Good To Great And The Social Sectors:

Good To Great And The Social Sectors Jim Collins,2011-09-27 Building upon the concepts introduced in Good to Great Jim Collins answers the most commonly asked questions raised by his readers in the social sectors Using information gathered from interviews with over 100 social sector leaders Jim Collins shows that his Level 5 Leader and other good to great principles can help social sector organizations make the leap to greatness **Good to Great and the Social Sectors**

James Charles Collins,2005 An addition to Jim Collins s book Good to Great that focuses on achieving high performance in the social sectors **Good to Great and the Social Sectors** ,2011 *Summary of Jim Collins's Good To Great And The Social Sectors* Everest Media,2022-06-22T22:59:00Z Please note This is a companion version not the original book Sample Book

Insights 1 Good is the enemy of great And that is one of the main reasons why we have so little that becomes great We don t have great schools governments or companies because it is just so easy to settle for a good life 2 The good to great examples that made the final cut attained extraordinary results 3 The quest to find the secrets of greatness began with a single company Walgreens and its transformation from a mediocre company to a great one The five year study yielded many insights many of which were surprising and contrary to conventional wisdom 4 I began to assemble a team of researchers We found eleven good to great examples including Fannie Mae and Walgreens which surprised us It is possible to turn good into great in the most unlikely of situations Good To Great And The Social Sectors James Charles Collins,2005 An addition to Jim Collins s book Good to Great that focuses on achieving high performance in the social sectors

Good to Great and the Social Sectors James Charles Collins,2012 The author has written this book for the social sector to enhance his book Good to Great This small book is a response to questions raised by readers in the social sector It is based on interviews and workshops with over 100 social sector leaders The difference between successful organisations is not between the business and the social sector the difference is between good organizations and great ones **Strong in Her Girls** Jim Collins,2005

Good to Great and the Social Sectors James C. Collins,Jim Collins,2005 Proposes applying the author s business strategies for transforming companies to nonprofit and public organizations to help them increase efficiency and most benefit the clients they serve **Understanding the Social Economy of the United States** Laurie Mook,John R. Whitman,Jack

Quarter,Ann Armstrong,2015-02-05 Understanding the Social Economy of the United States is a comprehensive introduction to the operation and study of organizations with social goals public sector nonprofits civil society organizations social enterprises cooperatives and other organizations with a social mission under the rubric of the social economy This text is rich in examples and case studies that explain the social economy framework in the context of the United States The book not only highlights the differences between these organizations and traditional businesses but also provides applied chapters on organizational development strategic management and leadership human resources finance and social accounting and accountability in social economy organizations The perfect introduction to the social economy framework for students of

nonprofit management business social entrepreneurship and public policy Understanding the Social Economy of the United States an invaluable resource for the classroom and for practitioners working in the social economy sector *In Pursuit of Great AND Godly Leadership* Mike Bonem,2011-11-15 Is it possible for church leaders to use biblical and secular leadership concepts in a way that keeps Christ not the marketplace at the center of their mission Drawing on biblical material and business wisdom *In Pursuit of Great AND Godly Leadership* explores the critical leadership decisions and practices that shape the success of Christian organizations These decisions are illustrated in compelling interviews with over forty leaders of churches universities denominational bodies and international ministries Mike Bonem leverages his background as an MBA trained manager and an experienced church leader to bridge the gap between the analytical and structured world of business and the faith driven approach that is essential for healthy churches Written to offer practical solutions for senior pastors executive pastors key laypeople and leaders of other Christian entities *In Pursuit of Great AND Godly Leadership* clearly shows the ways that secular practices can be imported into their organizations Bonem addresses a variety of topics such as planning finances personnel management measurement team dynamics and organizational change In doing so he points to the AND that every spiritual organization should strive to achieve **Outcomes, Performance, Structure (OPS)**

