Garden Revolution Larry Weaner, Thomas Christopher, 2016-05-18 A leading landscape designer shows how an ecological approach can lead to beautiful gardens that benefit the environment and require less time and money According to landscape designer Larry Weaner conventional gardening is full of counter intuitive time consuming and even

harmful habits The constant tilling weeding irrigating and fertilizing create perpetual disturbance in a plot s ecology and waste countless hours in a dubious struggle against nature In *Gardening Revolution* Weaner offers a radically new approach based on the ways plants and wildlife behave in nature He advocates for a more fluid style choosing plants that are adapted to the soil and climate and then capitalizing on positive developments as they occur This lushly photographed reference is for anyone looking for a better smarter way to garden

The Garden Primer Barbara Damrosch,2008-01-01 Offers advice on buying and growing different kinds of plants with an emphasis on the use of native plant species and the techniques of organic gardening

The Garden of Ideas Richard Aitken,2010 The Garden of Ideas tells an inspiring and engaging story of Australian garden design From the imaginings of emigrant garden makers of the late eighteenth century to the concerns of twenty first century gardeners this book charts its way across four centuries through a handsome and satisfying fusion of images and text The Garden of Ideas is embellished with an unparalleled array of images paintings drawings prints plans and photographs each richly evocative of their time and most never previously published Unearthed from around Australia and many from overseas these images carry the story of Australian garden style down the years in the process criss crossing social and cultural history across the wide extremes of our continent Richard Aitken whose book *Botanical Riches* was published in 2006 to popular and critical acclaim brings a lifetime of experience to *The Garden of Ideas* He achieves fresh insights and presents our passion for garden making with wit and flair *The Garden of Ideas* is a valuable source book for the sophisticated gardener and an indispensable companion for the garden lover

Succulent Paradise - Twelve great gardens of the world Gideon Smith,2013-09-12 Most botanical gardens include succulents in their collections few are devoted solely to them In *Succulent Paradise* the reader is taken on a verbal and visual tour of twelve exceptional succulent gardens See how a handful of landscaping and horticultural visionaries have juxtaposed indigenous and exotic plants with a blend of natural and created landscaping elements Experience the impact and style of gardens in locations as diverse as steeply terraced Mediterranean cliffs dusty Karoo plains Mexico City s metropolis California s canyons and the red desert of Arizona The authors have visited gardens around the world dedicated to the display cultivation and propagation of succulent plants In *Succulent Paradise* they have expressed their love of these tenacious yet surprisingly glamorous plants as well as appreciation for those whose vision and persistence has variously created abundance promoted conservation and left a legacy for future generations
