Anthropology Julia Harrison, Regna Darnell, 2011-11-01 *Historicizing Canadian Anthropology* is the first significant examination of the historical development of anthropological study in this country. It addresses key issues in the evolution of the discipline, the shaping influence of Aboriginal anthropological encounters, the challenge of compiling a history for the Canadian context, and the place of international and institutional relations. The contributors to this collection reflect on the definition and scope of the discipline and explore the degree to which a uniquely Canadian tradition affects anthropological theory, practice, and reflexivity. *Historicizing Canadian Anthropology* is a watershed that will revitalize critical reflexivity within the field. With contributions from a broad cross section of anthropologists from senior scholars to doctoral students, this book is essential reading for practising Canadian anthropologists, their students, and others who seek to understand the historical contours of the field.

The American Novel 1870-1940 Priscilla Wald, Michael A. Elliott, Jonathan Arac, 2014-02 Witnessing the end of a war that nearly terminated the nation, the abolition of racial slavery, and the rise of legal segregation, the rise of Modernism and Hollywood, the closing of the frontier, and two World Wars, the literary historical period represented in this volume constitutes the crucible of American literary history. Here 35 essays by top researchers in the field detail how considerations of race and citizenship, immigration and assimilation, gender and sexuality, nationalism, and empire all reverberate throughout novels written in the United States between 1870 and 1940. Contributors discuss the professionalization of literary production after the Civil War alongside legal and political debates over segregation and citizenship, while chapters on journalism, geography, religion, and immigration offer discussions on everything from the lasting role of literary realism in American fiction to the Spanish American War's effect on developing theories of aesthetics and popular culture. The volume offers thorough coverage of the emergence of serial fiction, children's fiction, crime and detective fiction, science fiction, and even cinema and comics as new media and artistic revolutions like the Harlem Renaissance helped usher in the new international aesthetic movement of Modernism. The final chapters in the volume explore the relationship of the novel to the emergence of American literature as a category in the academy, in public criticism and journalism, and in mass culture.
