Marcus, 2023-03-28 Pictured Worlds is a lavishly illustrated large format reference book highlighting the work of 101 top children's illustrators In Pictured Worlds renowned historian Leonard S Marcus shares his incomparable knowledge of illustrated children's books which came of age in the 18th century when John Newbery set a model for tailoring books to the interests and capabilities of young readers and went on to become a global cultural phenomenon The author of more than 25 award winning books Marcus here highlights an international roster of 101 artists of the past 200 years whose touchstone achievements collectively chart the major trends and turning points in the history of children's book illustration While some illustrators explored in this lively volume John Tenniel Maurice Sendak have become household names Marcus's wide ranging survey also shines a light on several lesser known figures whose unique contributions merit a closer look The result is a sweeping chronicle of a vibrant art form and cultural driver that has touched the lives of literate peoples everywhere More than 500 illustrations showcase landmark books from Great Britain the United States France Germany Austria Italy Sweden Czech Republic Russia Japan China Korea Bulgaria Argentina Cameroon and more Each illustrated entry comprises an artist's biography and career overview and a deep dive into a pivotal book and its legacy Featured books include Ivan Bilibin's The Tale of the Golden Cockerel Leo Lionni's Inch by Inch Richard Doyle's In Fairyland Kveta Pacovsk's One Five Many Helen Oxenbury's We're Going on a Bear Hunt Anno Mitsumasa's Anno's Journey and Zhu Cheng Liang's A New Year's Reunion as well as the books that introduced such iconic characters as Alice Max Struwwelpeter the Little Prince and Winnie the Pooh At once a celebration of illustrated children's books and an essential reference work Pictured Worlds encapsulates in the author's words the special nature of the illustrated children's book as a cultural enterprise that is at once a rewarding art form a bridge across cultures and a ladder between generations **Still Growing** Donald Capps, 2015-03-26 The later adult years are commonly viewed as a period in which one struggles to maintain a vestige of the physical mental and emotional vitality of one's earlier years In Still Growing however Donald Capps shows that older adulthood is actually a period of growth and development and that a central feature of this growth and development is the remarkable creativity of older adults This creativity is the consequence of the wisdom gained through years of experience but is also due to a newly developed capacity to adapt to unprecedented challenges integral to the aging process In Part 1 Capps illustrates the challenges of transitioning to older adulthood from the author's own experiences while in Part 2 he draws on material from Erik H Erikson Sigmund Freud and Paul W Pruyser to account for longevity adaptability and creativity in older adults Finally in part 3 he focusses on the work of both William

James and Walt Disney to fashion a model of creative aging

A Social History of

Knowledge II Peter Burke, 2013-04-17 Peter Burke follows up his magisterial *Social History of Knowledge* picking up where the first volume left off around 1750 at the publication of the French *Encyclopédie* and following the story through to Wikipedia Like the previous volume it offers a social history or a retrospective sociology of knowledge in the sense that it focuses not on individuals but on groups institutions collective practices and general trends The book is divided into 3 parts The first argues that activities which appear to be timeless gathering knowledge analysing disseminating and employing it are in fact time bound and take different forms in different periods and places The second part tries to counter the tendency to write a triumphalist history of the growth of knowledge by discussing losses of knowledge and the price of specialization The third part offers geographical sociological and chronological overviews contrasting the experience of centres and

peripheries and arguing that each of the main trends of the period professionalization secularization nationalization democratization etc coexisted and interacted with its opposite As ever Peter Burke presents a breath taking range of scholarship in prose of exemplary clarity and accessibility This highly anticipated second volume will be essential reading across the humanities and social sciences
