Packed full of practical advice for the everyday realities of the early years classroom, topics discussed include Historical perspectives and contemporary issues related to child health, Current policy and legislation, How to support the child and the family, Nutrition in childhood, Infectious diseases, Infestations and the acutely ill child, Children with chronic and complex medical conditions, Coping with the death of a child. A timely topical text that will be invaluable to early years professionals.

Jackie Musgrave will be discussing key ideas from *Supporting Children's Health and Wellbeing in the SAGE Early Years Masterclass*, a free professional development experience hosted by Kathy Brodie.

**Handbook of Anti-Discriminatory Education** Ardavan Eizadirad, Peter Pericles Trifonas, 2025-05-29 This comprehensive handbook addresses issues related to anti-discriminatory education as it relates to children, youth, young adults, families and practitioners across a series of age groups, sectors, communities and countries. It seeks to map a holistic interdisciplinary overview of the field, examining how policies, practices and initiatives within unique social, political and cultural contexts have been enacted to advance anti-discriminatory education for improved equity, diversity and inclusion outcomes, leading to thriving school community ecosystems. The work draws on a range of theoretical frameworks, hybrid perspectives and research projects to provide multiple examples about the challenges, complexities and nuances involved in theorizing and doing the work of anti-discriminatory education in local communities and on a macro institutional level. With intentionality, authors from various backgrounds, identities, fields and positionalities describe and discuss various social justice and equity issues and how they strategize, mobilize and navigate unique micro and macro dynamics affiliated with power and privilege for the purpose of advancing the field of anti-discriminatory education. Overall, the chapters cover a range of topics and issues from various practitioners and community perspectives around the intersectionality and divergence of navigating micro-lived experiences and macro institutional policies and practices to bridge the gap between theory and action with respect to anti-discriminatory education. The book is divided into 4 sub-sections: Early Childhood Education (Early years up to approx 10 years old), Elementary and Middle School Years (approx 11 to 14 years old), Secondary Schools (approx 15 to 19 years old) and Higher Education/Post Secondary.

The Praeger Handbook of Special Education Alberto M. Bursztyn Ph.D., 2006-12-12 This book introduces readers to key concepts and issues in the evolving field of special education Arguably over the past thirty years no other area of education has been as radically transformed as the provision of services to children with disabilities Since the mid 1970s special education has steadily grown to reach fully 12% of the U S student population in grades K 12 and millions of children from birth to age five Despite its promise of equal access special education has become a controversial field in many respects Critics point to its high cost questionable pedagogical effectiveness and differential outcomes across localities family income levels and ethnicities The more typical approach in the literature highlights the legal and procedural mandates that dominate the discourse on

educating the disabled student but fails to explore the underlying assumptions and inconsistencies that make this area of education a controversial and still unsettled enterprise This handbook departs from the traditional books in the field by focusing on the ways that special education policies and practices are enacted rather than highlighting only their intended outcomes Contributors to this text focus on defining commonly used terms and professional jargon in order to give interested readers access and insight into the field of special education and its associated practices Some of the subjects included in this volume are the history of special education disability and society law and special education pedagogy policies and practices and research in special education