Michael E. Gallery,Stephen C. Carey,2013-12-09 The purpose of this book is to help you put already existing performance criteria in a context of your organizational system and assist you in using the criteria to assess problems in your organization More importantly this book will help you in designing systemic solutions to the systemic problems you have identified with easy to use samples and questions that draw out key areas where the organization needs to improve Most organizations are not lacking in information what is most often lacking is a framework that leaders can use to organize and make sense of the information they have The authors provide such a framework through OPS They will also help readers engage in backwards thinking to identify and fix real world problems with practical solutions This book is not an answer book in the sense that we present a series of common problems and the accompanying answers To be sure many such books exist such as 101 Ideas for fill in the blank Most of these answers are based on someone s recollection of what they did to solve a problem The results of the solution measureable gains are seldom if ever reported This book provides a system for discovering your own problems developing solutions evaluating success and gathering information that will help to improve solutions should they fail on the first attempt It is based upon more than 30 years of research within the discipline of human performance improvement

Community Education for Social Justice Cameron White,2014-02-05 What is community How important is community in the 21st century Where might the idea of community fit in education and schooling teaching and learning These are the questions and themes embedded in this book The general critique is that community is an add on in our schools and often is dismissed as a result of the individualistic and competitive nature of schooling today Our focus is to provide critical investigations as to the possibility of community and that we need community now more than ever The concept of community

education brings many ideas and issues to mind Related themes include place based field based environmental service learning and outdoor education Each has its own more narrow focus with community education perhaps an umbrella term than encompasses them all Nevertheless the suggestion here is that instead of community education serving as an extension or add on to traditional approaches it should be the focus of all education What is often missing in teaching and learning are contexts and connections that make education meaningful Community education engages participants in problem and issues based approaches to the local community thereby facilitating that local to global link Instead of compartmentalized subjects integrated approaches use what students and the community know or understand to develop further questions solutions or even problems Community education offers efficacy in that it provides opportunities for collaboration in addressing local issues and problems It enables the community to become the classroom thus ensuring a more long term connection to active rather than passive endeavors as citizens

Social Entrepreneurship Alex Nicholls,2008-04-03 Social Entrepreneurship is a term that has come to be applied to the activities of grass roots activists NGOs policy makers international institutions and corporations amongst others which address a range of social issues in innovative and creative ways Themed around the emerging agendas for developing new sustainable models of social sector excellence and systemic impact Social Entrepreneurship offers for the first time a wide ranging internationally focused selection of cutting edge work from leading academics policy makers and practitioners Together they seek to clarify some of the ambiguity around this term describe a range of social entrepreneurship projects and establish a clear set of frameworks with which to understand it Included in the volume are contributions from Muhammad Yunus the father of microfinance Geoff Mulgan former head of the British prime minister s policy unit and Bill Drayton founder of the Ashoka network of social entrepreneurs Jeff Skoll founder of the Skoll Foundation and first president of eBay provides a preface

Social Entrepreneurship David Bornstein,Susan Davis,2010-04-16 In development circles there is now widespread

consensus that social entrepreneurs represent a far better mechanism to respond to needs than we have ever had before a decentralized and emergent force that remains our best hope for solutions that can keep pace with our problems and create a more peaceful world David Bornstein's previous book on social entrepreneurship *How to Change the World* was hailed by Nicholas Kristof in the *New York Times* as a bible in the field and published in more than twenty countries Now Bornstein shifts the focus from the profiles of successful social innovators in that book and teams with Susan Davis a founding board member of the Grameen Foundation to offer the first general overview of social entrepreneurship In a Q A format allowing readers to go directly to the information they need the authors map out social entrepreneurship in its broadest terms as well as in its particulars Bornstein and Davis explain what social entrepreneurs are how their organizations function and what challenges they face The book will give readers an understanding of what differentiates social entrepreneurship from standard business ventures and how it differs from traditional grant based non profit work Unlike the typical top down model based approach to solving problems employed by the World Bank and other large institutions social entrepreneurs work through a process of iterative learning learning by doing working with communities to find unique local solutions to unique local problems Most importantly the book shows readers exactly how they can get involved Anyone inspired by Barack Obama's call to service and who wants to learn more about the essential features and enormous promise of this new method of social change *Social Entrepreneurship What Everyone Needs to Know* is the ideal first place to look *What Everyone Needs to Know* is a registered trademark of Oxford University Press

