He then addresses various problematic texts in the book in light of this perspective arguing that the book could originally have functioned as a warning to students against joining a wisdom movement that existed at the time of the book's composition Qoheleth is presented as a true adherent of this movement and the divergence of his words from the theism presented in the rest of the Hebrew Bible becomes the basis of the epilogue's critique Finally Shields proposes a historical context in which just this scenario may have arisen showing that the desire of the writer of the epilogue is to correct a wayward wisdom tradition
