Education For Living:

Education and Schmid's Art of Living Christoph Teschers, 2017-07-14 Instead of simply following the current neoliberal mantra of proclaiming economic growth as the single most important factor for maintaining well being Education and Schmid's Art of Living revisits the idea of an education focused on personal development and the well being of human beings Drawing on philosophical ideas concerning the good life and recent research in positive psychology Teschers argues in favour of shifting the focus in education and schooling towards a beautiful life and an art of living for today's students Containing a thorough discussion of the ideas of contemporary German philosopher Wilhelm Schmid this book considers the possible implications of developing a more humanistic and life centred approach to educational policy research and practice showing that Schmid's concept of Lebenskunst provides a firm philosophical basis for this endeavour Among others this book draws on analytical and continental traditions to challenge current views and assumptions in regard to education and the role of schooling for contemporary societies As a result Teschers work is sure to spark a debate about the direction of educational policy and practice in the 21st century Education and Schmid's Art of Living is essential reading for academics and students with an interest in education Given the importance of such topics as the relationship between education and society teacher education and how best to structure schools and learning environments Teschers work will appeal to academics and students in a diverse range of fields including education philosophy sociology and psychology

Re-Enchanting Education and Spiritual Wellbeing Marian de Souza,Anna Halafoff,2017-09-14 Education is in a constant state of renewal internationally where it responds to a number of pressing social political and cultural issues Processes of globalization a number of conflicts and acts of terror economic and environmental crises have led to large waves of migration and asylum seekers arriving in countries with the hope of finding safer and more stable places to settle This in turn has led to cultural and religious pluralism being a key characteristic of many societies with corresponding issues of belonging and identity As well for many people there has been a shifting influence of and allegiance away from traditional religious frameworks with the emergence of new religious movements both peaceful and violent and a rise in popularity of spirituality and non religious worldviews which provide alternate frameworks for living healthy and ethical lives In order to prepare today s student for tomorrow s world one which is confronted by a range of risks and crises and which is being shaped by rapidly changing technologies educators and researchers are investigating new ways of equipping students to deal with these challenges and opportunities including the nurturing of spiritual wellbeing This book brings together the voices of many experienced educators to discuss ways to re enchant education and re enliven learning programs in response to these 21st century issues in an increasingly global and interconnected world It examines a range of international contexts including secular and religious educational settings and provides an avenue for visionary voices that identify problems and offer solutions to help shape a more promising education system that will prepare children more constructively and beneficially to
