Justice: A Social, Historical and Legal Perspective , Writing and Motivation Suzanne Hidi,Pietro Boscolo,2006-11-01 The aim of this volume is to bring together contributions from international research on writing and motivation It not only addresses the basic question of how motivation to write can be fostered but also provides analyses of conceptual and theoretical issues at the intersection of the topics of motivation and writing What emerges from the various chapters is that the motivational aspects of writing represent a rich productive and partially still unexplored research field This volume is a step in the direction of a more systematic analysis of the problems as well as an effort to present and compare various models perspectives and methods of motivation and writing It addresses the implications of writing instruction based on the 2 main approaches to writing research cognitive and socio cultural It provides systematic analysis of the various models perspectives and methods of motivation and writing It brings together the international research available in this burgeoning field International Research Handbook on Values Education and Student Wellbeing Terence Lovat,Ron Toomey,Neville Clement,2010-08-05 Informed by the most up to date research from around the world as well as examples of good practice this handbook analyzes values education in the context of a range of school based measures associated with student wellbeing These include social emotional moral and spiritual growth elements that seem to be present where intellectual advancement and academic achievement are being maximized This text comes as values education widens in scope from being concerned with morality ethics civics and citizenship to a broader definition synonymous with a holistic approach to education in general This expanded purview is frequently described as pedagogy relating to values and wellbeing This contemporary understanding of values education or values and wellbeing pedagogy fits well with recent neuroscience research This has shown that notions of cognition or intellect are far more intertwined with social and emotional growth than earlier educational paradigms have allowed for In other words the best laid plans about the technical aspects of pedagogy are bound to fail unless the growth of the whole person social emotional moral spiritual and intellectual is the pedagogical target Teachers and educationalists will find that this handbook provides evidence culled from both research and practice of the beneficial effects of such a values and wellbeing pedagogy **Being Gifted in School** Laurence J.