Zoo Animal Welfare Terry Maple, Bonnie M

Perdue, 2013-03-22 *Zoo Animal Welfare* thoroughly reviews the scientific literature on the welfare of zoo and aquarium animals Maple and Perdue draw from the senior author's 24 years of experience as a zoo executive and international leader in the field of zoo biology The authors' academic training in the interdisciplinary field of psychobiology provides a unique perspective for evaluating the ethics practices and standards of modern zoos and aquariums The book offers a blueprint for the implementation of welfare measures and an objective rationale for their widespread use Recognizing the great potential of zoos the authors have written an inspirational book to guide the strategic vision of superior welfare oriented institutions The authors speak directly to caretakers working on the front lines of zoo management and to the decision makers responsible for elevating the priority of animal welfare in their respective zoo In great detail Maple and Perdue demonstrate how zoos and aquariums can be designed to achieve optimal standards of welfare and wellness

Curriculum

Development for Medical Education Patricia A. Thomas, David E. Kern, Mark T. Hughes, Belinda Y. Chen, 2016-01-29 The third edition of this invaluable text reflects significant changes driving curriculum development and renewal throughout medical education Based on a proven six step model and including examples and questions to guide application of those timeless principles *Curriculum Development for Medical Education* is a practical guidebook for all faculty members and administrators responsible for the educational experiences of medical students residents fellows and clinical practitioners

Incorporating revisions driven by calls for reform and innovations in medical education that challenge established teaching models the third edition includes an awareness of new accreditation standards and regulatory guidelines The authors have expanded their discussion of survey methodology for needs assessment and stress the importance of writing competency based goals and objectives that incorporate milestones entrustable professional activities and observable practice activities With updated examples focusing on interprofessional education collaborative practice and educational technology they describe educational strategies that incorporate the new science of learning A completely new chapter presents the unique challenges of curriculum development for large long and integrated curricula

Systems Thinking For Social Change

David Peter Stroh, 2015-09-24 David Stroh has produced an elegant and cogent guide to what works Research with early learners is showing that children are natural systems thinkers This book will help to resuscitate these intuitive capabilities and strengthen them in the fire of facing our toughest problems Peter Senge author of The Fifth Discipline Concrete guidance on how to incorporate systems thinking in problem solving decision making and strategic planning for everyone Donors leaders of nonprofits and public policy makers usually have the best of intentions to serve society and improve social conditions But often their solutions fall far short of what they want to accomplish and what is truly needed Moreover the answers they propose and fund often produce the opposite of what they want over time We end up with temporary shelters that increase homelessness drug busts that increase drug related crime or food aid that increases starvation How do these unintended consequences come about and how can we avoid them By applying conventional thinking to complex social problems we often perpetuate the very problems we try so hard to solve but it is possible to think differently and get different results Systems Thinking for Social Change enables readers to contribute more effectively to society by helping them understand what systems thinking is and why it is so important in their work It also gives concrete guidance on how to incorporate systems thinking in problem solving decision making and strategic planning without becoming a technical expert Systems thinking leader David Stroh walks readers through techniques he has used to help people improve their efforts on complex problems like ending homelessness improving public health strengthening education designing a system for early childhood development protecting child welfare developing rural economies facilitating the reentry of formerly incarcerated people into society resolving identity based conflicts and more The result is a highly readable effective guide to understanding systems and using that knowledge to get the results you want

Relationship-based Social Work with Adults

Heidi Dix, Sue Hollinrake, Jennifer Meade, 2025-02-28 There has been a resurgent interest in relationship based practice and the Care Act 2014 recognises the significance of effective working relationships with service users and carers to ensure a person centred approach and effective participation and co production The Care Act advocates a strengths based whole family approach to assessment care and support planning Relationship putting the person at the centre of the process lies at the heart of this approach This book is a practice based exploration of relationship based practice for social work with adults

that looks at underpinning theory legislation and policy drivers value perspectives and skills in practice The first part of the book introduces relationship based practice and theoretical concepts such as psycho social and psycho dynamically informed approaches to practice which highlight the complexities of relationships at conscious and unconscious levels both from the service user carer perspective and the professional s perspective where reflection and use of self are key it critically explores the legislation and policy context A conceptual model called IDEAS is introduced which provides a framework for the second part of the book by breaking down the discussion into relevant practice issues Here theory skills and values are applied through case examples to illustrate the efficacy of relationship based practice across a range of practice settings in social work with adult service users and carers
